Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase I	Apply crack seal & type II slurry over 237,000 square feet of existing asphalt pavement. Re-install all pavement markings.	*Muskrat Ave. Joshua St, Dennis St, Panther Ave. and Janine St. between Jay St. and Kay St. *Jay St. between Racon Ave. and Muskrat Ave. *Kay St. between Janine St. and Muskrat Ave.	06/2018	07/2018	03	05
Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase I	Apply crack seal & type II slurry over 184,000 square feet of existing asphalt pavement. Re-install all pavement markings.	*Stevens St. and Aster Rd. between Chamberlaine Way and Vintage Road. *Vintage Rd. and Chamberlaine Wy. Between Stevens St. and Aster Rd. *The east half of Mendicino Rd. between Stevens St. and Aster Rd. *Sonoma Rd, Zinfadel Dr, Bouquet Ave. and Napa Rd.	06/2018	07/2018	03	05
Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase II	Apply crack seal & type II slurry over 290,000 square feet of existing asphalt pavement. Re-install all pavement markings.	*Aster Rd. between Bartlett Ave. and Inyo St. *Chevron Ct, Florence Ct, Leisure Rd, Lee Ave, Arlette Ct. and Inyo Ct. from Aster Rd. to cul-de-sac.	06/2019	07/2019	03	05
Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase II	Apply crack seal & type II slurry over 65,900 square feet of existing asphalt pavement. Re-install all pavement markings.	*Panther Ave. from Chamberlaine Wy end of pavement. *Franklin Ct from Panther Ave. to cu-de-sac. *Colonial Ave. and Payne Ct.	06/2019	07/2019	03	05
Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase II	Apply crack seal & type II slurry over 85,000 square feet of existing asphalt pavement. Re-install all pavement markings.	*Verbena Rd. from Lawson Ave. to Bartlett Ave. *Maya St. between Verbena St. and Hermosa Rd. *Aztec Ln. between Verbena Rd. and Hermosa Rd.	06/2019	07/2019	03	05
Adelanto	San Bernardino	Pavement Repair and Rehabilitation Project, Phase III	Apply crack seal & type II slurry over 817,900 square feet of existing asphalt pavement. Re-install all pavement markings.	*Bartlett Ave. between Racon Ave. and Aster Rd. *Aster Ave. between Bartlett Ave. and Air Expressway *Air Expressway between Aster Rd. and Racon Ave. *Racon Ave. between Air Expressway and Bartlett Ave. *All streets bound by the above described limits.	06/2020	07/2020	03	05
Adelanto	San Bernardino	Adelanto Rd. Widening Project	Construct 1.5 miles of street to ultimate width (80 feet curb to curb) including curb, sidewalks, grind and overlay all existing asphalt pavement, construct new ADA ramps, adjust utilities as necessary, install pavement parking and signage to implement traffic calming and pedestrian safety. This portion of Adelanto Rd. is a transit route and the pavement section and traffic control devices will be implemented accordingly.	Adelanto Rd. between Yucca Rd. and Highway 395.	03/2019	06/2019	10	20
Adelanto	San Bernardino	Rancho Rd. Widening Project.	Construct 3 miles of street to ultimate width (80 feet curb to curb) including curb and sidewalks, grind and overlay all existing asphalt pavement, construct new ADA ramps, adjust utilities as necessary, install pavement parking and signage to implement traffic calming and pedestrian safety. Portions of Rancho Road are transit routes. Therefore pavement sections and traffic control devices will be implemented accordingly.	Rancho Rd. between Adelanto Rd. and Koala Rd.	03/2019	06/2019	10	20
Adelanto	San Bernardino	Bellflower St. widening at Palmdale Rd.	Construct approximately 480 feet of new curb and gutter to widen Bellflower Road. Existing pavement will be ground and overlaid with new asphalt. The widened portion of Bellflower Rd. will extend new asphalt to new gutter. New pavement markings on the widened street will safety channel traffic to Palmdale Rd. (Hwy 18) and a new development at the corner of Palmdale Rd. and Bellflower Rd.	Bellflower Rd. from Palmdale Rd. to end of existing curb on west side of Bellflower.	11/2017	12/2017	10	20
Agoura Hills	Los Angeles	Fiscal Year 2017-18 Street Resurfacing Project	Resurfacing twelve road segments with rubberized asphalt concrete, as well as, upgrading nine ADA ramps.	Various locations within the City of Agoura Hills	10/2017	11/2017	10	25
Alameda	Alameda	Sidewalks	Street tree root pruning and sidewalk repair to maintain pedestrian circulation and safety, and minimize future damage to the street and sidewalk.	Throughout the City of Alameda - the backlog of repairs includes about 5,500 locations, of which, several clusters will be chosen that address the oldest requests, and maximize economy by aggregating sites in close location to each other.	07/2017	06/2018	10	70
Alameda	Alameda	Pavement Management	Resurfacing and repair of street pavement, and restoration of flowlines of associated curb and gutter, in order to extend the life of the street and improve its ridability for cyclists and motorists.	The Pavement Management program that is funded in FY 17-18 is spread throughout the City of Alameda. The particular street identified for SB1 funds is Broadway, from Shoreline Drive to Otis Drive.	05/2018	11/2018	30	40
Albany	Alameda	Evelyn Street Pavement Rehabilitation	This project consists of the asphalt concrete overlay of Evelyn Street from Garfield Avenue to Portland Avenue, for a distance of approximately 600 feet. It will also include base repair, traffic striping and upgrade of existing curb ramps at street intersections to meet ADA requirements.	Evelyn Street from Garfield Avenue to Portland Avenue, in the City of Albany	03/2018	06/2018	20	30
Alhambra	Los Angeles	FY2017/2018 RMRA Street Rehabilitation Project	Grind and overlay with rubberized asphalt	Pine Street, West City Limit to Atlantic Blvd.	06/2018	12/2018	15	20
Alhambra	Los Angeles	FY2017/2018 RMRA Street Rehabilitation Project	Grind and overlay with rubberized asphalt	Olive Avenue, Alhambra Road to Pine Street	06/2018	12/2018	15	20
Alhambra	Los Angeles	FY2017/2018 RMRA Street Rehabilitation Project	Grind and overlay with rubberized asphalt	Curtis Avenue, Alhambra Road to Pine Street	06/2018	12/2018	15	20

Blythe	Riverside	BARNARD STREET - STORMWATER SYSTEM IMPROVEMENT PROJECT	Install 300 feet of underground stormwater storage system; installation of catch basins to capture stormwater from the street; piping to connect to the existing storm drain system; and street reconstruction.	Intersection of W. Barnard and N Lovelink Blvd, City of Blythe, Riverside.	06/2018	11/2018	50	99
Bradbury	Los Angeles	Design of Citywide Slurry Seal Project (Partial)	The total cost of design will be \$15,000 so this funds the start of the design.	Citywide	12/2018	06/2019	05	07
Brawley	Imperial	Streets Rehabilitation Phase 11	Resurface approximately 0.5 miles of road utilizing recycle materials.	16th, 17th and 18th Streets between K St. and Malan St.	12/2017	06/2018	15	20
Brea	Orange	Cliffwood Industrial Park Pavement Rehabilitation Project	This project will rehabilitate the pavement on Cliffwood Street, Oak Place, Thor Place and Telstar Way pursuant to the 2017 Pavement Management Program.	The Project is located in the City of Brea at Cliffwood Industrial tract which includes Cliffwood Street, Oak Place, Thor Place, and Telsar Way	01/2018	06/2018	10	20
Brentwood	Contra Costa	Pavement Management Program - 2018	This project will consist of pavement condition surveying of roadways every two years and then reconstructing, overlaying, surface sealing and crack sealing various roads each year as needed. The City's pavement management software selects those streets on which it is the most cost effective to perform preventative maintenance with field verification by staff. Constructing roadways is a significant investment for the City. Preventative maintenance is the best means for keeping this large investment in good, operable condition and avoids costly reconstruction.	This is an annual Pavement Management Project, list of streets currently being developed.	05/2018	08/2018	07	15
Brentwood	Contra Costa	Lone Tree Way - Union Pacific Undercrossing	This project will construct a grade separation underpass consisting of four travel lanes crossing under the Union Pacific Railroad. This project entails: constructing a bridge structure; relocation of numerous existing wet and dry utilities; high pressure gas lines; storm water pump station; retaining walls and landscaped parkway. This project will increase public safety by creating a grade separation crossing of the Union Pacific Railroad, instead of the present at-grade crossing.	Lone Tree Way and Union Pacific Railroad at-grade crossing	07/2020	07/2022	25	30
Brentwood	Contra Costa	Brentwood Boulevard Widening North Phase I	This project will continue the widening of Brentwood Boulevard with two lanes in each direction and will include: two bike lanes; curbs; gutters; medians; sidewalk on east side; street lights and landscaping on each side of the roadway. This project will also include a new parallel bridge over Marsh Creek, traffic signal modification at Brentwood Boulevard and Grant Street and moving the overhead power lines, telephone lines and cable lines underground. This project will improve safety, traffic flow and facilitate adjacent development.	Brentwood Boulevard from Havenwood Avenue to Homecoming Way	07/2019	07/2020	25	30
Brentwood	Contra Costa	John Muir Parkway Extension - Phase II	Construct approximately 1,600' of road including a 16' median; two 12' lanes; 12" water main; median landscaping; street lights; 24" storm drain and 8" non-potable water main. This section of roadway will replace existing Concord Avenue to ensure continued traffic circulation in the area.	John Muir Parkway from the future Foothill Drive intersection with Concord Avenue to Briones Valley Road	05/2018	11/2018	25	30
Brentwood	Contra Costa	Brentwood Various Streets and Road Preservation	This project will provide pavement rehabilitation and preventative maintenance on arterial roadway segments in the City. Treatments will include grind and overlay, spot repairs, and slurry seals/crack seals. These pavement rehabilitation activities will require removal and replacement of ADA ramps to ensure compliance with current accessibility requirements. New traffic signal detection and striping will also be required where the existing assets are removed.	Balfour Road from Minnesota Avenue to Fairview Avenue and from East Country Club Drive to the Western City Limits; Lone Tree Way from Brentwood Boulevard to Medallion Drive, excluding portion located in unincorporated Contra Costa County	05/2020	09/2020	15	20
Brentwood	Contra Costa	Downtown Alley Rehabilitation	This project includes the installation of new water and sewer facilities, the rehabilitation of existing facilities, including streetlights and either the removal or replacement of existing infrastructure, to correct existing operations and maintenance constraints due to the age of the facilities. This project will allow the City to accommodate the anticipated development of the Downtown area and, where feasible, bring the aging facilities up to current standards.	Diablo Way and Midway Alleys, bounded by Brentwood Boulevard, Pine Street, Second Street, and Chestnut Avenue	06/2017	07/2022	25	30
Brisbane	San Mateo	Tunnel Avenue Rehabilitation	A gutter-to-gutter grind out/removal of the existing failing asphalt-concrete and replacement with a new thicker concrete section. Minor storm drain repairs/upgrades where necessary. The addition of Class II bikeway signage/striping.	Tunnel Avenue, beginning at the northern city limit with the City & County of San Francisco and thence south for no less than 1500'.	04/2017	10/2018	29	29
Buellton	Santa Barbara	2017/18 Road Maintenance Project	Type II Slurry Seal Road Maintenance, including localized R&R, signing and restriping to for reflectivity compliance.	Riverview Drive (north of Hwy 246), Sycamore Drive (north of Highway 246), Valley Dair Road (north of Highway 246), Arden Ave, Dogwood Drive, Cedar Lane, Beech Court, Alder Lane, Tamarind Lane, Blue Blossom Way, Cliff Rose Lane, Willow Lane, Via Corona Drive, Second Street (west of Calor).	03/2018	08/2018	15	30
Buena Park	Orange	Descanso Avenue Rehabilitation	1/3 mile Descanso Avenue roadway rehabilitation with AC. Includes removal and replacement of curb & gutter, sidewalk, accessible ramps, driveway approaches, signing & striping, utility adjustments, and other incidentals.	City of Buena Park - Descanso Avenue between Altura Boulevard and Caballero Boulevard.	12/2017	06/2018	10	15
Buena Park	Orange	Valley View Traffic Signal Improvements	Installation of new traffic signal to safe facilitate pedestrian and bicycle crossing Valley View Avenue. This will include a traffic signal, safety lighting, signing & striping, vehicle detection, signal timing, sidewalks, accessible ramps, curb & gutter, and other incidentals.	City of Buena Park - SCE transmission main corridor at Valley View Avenue (south of Thelma Avenue).	12/2017	06/2018	15	20

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Burbank	Los Angeles	Street Restoration Zone 2 Phase 1	Phase 1 (of 2) to resurface/reconstruct deteriorated streets, alleys, and concrete (sidewalk, driveway apron, curb, gutter, and pedestrian ramps) in Zone 2. Sidewalk improvements include new pedestrian ramps for improved disabled access. Resurfacing/reconstructing deteriorated streets, alleys, and sidewalks reduces on-going maintenance and improves ride quality.	Bob Hope Dr from End to Riverside Dr; Edison Rd from Alameda Av to Buena Vista St; Fairview St from Valley Heart Dr to Riverside Dr; Florence St from Oak St to Verdugo Av; Gaylord Dr from Valley Heart Dr to Riverside Dr; Lincoln St from Alameda Av to Oak St; Naomi St from Olive Av to Oak St; Naomi St from Alameda Av to Willow St; Niagara St from Valley Heart Dr to Riverside Dr; Niagara St from Riverside Dr to End; Oak St from Florence St to Naomi St; Oak St from Catalina St to Florence St; Ontario St from Alameda Av to End; Ontario St from Oak St to Verdugo Av.	07/2018	12/2018	20	20
Burbank	Los Angeles	Street Restoration Zone 2 Phase 2	Phase 2 (of 2) to resurface/reconstruct deteriorated streets, alleys, and concrete (sidewalk, driveway apron, curb, gutter, and pedestrian ramps) in Zone 2. Sidewalk improvements include new pedestrian ramps for improved disabled access. Resurfacing/reconstructing deteriorated streets, alleys, and sidewalks reduces on-going maintenance and improves ride quality.	Parkside Av from Bob Hope Dr to End; Riverside Dr from California St to Fairview St; Riverside Dr from Fairview St to Niagara St; Riverside Dr from Niagara St to Gaylord Dr; Riverside Dr from Gaylord Dr to Bob Hope Dr; Valley Heart Dr from California St to Fairview St; Valley Heart Dr from Fairview St to Niagara St; Valley Heart Dr from Niagara St to Gaylord Dr; Verdugo Av from Lincoln St to Myers St; Verdugo Av from Myers St to Keystone St; Warner Bl from End to Bob Hope Dr.	02/2019	06/2019	20	20
Burlingame	San Mateo	2018 Street Resurfacing Project	The project consists of street base failure repair and resurfacing on various streets within the city limit. Several different types of activities will be used including asphalt concrete "dig-out" repairs, asphalt concrete overlay, street reconstruction, surface milling, traffic markings, traffic control, concrete base repair and other related works.	City of Burlingame on California Drive, Trousdale Drive, Cadillac Way and Broadway	12/2018	12/2019	10	24
Calabasas	Los Angeles	Mulholland Hwy Shoulder Safety Improvements	The project is to widen the shoulder; provide a pedestrian pathway along one side of the roadway; and, improve sight distance at intersections. In addition, retaining walls will be constructed along certain segments within the project limits to prevent soil erosion during heavy rain events.	Mulholland Hwy between Old Topanga Cyn Rd and the City Limits with the Los Angeles County Line	06/2022	12/2024	25	30
Calabasas	Los Angeles	Las Virgenes Rd Shoulder Safety Improvements	The project is to widen the shoulder and install guardrails to reduce potential runoff road incidents.	Las Virgenes Rd between Lost Hills Rd and Mulholland Hwy	06/2021	06/2022	25	30
Calabasas	Los Angeles	Mulholland Hwy Gap Closure	The improvements on Mulholland Hwy adjacent to the Calabasas High School include sidewalk connecting between the eastern high school driveway on Mulholland Highway and an access road to the high school on Old Topanga Canyon Road. It will also include extending the existing Class II bike facility to Old Topanga Canyon Road. The pedestrian and bicycle facilities will end on Mulholland Highway, in front of Calabasas High School, approximately 770 feet east of the intersection. On Old Topanga Canyon Road, the improvements will include reconstructing the existing dirt path on the east side of the roadway to a fully improved sidewalk and connects it to the existing sidewalk adjacent to the school service road. Additional improvements include providing Class II bicycle facilities on both sides of the roadway that will extend to Mulholland Hwy. The pedestrian and bicycle facilities currently end north of Old Topanga Canyon Road.	Mulholland Hwy between Old Topanga Cyn Rd and 770 feet east of Old Topanga Cyn Rd and Old Topanga Cyn Rd between Mulholland Hwy and 810 feet north of Mulholland Hwy	06/2019	06/2020	20	25
Calexico	Imperial	Cesar Chavez Blvd. Improvements	The project will consist of widening and improving Cesar Chavez Blvd. to four (4) lanes from 2nd Street to Highway 98 and include surface rehab, turn lanes, traffic signal, lighting and sidewalks	Cesar Chavez Blvd. between Highway 98 and Second Street	12/2017	12/2018	10	20
Calexico	Imperial	Second Street Bridge Widening	The project will consist of widening and improving Second Street bridge	Second Street Bridge	12/2017	12/2018	10	20
California City	Kern	Aspen Ave. & Bay Ave.	Grind existing AC Surface and Repave with 3" of Hot Mix Asphalt an Estimated 0.74 CL miles of Local Streets.	Aspen Ave: 87th to Corwin; Bay Ave: S. Loop Blvd to Corwin; 87th: Aspen to Bay; 88th: CCB to Aspen; Corwin St: Aspen to Bay	11/2017	12/2017	08	10

Camarillo	Ventura	Annual Slurry Seal Program	Asphalt Rubber Aggregate Membrane (ARAM), Slurry Seal, and appurtenant work	Avenida Acaso from Adolfo Road to 299' N/O Calle Tesoro; Calle Suerte from Avenida Acaso to Calle Tesoro; Calle Tecate from Via Alondra to Flynn Road; Calle Tecate from Flynn Road to 670' E Of Flynn Road; Calle Tesoro from Flynn Road to Avenida Acaso; Corte Malpaso from W End to Via Alondra; Maya Linda from Via Alondra to Flynn Road; Via Alondra from Calle Tecate to Corte Malpaso; Via Alondra from Corte Malpaso to Maya Linda; Via Alondra from Maya Linda to Vista Mercado; Via Pescador from Flynn Road to Avenida Acaso; Vista Mercado from Via Alondra to Flynn Rd	07/2017	10/2017	07	10
Campbell	Santa Clara	ANNUAL STREET MAINTENANCE - AUDREY AVENUE & HACK AVENUE	Install asphalt concrete over the width of the two traveled lanes (approximately 24 feet) and apply slurry seal from road edge to road edge. The project will also install ADA compliant accessibility ramps at the intersections of Audrey/Burrows and at Audrey/Oburn, and new striping.	Audrey Avenue – from Burrows Road to the eastern terminus east of Vale Avenue at the rear entrance to Capri elementary School, and Hack Avenue – from W. Parr Avenue to the northern terminus at Audrey Avenue	06/2018	12/2018	10	15
Canyon Lake	Riverside	Overlay and Slurry Seal of Railroad Canyon Road	Pavement rehabilitation, preservation, re-striping.	Railroad Canyon Road - Western City Boundary to Eastern City boundary - 2 Miles	01/2017	04/2017	05	07
Canyon Lake	Riverside	Catch Basin Trash Filters	Install trash filters in existing storm drain catch basins	Railroad Canyon Road - Western City Boundary to Eastern City boundary - 2 Miles	05/2017	06/2017	20	25
Canyon Lake	Riverside	Speed Feedback Signs	Install speed feedback signs along Railroad Canyon Road	Railroad Canyon Road - Western City Boundary to Eastern City boundary - 2 Miles	01/2017	03/2017	15	20
Capitola	Santa Cruz	Highway 1 Interchange Bike Lane Improvements	Bike lane improvements to install green bike lanes	41st Ave, Bay Ave, and Park Ave interchanges with Highway 1	07/2017	11/2017	10	20
Carlsbad	San Diego	Signal Operations Modifications	Modify the traffic signal equipment, signage and striping at each intersection as follows: <ul style="list-style-type: none"> <li>- El Camino Real and Hosp Way: remove split phase and convert to 8 phase</li> <li>- El Camino Real and Town Garden: remove split phase and convert to 8 phase</li> <li>- El Camino Real and Cassia Rd: remove north pedestrian crosswalk.</li> </ul>	At the intersections of El Camino Real and Hosp Way, El Camino Real and Town Garden, and El Camino Real and Cassia Road.	12/2017	12/2018	25	50
Carlsbad	San Diego	Traffic Signal - Camino de los Coches and La Costa Avenue	Installation of a three-leg, fully actuated traffic signal, including a type 170-ATC Coldfire controller, video detection, battery back-up system, signal interconnect system and appurtenant signing and striping.	Intersection of Camino de los Coches and La Costa Avenue	06/2018	06/2019	25	50
Carlsbad	San Diego	Traffic Signal - El Fuerte and Rancho Pancho	Installation of a three-leg, fully actuated traffic signal, including a controller and intersection control program, video detection, battery back-up, signal interconnect conduit, and appurtenant striping and signing.	Intersection of El Fuerte and Rancho Pancho	12/2018	12/2019	25	50
Carlsbad	San Diego	Traffic Signal - Faraday and Camino Hills	Installation of a three-leg, fully actuated traffic signal, including a Type 170-ATC Coldfire controller, 200SA local intersection control program, video detection, battery back-up system, signal interconnect and appurtenant signing and striping.	Intersection of Faraday Avenue and Camino Hills Drive	12/2018	12/2019	25	50
Carlsbad	San Diego	Complete Street and Traffic Calming Programming	This project funds the Carlsbad Residential Traffic Management Program (CRTMP) which considers the installation of traffic calming features, such as speed cushions, traffic circles, etc. as appropriate for each neighborhood/site.	Various roadways throughout the City with the current set of projects focused on Daisy Avenue, Harbor Drive, Cadencia Street, Estrella De Mar and Corintia Street.	03/2018	03/2019	10	20
Carlsbad	San Diego	Concrete Repair/Replacement Program	Concrete repairs to sidewalks, curb and gutter, pedestrian ramps, driveway approaches and cross gutters.	Various roadways throughout the City with the 2017 project sites focused along Carlsbad Village Drive, El Camino Real, El Fuerte Street and various adjacent residential roadway.	06/2017	01/2018	25	50
Carlsbad	San Diego	Carlsbad Blvd. and Tamarack Avenue Pedestrian Improvements	Intersection improvements at Carlsbad Boulevard and Tamarack Avenue to adapt the streets, bikelanes, sidewalks and bus stop to better meet the needs of all modes of travel. The project includes:  Construct ADA-compliant pedestrian path through the intersection of Tamarack Avenue and Carlsbad Boulevard (west side), continue the path to the southside of the Agua Hedionda bridge by widening the sidewalk (west side) and provide pedestrian refuge island aligned with the lagoon trail to the beach access stairwell.  Project will require the removal of the existing "pork chop" islands, installation of new concrete curb, gutter, sidewalk and pedestrian ramps.  Relocation of traffic signal equipment including signal poles, controller cabinet and electric service cabinet will be necessary. Due to the age/deterioration of existing traffic conduit, the traffic signal will be completely re-wired.  Create more on-street parking where possible.  Move the bus stop out of the center island at the entrance to the parking lot to a location that's more accessible and comfortable for people waiting for the bus.  Create better connections with the Coastal Rail Trail segments in the area.	At the Intersection of Tamarack Avenue and Carlsbad Boulevard, continuing North on Carlsbad Boulevard to Redwood Avenue, then South of the Agua Hedionda Bridge. East along Tamarack Avenue to the Coastal Rail Trail at the rail road tracks.	08/2018	08/2019	25	50
Carlsbad	San Diego	El Camino Real and College Blvd. Intersection Improvements	Improve the intersection by widening south bound El Camino Real to provide three through lanes and a dedicated right turn lane to west bound College Blvd.	Intersection of El Camino Real and College Boulevard.	06/2018	06/2019	25	50
Carlsbad	San Diego	El Camino Real Medians	Construct raised, landscaped medians. Work includes median curb, stamped concrete paving, irrigation and landscaping.	Along El Camino Real between Camino Vida Roble and Cinnabar and between Alga and Arenal.	12/2018	12/2019	25	50
Carlsbad	San Diego	La Costa Avenue Road Diet and Traffic Calming	Complete a Road Diet Study and implement traffic calming features in accordance with the findings of the Study.	La Costa Avenue from El Camino Real to Rancho Santa Fe Road	12/2018	12/2019	25	50
Carlsbad	San Diego	Left Turn Lane Extensions	Extend the left turn lanes at four locations along El Camino Real. The work would include new AC pavement and concrete curb and gutter and the modification of existing signing and striping, concrete median and median landscaping.	Left turn lanes at the intersection of El Camino Real and La Costa, El Camino Real and Alga, El Camino Real and Palomar Airport Road and El Camino Real and Faraday.	08/2018	08/2019	25	50
Carlsbad	San Diego	Pavement Management Program	The Pavement Management Program is an ongoing annual program designed to extend the service life of city streets and to maintain a smooth and safe driving surface for vehicles. The City utilizes a pavement management database program to determine pavement management needs for the purpose of establishing which streets are to be slurry sealed, overlaid, or reconstructed.	Various roadways throughout the City. The 2017 Overlay project is along El Camino Real from Gateway to Arenal and the Slurry Seal is on various streets including Melrose Drive, Rancho Santa Fe Road, El Fuerte Street, Tamarack Avenue and Carlsbad Village Drive.	08/2017	02/2018	07	21
Carlsbad	San Diego	Roadway Slope Stabilization Program	Regrading and stabilization of roadway slopes to prevent the deposition of sediment onto the public right of way and receiving waters.	Various roadway slopes throughout the City with the 2017 project focused on Faraday Avenue west of Camino Hills Drive. Other locations include Batiquitos Drive at Poppy Lane, Olivenhain Road at El Camino Real and Jefferson Street east of I-5.	06/2017	12/2017	25	50
Carlsbad	San Diego	Trails Roadway Crossings	Construct pedestrian crossing facilities which would include a high visibility crosswalk with signage and pedestrian activated signal system along at CVD and Victoria and high visibility crosswalk and signage at Cadencia and old Rancho Santa Fe Road	Crossing Carlsbad Village Drive at Victoria Avenue and crossing Cadencia Street at old Rancho Santa Fe Road trail.	01/2017	12/2017	25	50
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer.	1st Avenue (Lincoln to Mission)	12/2017	06/2018	15	20
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer.	2nd Avenue (Lincoln to Mission)	12/2017	06/2018	15	20
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	5th Avenue (Monte Verde to Dolores)	12/2017	06/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	6th Avenue (Dolores to Lincoln)	11/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	8th Avenue (Forest to Turn Around)	11/2017	06/2018	15	20

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	8th Avenue (Scenic to Carmelo)	12/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer.	12th Ave. (Monte Verde to San Carlos)	12/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer.	13 Ave. (Camino Real to Monte Verde)	11/2017	06/2018	15	20
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	Dolores (Santa Lucia to Franciscan Way)	12/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	Mountain View (Santa Re to Forest)	12/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer.	Oak Knoll Way (Forest to Turn Around)	11/2017	06/2018	15	20
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	Ocean Ave. (Monte Verde to Junipero)	12/2017	05/2018	08	10
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	Rio Road (Junipero to Santa Lucia)	12/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	San Carlos (13th to Santa Lucia)	11/2017	05/2018	10	15
Carmel-by-the-Sea	Monterey	Road Projects (FY 2017/18)	Mill and overlay a 2-inch asphalt layer and restripe street.	Scenic Road (8th Ave to A3 S End)	12/2017	04/2018	10	15
Carmel-by-the-Sea	Monterey	Lincoln & 3rd Cul-de-Sac Safety	Construct bulb-outs and overlay a 2-inch asphalt layer.	Lincoln Avenue (3rd to Cul de Sac)	09/2017	04/2018	15	20
Carpinteria	Santa Barbara	Street Maintenance Program	Road Maintenance & Rehabilitation	Citywide	07/2017	06/2018	05	20
Carpinteria	Santa Barbara	Parking Lot No. 2 and Cactus Lane Improvements	Reconstruction of Roadway Structural Section, Pedestrian Facilities, Drainage Structures, and Curb and Gutter	Cactus Lane from Carpinteria Avenue to Wullbrandt Way	11/2017	03/2018	05	20
Carson	Los Angeles	TURMONT STREET REHABILITATION	\$1.6M rehabilitation project which includes removal and replacement of roadway sections, and grinding of approximately 185,875 sq. ft. of asphalt pavement surface to allow for the overlay of 2"-2.5" new layer of rubberized asphalt concrete (RAC). It also includes removal and replacement of broken and damaged concrete to improve sidewalks, curb & gutter, cross gutters, driveway approaches, and wheelchair access ramps in order to comply with the requirements of ADA. The proposed overlay of RAC will provide much longer life, better skid resistance, better traction, road noise reduction, and a smooth roadway surface.	TURMONT ST. FROM AVALON BLVD. to CENTRAL AVE. - an East-West Collector street (approximate length of 5,521 L.F.) within Maintenance Zone #3 at the Central/Northern section of the City of Carson	04/2018	09/2018	15	20
Cathedral City	Riverside	Date Palm Drive and Dinah Shore Intersection Reconstruction	Reconstruct pavement approaching and through the intersection using portland cement concrete and asphalt concrete. Upgrade traffic signal to include advanced dilemma detection.	Intersection of Date Palm Drive and Dinah Shore Drive in Cathedral City	03/2018	09/2018	20	30
Cathedral City	Riverside	Avenida Ximino Neighborhood Street Reconstruction	Reconstruct pavement on neighborhood streets and provide drainage improvements	Avenida Ximino between 30th Avenue and Vega Road, Susan Drive, Walker Avenue and Vega Road between Avenida Ximino and Avenida Juarez in Cathedral City	03/2019	08/2019	15	20
Cathedral City	Riverside	Landau Boulevard and McCallum Way Intersection Traffic Signal Construction	Construct new traffic signal at intersection near Mt. San Jacinto High School. Pedestrian fatality in 2015	Intersection of Landau Boulevard and McCallum Way in Cathedral City	03/2020	08/2020	15	20
Cathedral City	Riverside	Whispering Palms Neighborhood Street Pavement Reconstruction	Asphalt pavement reconstruction on five residential streets	Candlewood Drive, Shifting Sands Trail, Sky Blue Water Trail, Navajo Trail, and Pueblo Trail between Ramon Road and Avenue 33 in Cathedral City.	03/2020	08/2020	15	20
Cathedral City	Riverside	Century Park Neighborhood Street Pavement Rehabilitation	Asphalt pavement reconstruction on 38 residential streets.	The Century Park Neighborhood is between Avenue 30 on the north and McCallum Way on the south and between Date Palm Drive on the west and Da Vall Drive on the east in Cathedral City.	03/2021	08/2021	15	20
Cathedral City	Riverside	La Posada Neighborhood Street Pavement Rehabilitation	Asphalt pavement reconstruction on ten residential streets	The La Posada neighborhood is north of Vista Chino and east and west of Avenida Maravilla. Streets include Santiago Road, Posada Road, Madrid Road, Riviera Road, Avenida Maravilla, San Martin Street, Calle Prado, La Medera Road and Tangelo Street in Cathedral City.	03/2022	08/2022	15	20
Cathedral City	Riverside	Landau Public Alleyway Reconstruction	Reconstruct alleyway that provides access to residential units.	The alleyway is in the Panorama Neighborhood generally bounded between Vista Chino to the north and 30th Avenue to the south in between Landau Boulevard and Avenida La Paz.	05/2022	10/2022	15	20
Ceres	Stanislaus	Mitchell Road Overlay & Reconstruction	Reconstruct and Overlay portion of 1,000 linear feet of Mitchell Road	Mitchell Road between Highway 99 and Service Road	10/2017	06/2018	15	20
Cerritos	Los Angeles	Shoemaker Avenue Resurfacing	Resurfacing of Shoemaker Avenue, a major arterial street, between Artesia Boulevard and 166th Street. The project includes replacement of deficient sidewalks, curbs, gutters and disabled access ramps.	Shoemaker Avenue between Artesia Boulevard and 166th Street in the City of Cerritos	07/2017	09/2017	10	15
Chico	Butte	Annual Road Rehab	Perform Cold-In-Place-Recycle of existing pavement surface, including upgrading of sidewalk ramps, installation of sidewalk gap closures, bike lands and restriping.	On Cohasset Road, from approximately 500' north of East Avenue to just south of Eaton Road.	12/2017	08/2018	18	25
Chico	Butte	Annual Road Rehab	Type II slurry seal with restriping and addition of new bike lanes.	On East Avenue, from approximately East Avenue to approximately Mariposa Avenue	12/2017	08/2018	07	10
Chino	San Bernardino	El Prado Reconstruction Project	Reconstruction including but not limited to: grind and overlay of asphalt; selected removal of replacement of asphalt; concrete curb; gutter; spandrel and cross gutter; signing and striping.	El Prado Road (Central Avenue to Kimball Avenue)	12/2017	06/2018	10	15
Chino Hills	San Bernardino	Pavement Repairs Project	Repair subsided pavement areas within the streets of Chino Avenue, Eagle Canyon Drive, Olympic View Drive, Beverly Glen Road and cracked curb and gutter on Feldspar Drive.	Chino Avenue, Eagle Canyon Drive, Olympic View Drive, Beverly Glen Road, and Feldspar Drive	02/2018	06/2018	10	15
Chowchilla	Madera	Fuller Street	The local street maintenance project being recommended by Staff is the Fuller Neighborhood Project. Specific improvements related to this project include the infill and replacement of sidewalks, curb ramps, driveways, curb and gutter and traffic striping/markings to provide accessible and safe routes to school. Improvements also include the rehabilitation of pavement on Lake Avenue, drainage work, installation of speed feedback signs, and installation of traffic striping, marking and signage.	The project includes work on 11th Street (Monterey to Riverside) and Lake Avenue (11th Street to 6th).	09/2017	10/2017	20	30
Chula Vista	San Diego	RMRA Major Pavement Rehabilitation FY2017/18 (STM395)	Project includes street overlays and street reconstruction on various streets in the City. The major rehabilitation treatments are based on the recommendations of the City's Pavement Management System.	Proposed locations: E Palomar St (Hilltop Dr-Melrose Ave), Bay Bl (I-5 Freeway ramp-Palomar St), Moss St (Fourth Ave-Third Ave), C St (N Glover Ave-Second Ave)	11/2017	09/2018	20	25
Chula Vista	San Diego	RMRA Major Pavement Rehabilitation Phase 2 FY2017/18 (STM396)	Project includes street overlays and street reconstruction on various streets in the City. The major rehabilitation treatments are based on the recommendations of the City's Pavement Management System.	Hilltop Dr (Orange Ave-E Main St), E Naples St (Crescent Dr-Medical Center Dr), Third Ave (N Fourth Ave-D St), Naples St (Fourth Ave-Third Ave), Oxford St (Tobias Dr-Hilltop Dr), Third Ave (L St-Naples St), F St (Fourth Ave-Third Ave), Third Ave (Orange Ave-Anita St), L St (Third Ave-First Ave), First Ave (H St-I St) Hilltop Dr (Telegraph Cyn Rd-L St E), I St (Second Ave-Hilltop Dr), Bonita Rd (City Limit @ Willow St)	11/2018	09/2019	20	25
Citrus Heights	Sacramento	Citywide Pavement Management System Update	Update Citywide Pavement Management System. Re-evaluate all streets and utilize new Street Saver program to better track conditions of roadway segments.	Citywide	12/2017	06/2018	15	20
Citrus Heights	Sacramento	2017/2018 Residential Resurfacing Project	Resurfacing of Residential Streets (6 planned for 17/18)	Auburn Frontage - End to Cobalt; Catamaran - City limits to Tupelo; Knisley Court - Sadro to End; Tareyton - Ansbrough to Cobalt; Baranga Drive - Winlock to Cobalt; and Capricorn Drive - Pleides to Mariposa.	03/2018	05/2018	20	25
Claremont	Los Angeles	Street Rehabilitation	Overlay of streets not currently included on the City's 7-year street resurfacing schedule	American Ave (Indian Hill - Mills), Andrews Drive, Arrow Highway, Auto Center Drive, Base Line Road, Bonita Ave (College - City Limit), Cambridge Ave (Bonita - Arrow), Claremont Blvd (Monte Vista - Arrow), First Street (Indian Hill - College), Foothill Blvd, Indian Hill Blvd, Mills Ave (Foothill - CHWP Trail Head), Mills Ave (Arrow - City Limit), Monte Vista Ave (Base Line - City Limit), Mountain Ave (Harrison - City Limit), Mt Baldy Road (Mills - City Limit), Padua Ave (Mt Baldy - City Limit), San Jose (Mountain - Mills), Santa Fe (Bucknell - Wharton), Sixth Street (College - Claremont), Towne Ave (Base Line - Foothill), Wharton Ave (Santa Fe - Cambridge), Williams Ave (Foothill - Bloom).	01/2018	06/2018	15	20
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Frank Place - Yolanda Circle to Cul-de-Sac.	01/2018	07/2018	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Bettencourt Drive - Yolanda Circle East to Yolanda Circle West.	01/2018	07/2018	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Southbrook Drive - 250' west of Marquette Ct. to 100' east of Eastwood Ct.	01/2018	07/2017	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Westbrook Ct. - Southbrook Dr. to Cul-de-Sac.	01/2018	07/2017	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	El Camino Dr. - Clayton Rd. to Pine Hollow Rd.	01/2018	07/2017	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Coronado Ct. - El Camino Dr. to Cul-de-Sac.	01/2018	07/2017	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Yosemite Ct. - El Camino Dr. to Cul-de-Sac.	01/2018	07/2017	07	10
Clayton	Contra Costa	2018 Neighborhood Streets Project	Annual Street maintenance of various local neighborhood streets within Clayton, CA	Yosemite Cir. - El Camino Dr. South to El Camino Dr. North.	01/2018	07/2017	07	10

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Clearlake	Lake	Dam Road/Dam Road Extension Roundabout Project	Installation of a roundabout with multi-lane entries at all intersection approaches with a 10-foot shared use pathway and crosswalk.	Dam Road at Dam Road Extension at the intersection near Walmart.	04/2020	11/2020	20	25
Clearlake	Lake	Burns Valley/Civic Center Enhancement Project	Curb, gutter, and sidewalk improvements - approximately 2600 linear feet	Olympic Drive from Pine to Lakeshore Drive. Lakeshore Drive from Olympic Drive to Division Ave.	01/2020	06/2020	20	25
Clearlake	Lake	Dam Road Extension Project	Extension of Dam Road Extension South Center Drive to 18th Ave. Approximately 1000 linear feet.	Dam Road Extension from Dam Road to 18th Ave.	04/2019	07/2019	20	25
Clearlake	Lake	Highlands Park Frontage Improvements	Frontage/parking lot and pedestrian sidewalk improvements, approximately 515 linear feet.	14335 Lakeshore Drive - Highlands Park	08/2018	11/2018	20	25

Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Garfield Avenue - From Ferguson Drive to Telegraph Road	02/2018	09/2018	20	25
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Ferguson Drive - From Atlantic Avenue to East City Limit	02/2018	09/2018	15	20
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Marianna Avenue - From Dunham Street to North City Limit	02/2018	09/2018	15	20
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Ayers Avenue - From Sheila Street to Washington Boulevard	02/2018	09/2018	20	25
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Bedessen Avenue - From Washington Boulevard to CDS	02/2018	09/2018	20	25
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Connor Avenue - From Washington Boulevard to CDS	02/2018	09/2018	15	20
Commerce	Los Angeles	FY 2017/18 Pavement Rehabilitation Project	The Project will provide for the pavement rehabilitation of selected streets throughout the City. The selected streets were based on the recommendations identified within the City's Pavement Management System (PMS).	Dennis Avenue - From Washington Boulevard to CDS	02/2018	09/2018	15	20
Commerce	Los Angeles	Commerce Way and Sheila Street Connectivity and Beautification Project	This project includes pavement rehabilitation, reconfiguration of the intersections of Sheila/Commerce Way and Eastern/Commerce Way, landscaped raised medians, lighting, and beautification components.	Commerce Way - From Eastern Avenue to Sheila Street	02/2018	09/2018	20	25
Compton	Los Angeles	Central Avenue, Phase II	Install cement stabilized pulverized base, asphalt concrete, asphalt rubber hot mix, install ADA compliant curb ramps, curb gutter, and sidewalk improvements, striping and traffic loop replacement.	Central Avenue from Compton Boulevard to City Limits	11/2017	01/2018	10	20
Compton	Los Angeles	Compton Boulevard Project - East	Installation of raised medians and Class II bicycle lanes. Remove and replace locations for ADA ramps, curb gutters, sidewalk; grind/overlay asphalt; replace all traffic markings, linework, traffic loops	Compton Boulevard from Willowbrook Avenue to eastern city limits	10/2017	03/2019	10	20
Compton	Los Angeles	Compton Boulevard Project - West	Install bike lanes and lighting along the corridor; enhance pedestrian crossings at 15 intersections. Remove and replace locations for ADA ramps, curb, gutter, sidewalk; grind/overlay asphalt; replace all traffic markings, linework, traffic detector loops.	Compton Boulevard from Willowbrook Avenue to western city limits	12/2017	04/2019	10	20
Compton	Los Angeles	Residential Streets Resurfacing	Remove and replace ADA ramps, curb, gutter, sidewalk; grind/overlay asphalt; replace all traffic markings, linework.	various locations citywide	12/2017	09/2019	10	15
Compton	Los Angeles	Residential Street Rehabilitation	Remove and replace locations of ADA ramps, curb, gutter, sidewalk; grind/overlay asphalt; replace all traffic markings, and linework.	Various locations citywide	08/2016	01/2018	10	15
Concord	Contra Costa	Diamond Boulevard Pavement Rehabilitation	This project will include base repairs and resurfacing of Diamond Boulevard from Willow Pass Road to the bridge over Walnut Creek and include the upgrade/replacement of accessible ramps on the north side of the intersection and at driveways, minor curb and gutter repairs, traffic signal loop replacement, and restriping the roadway.	Diamond Boulevard from Willow Pass Road to the bridge over Walnut Creek	01/2019	12/2019	10	12
Concord	Contra Costa	Oak Grove Road Pavement Rehabilitation	This project will extend the recently completed pavement rehabilitation work on Oak Grove Road from Whitman Road to Treat Boulevard, likely using cold-in-place recycling, similar to the previous phase, whereby a portion of the existing roadway asphalt is removed, treated with an asphalt recycling agent, compacted in place and then covered with a new asphalt surface layer. Work will also include the installation/upgrade of curb ramps at intersections, minor concrete repairs, replacement of traffic signal loops, adjustment of pedestrian push buttons to meet accessibility standards, and restriping the roadway.	Oak Grove Road from Whitman Road to Treat Boulevard	01/2019	12/2019	15	20
Corcoran	Kings	Slurry Seal at Dairy	Type II Slurry/ Fiber seal, update striping and signing	Dairy Avenue: Bainum Avenue to Orange Avenue	05/2018	06/2018	05	07
Corning	Tehama	Marin Street Overlay	A 2-inch overlay, ADA compliant curb returns and curb & gutter improvements	Marin Street between 3rd and 6th Streets; bid additives (1-block each) 4th and 5th Streets between Marin and South Streets	10/2017	10/2017	15	18
Corning	Tehama	Hoag Street Overlay	A 2-inch overlay, ADA compliant curb returns and curb & gutter improvements	Hoag Street between Solano and Colusa Street	05/2018	06/2018	15	18

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Corona	Riverside	2017 Street Pavement Maintenance & Rehabilitation	Grind existing pavement, remove and replace striping, clear and grub, construct Asphalt Concrete leveling course and final Asphalt Concrete Cap for a total 4 miles. The Project will provide a safer and quieter street network system.	1) Lincoln Ave between Rincon Street and City's northerly limits (2) Main Street between Grand Blvd and City's northerly limits (3) River Road between Corydon and Main Streets.	05/2018	10/2018	15	20
Coronado	San Diego	Street, Curb and Gutter Improvements FY18/19	Removal and replacement of 2-3" of existing asphalt surface; replacement of base material as necessary; replacement of damaged curb and gutter; required replacement of adjacent pedestrian ramps that do not meet current ADA regulations	Entire length of Adella Avenue; Jamaica Village Road; Spinnaker Way; and Flora Avenue	04/2019	05/2019	20	30
Corte Madera	Marin	2017/18 Pavement Rehabilitation Project	Grind and Overlay of Local Streets identified to be in poor condition per the 2017 Pavement Management Report and field observation	Stetson Avenue (From Buida Court to Chapman Drive), Chapman Drive (From Stetson Avenue to Tamalpais Drive), Oakdale Avenue (From Chapman Drive to Eastman Avenue), Buena Vista Avenue (From Sausalito Street to Oakdale Avenue), Council Crest Drive, Ash Avenue	10/2017	06/2018	15	20
Corte Madera	Marin	Casa Buena Complete Streets Project	Widen Casa Buena Drive to add bicycle lanes and new sidewalk to provide pedestrian access from neighboring multifamily housing. Pavement rehabilitation will also be a component of this project	Casa Buena Drive from Sanford Street to Meadow Valley Road	07/2017	10/2018	15	20
Costa Mesa	Orange	Newport Blvd. Frontage Rd. (N/B) - 15th St. to 17th St.	This project will provide major rehabilitation to City streets which are in immediate need for improvement. The project is implemented in accordance with the Pavement Management System to meet the City Council Goal to reach and maintain an average Citywide Pavement Condition Index (PCI) of 85 by 2017. These RMRA funds will be used towards rehabilitation of Newport Boulevard Frontage Road (northbound) from 15th Street to 17th Street.	Newport Blvd. Frontage Rd. (N/B) - 15th St. to 17th St.	01/2018	06/2018	10	10
Costa Mesa	Orange	23rd Street from Elden Ave. to Waterman Wy.	This project will provide major rehabilitation to City streets which are in immediate need for improvement. The project is implemented in accordance with the Pavement Management System to meet the City Council Goal to reach and maintain an average Citywide Pavement Condition Index (PCI) of 85 by 2017. These RMRA funds will be used towards rehabilitation of 23rd Street, from Elden Avenue to Waterman Way.	23rd Street from Elden Ave. to Waterman Wy.	02/2018	06/2018	10	10
Cotati	Sonoma	Street Construction & Improvements	Project is to repair damaged and cracked sections of La Salle Ave. from E. Cotati Ave extending approximately 315 feet toward Lincoln Ave and to cover the entire roadway section (curb to curb) with two layers of asphalt paving adding an average of half an inch of paving.	Approx. 315 feet of La Salle Ave. extending south east from E. Cotati Ave.	04/2017	07/2017	08	10
Covina	Los Angeles	Traffic Signal Modifications - Badillo Street and Hollenbeck Avenue	Upgrades to traffic signal poles, controller cabinet, signal heads, and signage with the consideration for the addition of protected left-turn phasing to be considered.	Badillo Street and Hollenbeck Avenue	01/2018	07/2018	15	20
Crescent City	Del Norte	Crescent City Storm Drainage Improvement and Roadway Rehabilitation Project	Install new drainage improvements, repave / resurface a minimum of 1200 LF of Roadway, install new ADA compliant Access Ramps and pedestrian improvements	Front Street between F Street & B Street, C Street between Howe Drive & 5th Street	06/2018	06/2019	20	30
Crescent City	Del Norte	K Street Drainage Improvement and Roadway Rehabilitation Project	Install new drainage improvements, repave / resurface approximately 300LF of Roadway, install new ADA compliant Access Ramps and pedestrian improvements	K Street between Front Street & 2nd Street	03/2019	06/2019	20	30
Cudahy	Los Angeles	Citywide Street Improvement Project - Cudahy	Project consists of the Citywide maintenance and rehabilitation of the City's Road & Sidewalk infrastructure. It may include Asphalt Concrete (AC) restoration & slurry seal at identified areas; repair of damaged sidewalks, driveways & curb & gutters; ADA improvements, traffic striping & signage. The City plans to rehabilitate approx. 10-15% of its 13 mi road/ sidewalk infrastructure this FY under SB1 Program Funds available as described above and per the 2016 City's PMS & CPI	Citywide Project. Includes one or more of the following potential streets: Atlantic Ave., Patata St., Arline St., Clara St., Cecilia St., Otis Ave., River Road, Salt Lake Ave., Park Ave., Elizabeth St., Hartle Ave., Walnut St., Santa Ana St., Bear Ave., Flowert St., Wilcox Ave., Live Oak St., Olive St. Cudahy Area: 1.2 sq. mi.	02/2018	06/2018	10	20
Culver City	Los Angeles	Arterial Street Rehabilitation Project PS 005	3 inch grind and overlay or cold in place recycling depending on bid amount.	Sepulveda Boulevard between Ballona Creek and Sawtelle Boulevard	05/2018	06/2018	25	30
Cupertino	Santa Clara	2017 Pavement Maintenance Phase 1	2018 Pavement Maintenance Phase 1 - Residential Overlay Project	Phar Lap Dr (Madera to Stevens Creek), Clifford Dr (E Estates to Blaney Ave), Scofield Dr (Western to De Anza Blvd)	12/2017	09/2018	25	30
Cypress	Orange	FY 2017-18 Arterial Overlay SB1	Street resurfacing of one half-mile of pavement using rubberized asphalt concrete. Other incidental items of work include striping, manhole adjustments, traffic loops, etc.	Cerritos Avenue from Valley View Street to Walker Street	01/2018	06/2018	15	20
Daly City	San Mateo	St. Francis Heights Street Slurry Seal	Application of latex-modified asphalt slurry seal on selected streets citywide per the 7-year Street Slurry Seal Master Plan.	Alta Loma Ave., Belhaven Ave., Belhaven Ct., Buena Vista Ave., Campana Ave., Carleton Ave., Castillejo Dr., Cerro Ct., Cerro Dr., Clarinada Ave., Del Prado Dr., Eastmoor Ave., Edgemont Dr., El Dorado Dr., Escuela Dr., Glenbrook Ave., Grandview Ave., Higate Dr., Huntington Dr., Lakeshire Dr., Larkspur Ave., Lincoln Ave., Mariposa Ave., Mayfield Ave., Midvale Dr., Monterey Dr., Northaven Dr., Olcese Ct., Pamela Ct., Portola Ave., Ridgefield Ave., Rockridge Ave., San Fernando Way, San Miguel Ave., Santa Elena Ave., Santa Paula Dr., Santa Rita Ave., Savage Way, Shelbourne Ave., Southdale Ave., St. Catherine Dr., St. Francis Blvd., St. James Ct., St. Marks Ct., St. Michaels Ct., Verano Dr., Woodland Ave., Woodside Ave., Zita Manor	01/2018	07/2018	05	08
Dana Point	Orange	Arterial Roadway Resurfacing- Crown Valley Parkway from PCH to Camino del Avion	Arterial roadway rehabilitation of the pavement surface on Crown Valley Parkway	Crown Valley Parkway from PCH to Camino del Avion. Geospatial coordinates: 33°29'20.0"N 117°43'17.9"W	11/2017	06/2018	20	25
Danville	Contra Costa	Pavement Management Program C-610 2017-18	Ongoing pavement maintenance of streets based on StreetSaver PCI calculations and field review. Project includes slurry seals, hot asphalt overlays, reconstruction, ADA ramp upgrades, and subdrain improvements.	This project includes streets within the Town of Danville based on updated PCI values, pavement condition, and the availability of funds. The list of streets will be published in the 2017/18 Operating Budget and Capital Improvement Program	09/2017	09/2017	07	15
Davis	Yolo	Third Street Improvements from A Street to B Street and the B Street Alley	Improve Third Street between A and B Streets. Components included in the cost estimate are streetscape improvements and storm drain extension from D Street to A Street. This is a multi-year, multi-phase project and in FY 17/18 we are completing Phase 3) installing a storm drain main, a sewer main; and Phase 4) the surface improvements.	Third Street between D Street and A Street	10/2017	10/2018	18	20
Davis	Yolo	Roundabout at Drummond/Chiles/Cowell Intersection	The existing intersection is a four-way stop for vehicles and has long been planned to be modified as vacant parcels in the immediate area develop. With the completion of the New Harmony development on the southwest corner and the development of Villages at Willow Creek for the property on the southeast corner, traffic volumes are expected to increase to the point where implementing the improvements is now appropriate. Construction starting in 16/17 and wrapping up in 17/18	Intersection of Drummond Avenue/Cowell Boulevard/Chiles Road	04/2017	01/2018	18	20
Davis	Yolo	Transportation Infrastructure Rehab	This CIP provides for pavement management design and construction throughout the City. This is a multi million dollar a year project to focus on maintaining and repairing streets throughout the City. In 17/18, two years worth of concrete will be completed and one year worth of pavement to facilitate paving earlier in the season in 18/19.	Various locations/streets throughout Davis - See Attached Location Maps for 8250 Transportation Infrastructure Rehab	11/2017	12/2018	10	20
Davis	Yolo	H Street Project - DLL and Tunnel	Combining the scope of improvements near the Davis Little League fields and the H Street Tunnel entrance improvements, this project includes: ADA compatible access along the Little League fields; resurface H Street from Eighth and north to the end; improved street lighting, especially near the fields; improving the west end of the tunnel entrance; improving the tunnel lighting; resurfacing the bike path from the east end of the tunnel to Drexel; and resolving the right of way issue at Drexel.	H Street between Eight Street and Covell Blvd; Bike/Ped Pathway between F Street and H Street and between H Street and J Street	02/2017	08/2019	10	20
Davis	Yolo	L Street Improvements	The work shall include reconstruction of L Street between 5th Street and Claremont Drive; a 1.3' full depth reclamation pavement section reconstruction, utility adjustments, curb and gutter, concrete flatwork, signage, striping and pavement markers on L Street from 5th Street to Claremont Drive.	L Street between Fifth Street and Claremont Drive	06/2018	06/2019	08	10

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Davis	Yolo	Mace Boulevard Corridor	1) Resurface Mace Boulevard, and 2) increase non-motorized transportation along the corridor and between the neighborhoods east and west of Mace Blvd, particularly increasing levels of bicycling to Pioneer Elementary School. The Project Scope includes resurfacing and restriping the entire corridor, reconstructing where needed, improving Mace/Cowell intersection for bicycles and pedestrians (e.g. remove free right turns/extend pedestrian refuge islands, installing bike boxes), installing two-way protected, buffered cycle track on the east side, reconfiguring lanes from four to two plus turn lanes, installing a buffered bike lane on west side, and installing signal control (RRFB or HAWK) at San Marino.	Mace Blvd between Redbud Drive and Cowell Boulevard	03/2018	12/2018	08	10
Davis	Yolo	Fifth Street Reconstruction around Maintenance Holes	The street, curb, gutter, and sidewalk near and around several maintenance holes along Fifth Street, from Pena to Alhambra have sunken while the maintenance holes have not. This results in a very uneven condition for all modes of transportation, especially vehicles. This CIP would repair the sections around the maintenance holes, bringing the finish elevations up to conform with the maintenance holes. The actual repair treatment won't be known until the study is complete. In 15/16, Staff provided a temporary repair on three of the worst Maintenance Holes. Design will occur in 16/17 and permanent repairs will be made in 17/18.	Fifth Street between Pena Drive and Alhambra Boulevard	02/2018	09/2018	08	10
Davis	Yolo	Tim Spencer Alley Reconstruction	Tim Spencer Alley, located between F and G and connecting Second and Third, has been in disrepair for several years. The sanitary sewer and the water mains are aging beyond repair and need replacing. Additionally the alley surface is damaged and does not flow properly. This project will replace the sewer and water mains and reconstruct the alley surface. The new development at 239 G Street desires a surface treatment similar to their property for a length near Third Street, along their property and will fund that portion of the project. Construction will have to be carefully implemented to minimize the businesses that use the alley for sewer, water, vehicle deliveries, etc. Planning and design are scheduled for 16/17. Project will complete in 17/18	Tim Spencer Alley - the Alley between F Street and G Street from Second Street to Third Street	10/2018	03/2019	18	20
Davis	Yolo	Fourteenth Street / Villanova Drive Improvements	These improvements have been designated "High Priority" safety improvements for North Davis ES from the Walk Bike Audit Report and street resurfacing. Includes buffered bike lanes, intersection curb extensions, pedestrian refuge islands, restriping crosswalks, green bike lane striping alongside loading zones.	Fourteenth Street from F Street to Oak Avenue; and Villanova Drive from Anderson Road to Sycamore Lane	10/2018	04/2019	08	10
Del Mar	San Diego	Del Mar 6 (DM06)	Sidewalk Street and Drainage Improvements	Camino del Mar	03/2018	12/2018	50	75
Del Rey Oaks	Monterey	Street Slurry phase 1	Design and construct a street slurry package. \$175,000 appropriated by Council in 2017-2018 budget.	Del Rey Oaks residential streets	05/2018	10/2018	15	20
Del Rey Oaks	Monterey	Traffic Calming Portola/Quendale/Carlton	Design and construct traffic calming on Portola/Quendale/Carlton	Del Rey Oaks residential streets	05/2018	10/2018	15	20
Delano	Kern	Pavement Resurfacing and Rehabilitation at Lexington Street	Repave/Resurface 1.1 miles of road pavements and restripe 2,950 LF of turn lane, 1,155 LF of Left turn pockets and repaint pavement markings and crosswalk.	Lexington St. between Woollomes Ave and Schuster Road	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Kensington Street	Repave/Resurface 4,050 Feet of road pavements and restripe 3,640 LF of road center line and repaint pavement markings and crosswalks.	Kensington St. between Cecil Avenue and 6th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Dover Place 1	Repave/Resurface 1,800 Feet of road pavements and restripe 1,700 LF of road center line, and repaint pavement markings and crosswalks.	Dover Place between Garces Highway and 9th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Dover Place 2	Repave/Resurface 900 Feet of road pavements and restripe 830 LF of center line and repaint pavement markings and crosswalks.	Dover Place between 10th Avenue and 12th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Dover Street	Repave/Resurface 3,100 Feet of road pavements and restripe 2,880 LF of road center line and repaint pavement markings and crosswalks.	Dover Street between Garces Highway and 12th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Belmont Street 1	Repave/Resurface 900 LF of road pavements and restripe 848 LF of road centerline and repaint pavement markings and crosswalks.	Belmont St. between 11th Ave and 13th Ave	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Belmont Street 2	Repave/Resurface 1,250 LF of road pavements and restripe 1,100 LF of road center line and repaint pavement markings and crosswalks.	Belmont St. between Garces Highway and 8th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Belmont Street 3	Repave/Resurface 2,450 LF of road pavements and restripe 2,300 LF of road center line, repaint pavement markings and crosswalks.	Belmont St. between Cecil Avenue and 20th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Asti Road	Repave/Resurface 1,280 LF of road pavements.	Asti Street between 1st Avenue and Garces Highway.	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Austin Street	Repave/Resurface 1,200 LF of road pavements and restripe 1,050 LF of road center line, repaint pavement markings and crosswalks.	Austin St. between Garces Highway and 8th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at Clinton Street	Repave/Resurface 2,450 LF of road pavements and restripe 2,430 LF of road center line, repaint pavement markings and crosswalks.	Clinton St. between Cecil Avenue and 20th Avenue	03/2018	06/2018	05	10
Delano	Kern	Pavement Resurfacing and Rehabilitation at 22nd Avenue	Repave/Resurface 965 LF of road pavements and paint 896 LF of road center line.	22nd Avenue between Girard Street and Oxford Street	03/2018	06/2018	05	10
Desert Hot Springs	Riverside	Hacienda Ave - Grind and Overlay	Road resurfacing project and new bikelane striping project.	Hacienda Ave - Mountain View Rd to Miracle Hill Rd	03/2018	06/2018	10	20
Desert Hot Springs	Riverside	Mission Lakes Blvd - Grind and Overlay	Road resurfacing project and new bikelane striping project.	Mission Lakes Blvd - Little Morongo Rd to Indian Ave	03/2018	06/2018	10	20

Dinuba	Tulare	Kamm Ave. Grind and Overlay	Road reconstruction	On Kamm Ave. from Alta Ave. to College Ave.	05/2019	06/2019	20	30
Dinuba	Tulare	Monte Vista Avenue Grind and Overlay	Road reconstruction	On Monte Vista Ave. from El Monte Ave. to 800 feet south	05/2019	06/2019	20	30
Dixon	Solano	2018 Pavement Rehabilitation Project	Slurry seal and replace traffic striping on various streets within the City of Dixon.	Street segments include: East C Street from North First Street to Doyle Lane; North Second Street from East C Street to Creekside Circle; South Almond Street from West A Street to Porter Road; South Lincoln Street from West A Street to Hillview Drive; and West F Street from Pitt School Road to North First Street.	04/2018	06/2018	05	10
Dorris	Siskiyou	Fourth Street Rehab.	Rehabilitation & maintenance of a local roadway	E. Fourth Street from Pine to Center	06/2018	10/2018	20	30
Dos Palos	Merced	Center Avenue North in the City of Dos Palos	Rehab Streets, Sidewalks, Replace Storm Drainage, Create Bike Path & Pedestrian Walkway, Improve Safety at 7 Intersections, link to parks, multimodal transit center, senior center.	In the City of Dos Palos: Center Avenue between Marguerite Street and Loraine Street; Loraine Street between Center Avenue and Dos Palos Avenue.	06/2018	12/2018	30	40
Downey	Los Angeles	FY 17-18 Annual Miscellaneous Concrete Construction and Repair Project	Construction and repair of concrete improvements within the public right-of-way to include construction of curb ramps and replacement of damaged sidewalks, curb and gutter, driveway approaches and pavement.	South East Area (Council District No. 1)	01/2018	06/2018	10	50
Downey	Los Angeles	FY 17-18 Annual Slurry Seal Program	Approximately 40 street segments in the southwest area of the City covering a total of approximately 6.75 centerline miles of roadway have been identified for this project. The work to be performed generally consists of sealing cracks in the asphalt pavement, applying emulsified Type II slurry seal coat to the pavement surface; replacement of traffic striping, pavement markings, and raised pavement markers; and all necessary related work.	South West Area (Council District No. 2)	11/2017	01/2018	07	10
Downey	Los Angeles	Paramount Blvd. Median (Firestone Blvd. to Imperial Hwy)	Construction of a raised landscaped median island on Paramount Blvd. between Firestone Blvd and Imperial Hwy. Scope to include removal of existing striped median/pavement, installing raised concrete median island with drought tolerant landscaping and irrigation, left-turn lanes, signage/striping and the rehabilitation of existing pavement and repair of miscellaneous concrete surfaces.	Paramount Blvd. Median (Firestone Blvd. to Florence Ave.)	02/2018	12/2018	25	30
Downey	Los Angeles	Paramount Blvd. Median (Firestone Blvd. to Florence Ave.)	Construction of a raised landscaped median island on Paramount Blvd. between Firestone Blvd. and Florence Ave. The project consists of removing existing striped median/pavement, installing raised concrete median island, left-turn lanes, replacement of traffic loop detectors, signage/striping, and other related improvements.	Paramount Blvd. (Firestone Blvd. to Florence Ave.)	02/2018	12/2018	25	30
Downey	Los Angeles	Lakewood/Rosemead Corridor Study	Multijurisdictional complete street study of the Lakewood Blvd. - Rosemead corridor within the Gateway Cities sub-region. Study will analyze multiple travel modes (i.e., transit, cycling, walking, vehicles, etc.) and enhancing connectivity among said modes.	Lakewood Blvd from North City Limit to South City Limit	07/2017	06/2018	99	99
Downey	Los Angeles	South Downey Safe Routes to School Project	Construction of sidewalks and curb ramps, signage, replacement of striping, pavement markings, install vehicle speed feedback signs along the project limit and school safety education program	Blodgett Ave (Alameda St. to Donovan St.)	01/2018	06/2019	25	50
Duarte	Los Angeles	Huntington Drive Intersection Safety Improvements	Six intersections along the Huntington Drive Corridor are recommended for safety improvements. These improvements include equipment upgrades, lane configuration, additional traffic markings, signage, and signal timing compliance. Currently the City of Duarte has certain equipment that is obsolete. This equipment needs to be upgraded to improve safety by reducing the probability of equipment failure or malfunction and enhancing driver, bicyclist, and pedestrian awareness. The City needs to review all pedestrian, bicycle, and vehicle clearance timing for compliance with the 2014 CA MUTCD.	All Intersections are Located in Duarte, California Huntington Drive and Mountain Avenue     Huntington Drive and Buena Vista Street Huntington Drive and Highland Avenue     Huntington Drive and Mount Olive Drive Huntington Drive and Las Lomas Road     Huntington Drive and Encanto Parkway	01/2018	06/2018	15	25
Dublin	Alameda	Annual Street Resurfacing	This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay. Streets are selected for improvements based on the City's Pavement Management System to optimize the pavement condition based on available budget. The City owns and maintains approximately 117 centerline miles of streets.  The Metropolitan Transportation Commission (MTC) groups Pavement Condition Index (PCI) ratings into the following categories: 80-100 Very Good-Excellent; 70-79 Good, 60-69 Fair, 50-59 At Risk, 25-49 Poor, and 0-24 Failed. The City of Dublin is rated very good with a rolling three-year average PCI of 85.  This annual Resurfacing Program is primarily funded by Alameda County Transportation Commission (ACTC919) Measure B/BB funds and Gas Tax.  This program protects the substantial investment the City has in the street system.	San Ramon Road, from southern to northern city limits, and Dublin Boulevard, from San Ramon Road to Silvergate Drive.	12/2017	09/2018	20	30
Dublin	Alameda	Tassajara Road Realignment & Widening	This project will add one automobile lane and a bike lane in each direction of Tassajara Road from North Dublin Ranch Drive to the City and Contra Costa County limit line. The project will also add new sidewalks and upgrade all existing and future traffic signals to accommodate the street widening. Each intersection in this segment will be designed to achieve good circulation while adhering to Complete Street Policy. The project also includes the construction of new center raised concrete median with street lighting and new curb and gutter.  This project requires preliminary engineering including a feasibility analysis to define the new roadway alignment, design cross-section, right of way, and environmental clearance before it can be moved forward for design and construction. Preliminary engineering and environmental document preparation began in Fiscal Year 2015-2016. Detail design and right-of-way acquisition will follow, pending available funding.  Total cost of the project is \$43.6 million. Of this cost, \$16.6 million worth of improvements are expected to be completed by development and the remaining amount (\$27 million) will need to be paid for from Eastern Dublin Traffic Impact fees and/or from regional funding sources like Measure BB. A significant amount of this cost is related to improving the horizontal alignment of the street at the County line which requires several retaining walls to straighten the roadway.	Tassajara Road, from North Dublin Ranch Drive to northern City Limit.	01/2016	04/2019	20	30
Dunsmuir	Siskiyou	2018 Sidewalk Project	Remove and replace sidewalks and construct ADA compliant curb ramps on Dunsmuir Avenue.	On Dunsmuir Avenue near Cedar Street and City Hall (5915 Dunsmuir Avenue)	06/2018	09/2018	25	50
East Palo Alto	San Mateo	SF-05A Bay Road Improvements	The Bay Road project will include street repaving; bicycle and pedestrian improvements; landscaping improvements; and replacement of storm drain and water trunk lines.	0.7 miles of Bay Road from Clarke Avenue to Cooley Landing	12/2017	01/2019	20	40
East Palo Alto	San Mateo	ST-07 Street Resurfacing Program	This project provides for the resurfacing of City streets during the ten-year life of the CIP. Roughly \$1,000,000 needs to be expended annually on street resurfacing.	Various	12/2017	12/2026	20	40
East Palo Alto	San Mateo	ST-08 University Avenue Resurfacing & Signal Upgrade	This project provides for pavement resurfacing, restriping, upgrading of traffic signals and various other improvements on University Avenue.	University Avenue from Woodland Avenue to Notre Dame Avenue	12/2018	12/2020	20	40
East Palo Alto	San Mateo	ST-09 Bicycle & Pedestrian Improvements	This project is for the installation of street improvements to enhance vehicular, pedestrian and bicycle safety throughout the City.	Various	12/2018	12/2019	20	40

Farmersville	Tulare	Costner Street Rehab Project	Road maintained will be performed using a chip and slurry seal, also known as a Cape Seal, on approximately 15,100 square feet of roadway. An overlay of 5,500 square feet will also be done as maintenance. Another section of the street will be realigned and re-graded in order to help with drainage due to current conditions causing flooding. The project also includes the reconstruction of two cross gutters, curb ramps (approx. 17) within the cape seal area to current ADA standards, and a bus pad (18 ft by 105 ft).	The project is located in Farmersville, CA. There are 3 project sections. 1) Bus pad to be constructed on E. Costner St. approximately 200' east of N. Rose Ave. 2) Roadway realignment and re-grading along W. Costner St. from N. Linnel Ave. to N. Shasta Ave to improve drainage problems. 3) Slurry seal and chip seal within the boundaries of W. Ash St. and W. Costner St., which are the northern and southern boundaries, respectively. The cross streets included running north to south are N. Matthew Ave., N. Ventura Ave. and N. Kern Ave. All these different projects are occurring in residential areas.	03/2018	12/2018	08	10
Farmersville	Tulare	W. Walnut Ave. Street Components	Street components to be added are a 5 foot wide bike lane, a 100 foot median for the pedestrian refuge area, a new drive approach, and 6 reconstructed ADA curb returns.	The project is located in Farmersville, CA on W. Walnut Ave. between N. June Ave. to the west and Farmersville Blvd. to the east. Cross streets from west to east are N. Matthew Ave., Carolyn St., N. Ventura Ave., Franquette Ave., and Hartley Ave. This project is located in a residential zone.	07/2018	06/2019	20	25
Farmersville	Tulare	E. Walnut Ave/Southern Part of Road	Construct 1,000 LF of a 10' sidewalk, curb and gutter, a 7' foot bike lane, an additional 12' lane, 5 street lights, 1 new ADA curb return /ramp, and a storm drain inlet.	The project is located in Farmersville, CA on E. Walnut Ave. between Farmersville Blvd. and N. Freedom Dr. The project is located next to Farmersville High School, around residential and some commercial.	12/2018	06/2020	20	25

Fort Bragg	Mendocino	Crack and Small Scale Pavement Failures Maintenance	When small areas of pavement are found to be in much worse condition than the majority of other pavement segments or are in areas of localized deterioration damaged by utility cuts, crossing of construction traffic, or drainage problems not representative of the remainder of the management section, they are treated with crack sealing or small scale pavement repair. These repairs must be done in a timely fashion as damaged areas of pavement grow and allow water intrusion which leads to further more large scale deterioration of the pavement. Surface repair and crack sealing are the two primary intermediary actions taken to conserve the existing conditions of pavement. Repair of small pavement failures is the most common technique, done by removing the damaged portion of the pavement to a depth that removes all deteriorated material and then filling it with gravel base material and asphalt as necessary, and compacted. Crack sealing involves cleaning the crack and then applying an asphalt emulsion to fill the crack. The goal of this project is to address deferred maintenance of local/residential streets with low Pavement Condition Indices (PCIs). These streets are often prioritized lower by the City's Pavement Management Program (PMP) due to low traffic volumes. Fort Bragg	Mendocino	Surface/Sub-Surface Drainage Facilities Maintenance	Failing surface/sub-surface drainage facilities that damage overlying or adjacent pavement creates local flood risk for homeowners and business owners and/or safety concerns for pedestrians and bicycles as well as motor vehicles. Drainage management issues are caused by blockage in the storm drain pipe, by structural damage caused by storms or failures, or missing or broken grates. Surface drainage facilities include curb and gutters, valley gutters, and other Low Impact Development (LID) improvements. Sub-surface facilities are the pipes, inlets, and outfalls. Failing drainage infrastructure is repaired by first removing the underlying problem or obstruction, repairing or replacing infrastructure as necessary, and replacing adjacent/overlying street improvements.	Intersection of Redwood and Corry Winifred Hocker Ln Intersection of Laurel and Redwood	10/2017	09/2018	10	30
Fort Bragg	Mendocino	Traffic Control Devices (signage, striping, & pavement markings)	striping, crosswalks, curb markings, signage, and other traffic control devices provide cost-effective guidance and information for the road user. These devices help reduce accidents, and direct travelers to their destinations. The City's Traffic Committee regularly receives requests for the installation/removal of signs, curb paint, street striping, and crosswalk painting. In addition to the regularly requested traffic control requests, the city's existing pavement markings are re-marked every year. Each year one-half of the City will be (north or south divided at Oak St) completely re-marked. The standards for the application of markings and delineation are set forth in the California Manual on Uniform Traffic Control Devices (Cal-MUTCD) as modified by the City standards. b. Location(s): This year all paint will be done in the southern	This year all paint and sign replacement will be done in the southern portion of the City from Oak South to edge of city limit.	03/2018	09/2018	02	10
Fort Jones	Siskiyou	Town of Fort Jones Strategic Paving, Preventive and Planning project;	Crack sealing, surface sealing, removal and replacement of failed roadway sections and associated work on various Town streets to maintain good condition; estimated life 15 years; construction to be done in 2018 (see attached Exhibit A to Resolution for detail).	While the Town has a recent PCI survey for reference, determining the most effective use of limited funds for FY 17/18 requires actual observation of the streets and prioritizing to achieve the best use of funds	01/2018	10/2018	05	15

Fullerton	Orange	Chapman Avenue Rehabilitation Project	The project street is functionally classified as arterial street and mostly consists of five lanes with two (2) lanes on each direction with median lane. Total length of the street is approximately 1.2 miles with 60-70 feet wide pavement. The work includes grind and overlay of asphalt concrete to extend the roadway service life and to reconstruct; curb, and gutter, access ramp, cross gutter, manhole and valve adjustment to grade, traffic striping, and replace traffic loop detectors all within the City right-of-way.	Chapman Avenue between; Acacia Avenue to 57 Freeway/Caltrans right-of-way excluding Commonwealth Avenue to Clarke Avenue and State College Blvd to Sycamore Avenue.	05/2017	08/2017	10	20
Galt	Sacramento	South Galt Safe Routes to School and Rehabilitation and SACOG Bicycle and Pedestrian Improvement Project	South Galt Safe Routes to School and Rehabilitation and SACOG Bicycle and Pedestrian Improvement Project CIP #518C, project description includes repairs of pavement, restriping existing bicycle lanes and bike lanes gaps, adding pedestrian bulbouts and median refuge islands, adding signage and warning devices as well as adjusting utilities to grade. The project will also replace damaged sidewalk sections, upgrading to current ADA standards and adding sidewalks/walkways. The project location is bounded by SR99 to Pringle and South to Kost Road. The maximum useful life of the project is approximately 20 years. The anticipated year of construction is 2017-18.	The project is located in the City of Galt. The work is on A Street from the east to west City limits.	03/2018	07/2018	10	20

Hercules	Contra Costa	Annual Street Maintenance Project	Deep lift repair, crack sealing, slurry sealing, striping	Lupine Road - 2105 Lupine to Violet; Dogwood Court; Cottonwood Court; Turquoise - 605 to 777 Turquoise; Mandalay Avenue - Grenadine to Refugio; Redwood Road - Pepperwood to 1955 Redwood; Violet Road - Lupine to Iris; Manzanita Place - Sequoia to Lupine; Nutmeg Court; Grenadine Way - Mandalay to Bonaire; Alfred Nobel Drive - Linus Pauling to traffic circle; James Watson Drive - Linus Pauling to traffic circle.	08/2017	10/2017	07	10
Hermosa Beach	Los Angeles	24th Street Improvements	This project consists of resurfacing approximately 1,100 linear feet of 24th Street and will include the construction of curb and gutter as needed to correct drainage deficiencies, and the lowering of public utilities (by utility companies) to standard depth to permit the paving of the street. This work will be performed following the sewer and storm drain repairs needed as specified in the new Sewer and Drainage Master Plans, and it will be constructed according to the schedule in the new Pavement Management Plan.	The project will take place on 24th Street from Valley Drive to Park Avenue.	02/2018	06/2018	10	20
Hermosa Beach	Los Angeles	Bike Friendly Street Improvements	This project proposes to implement Bicycle Friendly Street improvements as identified and prioritized in the South Bay Bicycle Master Plan. Emphasis will be placed on 27th Street, Ardmore Avenue, Valley Drive, and Pier Avenue to consider sharrow markings, signage, and other improvements to enhance bicycle visibility and safety.	This project will take place on 27th Street, Ardmore Avenue, Valley Drive, and Pier Avenue.	10/2017	06/2018	02	04

Highland	San Bernardino	Sterling Avenue Pavement Rehabilitation	Rehabilitate pavement with localized reconstruction and overlay	Sterling Avenue from 6th Street to Base Line	03/2018	06/2018	10	15
Hillsborough	San Mateo	2019 Street Resurfacing	Summary: The 2019 Street Resurfacing Project consists of street resurfacing and rehabilitation work for approximately 53 miles of rubberized asphalt overlay, asphalt overlay, cape seal, microsurfacing, and crack sealing. The primary factor for choosing the roadway segments included for rehabilitation is the Pavement Condition Index (PCI) of each roadway. PCI is a measure of a street's condition derived through field inspections that utilize scoring criteria developed by the Metropolitan Transportation Commission's (MTC) pavement management program. Field inspections were conducted in fall of 2016, and the roads with the lowest PCI rating were included in this project and will increase the Town's overall PCI. The improvement of the PCI will help to eliminate the need for vehicles to slow, swerve, or stop suddenly to avoid hazardous road conditions. Properly maintained streets also help to improve traffic flow and assist in preventing congestion, slow traffic, and generally unsafe driving conditions. The Town plans to continue to utilize, where appropriate, recycled Rubberized Asphalt Concrete (RAC) to help reduce the accumulation of disposed tires occupying landfills in the State of California. The RAC also provides a smoother and quieter roadway surface than conventional asphalt and offers a better platform for outdoor activities such as cycling and running, which in turn promotes the overall health of the community.	Selected streets are located in various areas within the Town's limit. Detailed locations of each street are summarized in Appendix A.	05/2019	09/2019	04	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	San Felipe Road, south of Bypass (SR 25) to 3rd Street. San Felipe Road is a former State Highway that was relinquished several years ago. The project area is a 3,971 linear ft. portion of the arterial road with a current PCI of 31 to 72. The proposed maintenance is expected to bring the PCI to 100 and add 30 years of useful life.	San Felipe--Beginning South of Bypass (SR 25) to 3rd Street for 3,971 linear feet.	09/2017	06/2018	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	A four lane divided arterial road, San Felipe Road was a former State Highway relinquished several years ago. The current CPI ranges from 61 to 76. The maintenance proposed is a "dig out and patching" of failed areas, which is expected to bring the PCI to about 85 and extend the useful life for an additional 10 years before needing an overlay.	San Felipe Road-- Beginning North of Bypass (SR 25) to City limits, 12,400 linear feet in length.	09/2017	06/2018	10	10
Hollister	San Benito	Road Rehabilitation Program 2017/2018	South Street, from San Benito Street to West Street, is a two lane residential street 990 feet in length. The PCI is 22. This street serves the downtown area from the west side of Hollister. The maintenance proposed is overlay, which is estimated to increase useful life by 30 years.	South Street--Beginning at San Benito Street and proceeding west to West Street for 990 linear feet.	09/2017	06/2018	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	Monterey Street, from South Street to Nash Road, is a two lane collector road 2,897 feet in length. The PCI ranges from 30 to 24 with the majority at about 32. This street serves the downtown area near San Benito High School. The proposed overlay is expected to bring the PCI to 100 and extend the useful life by 30 years.	Monterey Street--Beginning at South Street and proceeding south to Nash Road for 2,897 linear feet.	09/2017	06/2019	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	Westside Blvd., from South Street to Nash Road is a wide two lane collector road 3,065 feet in length. The PCI ranges from 56 to 82 with the majority at about 66. This street serves the west side of Hollister providing a traffic corridor from Fourth Street to Nash Road. The proposed overlay is expected to bring the PCI to 100 and extend the useful life by 30 years.	Westside Blvd.--Beginning at South Street and proceeding south to Nash Road for 3,065 linear feet.	09/2017	06/2019	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	San Benito Street, proceeding south past Nash Road, is a two lane arterial road 1,330 feet in length. The PCI ranges from 60 to 67 with the majority at 60. This street is adjacent to San Benito High School, is a southerly gateway to Hollister, and is frequently travelled to tourist attractions in southerly San Benito County. The proposed maintenance is overlay which is expected to bring the PCI to 100 and increase the useful life by 30 years.	San Benito Street--Beginning at Nash Road and proceeding south of San Benito High School for 1,330 linear feet.	09/2017	06/2019	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	West Street, from Fourth Street to South Street is two lane collector road 1,300 feet in length. The PCI ranges from 20 to 24 with the majority at 20. This street serves residential and part of the central business district of Hollister. The proposed overlay is expected to bring the PCI to 100 and extend the useful life by 30 years.	West Street--Beginning at Fourth Street and proceeding south to South Street for 1,300 linear feet.	09/2017	06/2019	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	Hawkins Street, from San Benito Street to Monterey Street is a two lane residential road 540 feet in length. The PCI is 13. The maintenance proposed is overlay, which is expected to bring the PCI to 100 and provide a useful life of 30 years.	Hawkins Street--Beginning at San Benito Street and proceeding west to Monterey Street for 540 linear feet.	09/2017	06/2019	30	30
Hollister	San Benito	Road Rehabilitation Program 2017/2018	Flynn Road--San Felipe Road to SR25 is a two lane collector road 4,235 feet in length. This section is within the City of Hollister and San Benito County jurisdictions. The PCI in the City limits ranges from 50 to 64 with the majority at about 64. The proposed overlay is expected to bring the PCI to 100 and provide a useful life of 30 years. The proposal is to combine efforts and resources with the County of San Benito to repair this road.	Flynn Road--San Felipe Road to SR25	09/2017	06/2019	30	30
Holtville	Imperial	(029) Ninth Street Pavement Improvements Project	Project undergrounds an open earthen ditch that borders the road, widens the narrow roadway and adds curb, gutter & sidewalk	Ninth Street Between Palm & Olive Avenues	11/2017	12/2017	20	30
Hughson	Stanislaus	Whitmore Avenue Pedestrian Improvement Project and Overlay	Construct new pedestrian and bicycle improvements on Whitmore Avenue, including sidewalk and bicycle lane, across BSNF Rail Lines	Whitmore Avenue from east of Tully Road to Charles Street	12/2018	12/2019	10	30
Huntington Beach	Orange	Arterial Rehabilitation	RMRA allocation will partially fund the rehabilitation of select arterial highways. The total project cost is approximately \$4.7 million, with full allocation of just over \$1.1 million from RMRA.	Heil Avenue (Springdale to Bolsa Chica); Indianapolis Avenue (Newland to Beach); Slater Avenue (Goldenwest to Gothard)	10/2017	09/2018	15	25

Huntington Park	Los Angeles	Middleton Safe Routes to School	In May 2011, the Los Angeles County Department of Public Health PLACE (Policies for Livable, Active Communities and Environments) Program announced that the City of Huntington Park was one of five cities that would be the recipient of the Healthy Policies Initiatives (HPI) Grant. The goal of the Healthy Policies Initiative is to collaborate with cities, such as Huntington Park, with high rates of childhood obesity to improve their physical activity and food environments through policy and environmental change. SR25 plan would encourage students to walk and bike to school safely, which may decrease traffic around schools as well as increase physical activity.  Based upon the need for better routes, as well as support from school administration, Middleton Elementary School and Middleton Primary Center were selected as the focus schools for the plan.  Project Description: The Project will consist of new ADA ramps, advanced yield and stop markings, countdown signals, updated pedestrian signs, rapid-flashing beacons, repainting existing pavement markings, removal of nonfunctional in road lights, and ladder style crosswalks. Funding for ongoing educations programs such as classroom training for bicycle and pedestrian safety, safety rodeos by local Police, walking day education and activities, and crossing guard training is also included.	The four proposed project locations are at the intersections of Gage Ave. at Santa Fe, Gage Ave at Middleton St., Gage Ave at Malabar St., and Zoe at Santa Fe Ave.	02/2017	11/2017	15	20
Huntington Park	Los Angeles	Street Improvements	The Street Improvement project includes the repair of residential streets. Target Areas 1 and 2 are Code Enforcement areas of focus and thus will be the focus of the street improvements project. Below are the selected streets (see highlights) within the Targeted Areas and a projected aggregate cost. Cost were determined based on the condition of each respective street. The work will either consist of a slurry seal, cold milling, or overlaying in addition to striping of each street.	Albany St (Zoe Ave to Florence Ave) Mortimer Ave (CDS to Santa Fe Ave) Marbrisa Ave (Mortimer Ave to Florence Ave) Saturn Ave (Alameda St to Santa Fe Ave) Everett Ave (Slauson Ave to E 60th St) Loma Vista Ave (Slauson Ave to E 61st St) E 59th Pl (Maywood Ave to Loma Vista Ave) E 60th St (Maywood Ave to Loma Vista Ave) E 60th Pl (Maywood Ave to Loma Vista Ave) E 61st St (Maywood Ave to Carmelita Ave)	09/2017	06/2017	15	20
Huntington Park	Los Angeles	ATP Cycle II	On February 8, 2016 the City was awarded a \$1,757,000 grant for the "Uncontrolled Crosswalk Pedestrian Safety Enhancement Project". The Project consist of new ADA ramps, advanced yield and stop markings, countdown pedestrian signals, updated pedestrian signs, rapid-flashing beacons, repainting existing pavement markings, removal of nonfunctional in road lights, and ladder style crosswalks for 22 locations within the City of Huntington Park at unprotected crosswalks near schools, either mid-block or across major arterials (Proposed 22 improvements).	1. Huntington Park	Los Angeles	Huntington Park Signal Synchronization	This project improves the operation and efficiency by synchronizing 10 signalized, Reconfiguration of traffic lanes to allow dual turning lanes at specific intersections, and the installation of three changeable message signs along Pacific Boulevard. The signal improvements will include controller upgrades, new masts at specific intersections (up to five locations), video activated traffic controllers, and synchronization of the signalized mid-block pedestrian crossings on Pacific Boulevard. Synchronizing the signals along both Pacific and the other north-south arterials will help improve the bus lines' operations and efficiency by providing transit priority at the signalized intersections and synchronize the mid-block pedestrian signals in order to reduce traffic queuing	1. Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Imperial Beach	San Diego	Sidewalk Infill Citrus Ave	The project includes two blocks of Citrus Ave in between Alabama St. and Rainbow Dr. totaling approximately 1,800 feet. This stretch has a 50 foot wide right-of-way and an existing asphalt street. However, there is no sidewalk on either side.  An asphalt grind and 3" overlay will be done over this stretch of Citrus Ave. To address areas that have been identified as showing significant failing asphalt, dig-out operations will be performed to place new base and asphalt.  In order to increase walkability, the project proposes to install 4 foot wide ADA compliant sidewalk and standard driveways on both sides of Citrus Ave. Standard 6-inch curb and gutter will replace existing rolled curb. As part of the green streets feature, there will be a foot and a half section of permeable pavers in between the proposed curb and sidewalk.  To accommodate the limited parkway width and unique conditions of the site, the project will include some modified bulb-out driveways in between Corvina St. and Rainbow Dr. which will also serve as a traffic calming measure and should increase pedestrian safety.	The project includes two blocks of single family residential on Citrus Avenue totaling approximately 1,800 feet in between Alabama Street and Rainbow Drive in the Mar Vista neighborhood.	03/2018	07/2018	20	25
Indian Wells	Riverside	Cook Street Rehabilitation	Reconstruction of Cook Street (south) to include rubberized asphalt, road diet (through re-striping), and bike lanes	Cook Street from Fairway Drive to Highway 111	07/2019	06/2020	15	20
Indian Wells	Riverside	Miles Street Overlay	Overlay of Miles Avenue to include rubberized asphalt, road diet (through re-striping), and bike lanes	Miles Avenue from Highway 111 to Washington Street	07/2019	06/2019	10	15
Indio	Riverside	Hwy. 111 Improvements (Madison St to Rubidoux St)	Highway 111 improvements will include widening Highway 111 from four lanes to six lanes including pavement reconstruction, intersection improvements, and upgraded traffic signals at all intersections between Madison Street and Rubidoux Street. The improvements will upgrade all existing sidewalks and driveways to current ADA standards and add sidewalk to the bus stops near the intersection of Madison Street and Highway 111.	Highway 111 from approximately 700ft west of Madison Street to Rubidoux Street.	05/2017	06/2019	10	20
Industry	Los Angeles	Arenth Avenue Reconstruction	Cold Mill Overlay, driveway approaches, improved hydrology pattern, ADA improvements, striping	Arenth Avenue from Puente Road to Nogales Street	12/2017	07/2018	15	25

Northbound of Page Mill Road, crossing the Matadero Creek between Paseo Del Roble and Moon Lane.	04/2018	05/2018	20	50
Los Altos Hills	Santa Clara	Hale Creek Pathway Project (Bob Stutz Path)	Design and construct native pathway for pedestrians and equestrians.	Magdalena Road at El Monte Road	05/2018	06/2018	05	10
Los Altos Hills	Santa Clara	Matadero Creek Restoration Project	Removal of a portion of the outfall apron below Page Mill Road box culvert, removal of 13 willow and walnut trees, grading of new channel, creation of a rock rip-rap chute and reinforced drop-pool habitat features, downstream enforcement of the creek banks, and replanting. Project will provide pavement stability of a portion of Page Mill Road improving pedestrian and vehicular access and safety.	Page Mill Road at Berry Hill Court	06/2018	09/2018	30	50
Los Angeles	Los Angeles	Avalon from San Pedro to 120th	Complete Street Project involving 3.9 lane miles of street reconstruction, 5.3 lane miles of resurfacing, and safety improvements. The project will include a street reconfiguration to one lane each way with a center lane for turning, fully protected bike lanes from 56th to Manchester, speed feedback signs, leading pedestrian intervals, rectangular rapid flash beacons (RRFB), protected left turns, curb extensions, signal timing upgrades, intersection tightening, new crosswalks with RRFB, new traffic signals, and bus stop relocation.	Avalon from San Pedro to 120th (Council Districts 8, 9, 15)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	Main (south) from MLK to Imperial	Complete Street Project involving 3.1 lane miles of asphalt street reconstruction, 2.3 lane miles of concrete street reconstruction, 4.9 lane miles of asphalt resurfacing, and safety improvements. The project will include speed feedback signs, leading pedestrian intervals, adding RRFBs to crosswalks, protected left turns, signal timing upgrades, new crosswalks with RRFB, new traffic signals, and bus stop relocation.	Main (south) from MLK to Imperial (Council Districts 8, 9)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	Reseda from Parthenia to Victory	Complete Street Project involving 6.2 lane miles of street reconstruction, 6.2 lane miles of resurfacing and safety improvements. The project will include crosswalk installation or upgrades, striping modifications, curb extensions, signal phasing and timing changes, and proposals for closing a gap in the existing bike lanes, between Valerio and Vanowen.	Reseda from Parthenia to Victory (Council District 3,12)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	Roscoe from the 405 Freeway to Woodman	Complete Street Project involving 3.4 lane miles of street reconstruction, and safety improvements. The project will include speed feedback signs, leading pedestrian intervals, protected left turns, traffic signals and crosswalk upgrades.	Roscoe from the 405 Freeway to Woodman (Council Districts 6)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	Temple from Beverly to Beaudry	Complete Street Project involving 2.9 lane miles of street reconstruction, 1.3 lane miles of resurfacing, and safety improvements. The project will include speed feedback signs, leading pedestrian intervals, protected left turns, signal timing upgrades, new crosswalks with RRFB, new traffic signals, and bus stop relocation.	Temple from Beverly to Beaudry (Council Districts 1, 13)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	Venice (east) from Arlington to Figueroa	Complete Street Project involving 6.8 lane miles of street reconstruction, 1.6 lane miles of resurfacing, and safety improvements. The project will include leading pedestrian intervals, adding RRFB to crosswalks, protected left turns, and new traffic signals.	Venice (east) from Arlington to Figueroa (Council Districts 1, 9, 10)	03/2018	06/2019	20	30
Los Angeles	Los Angeles	6th Street from Rampart to Beaudry	Complete Street Project involving 0.9 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	6th Street from Rampart to Beaudry (Council District 1)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Adams from Fairfax to Crenshaw	Complete Street Project involving 0.9 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Adams from Fairfax to Crenshaw (Council District 10)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Alvarado from 6th to 7th	Complete Street Project involving safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Alvarado from 6th to 7th (Council District 1)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Broadway from Century to MLK	Complete Street Project involving 3.7 lane miles of street reconstruction, 3.4 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Broadway from Century to MLK (Council Districts 8, 9)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Figueroa from MLK to Imperial	Complete Street Project involving 9.5 lane miles of street reconstruction, 3.6 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Figueroa from MLK to Imperial (Council Districts 8, 9)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Hoover from Vernon to Manchester	Complete Street Project involving 1.3 lane miles of street reconstruction, 3.7 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Hoover from Vernon to Manchester (Council Districts 8, 9)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	N Broadway from Ave 18 to Mission	Complete Street Project involving 1.6 lane miles of street reconstruction, 3.3 lane miles of resurfacing and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	N. Broadway from Ave 18 to Mission (Council District 1)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Pico (east) from Western to Union	Complete Street Project involving 0.9 lane miles of street reconstruction, 0.6 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Pico (east) from Western to Union (Council Districts 1, 10)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Sepulveda from Nordhoff to Rinaldi	Complete Street Project involving 12.4 lane miles of street reconstruction, 4.9 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Sepulveda from Nordhoff to Rinaldi (Council District 7)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	7th from Figueroa to Alameda	Complete Street Project involving 1.0 lane mile of street reconstruction, 0.4 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	7th from Figueroa to Alameda (Council District 14)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Western from Century to Washington	Complete Street Project involving 3.5 lane miles of street reconstruction, 4.6 lane miles of resurfacing, and safety improvements. Input from the public and affected Council Office(s) will be used to determine specific safety improvements.	Western from Century to Washington (Council Districts 8, 10)	01/2019	06/2020	20	30
Los Angeles	Los Angeles	Davies Way (2044) Bulkhead	The project will construct a bulkhead type retaining wall with new steel piles and precast concrete lagging to restore lateral support to the roadway and provide for pedestrian safety.	2044 Davies Way	02/2018	08/2018	20	30
Los Angeles	Los Angeles	Verde Oak Drive (2252 N) Bulkhead	The project will construct a bulkhead type retaining wall with new steel piles and precast concrete lagging to restore lateral support to the roadway. The roadway has settled one to two feet over an 80 linear foot area.	2252 N. Verde Oak Drive	10/2018	04/2019	20	30
Los Angeles	Los Angeles	Glendale Blvd/Silverlake Blvd Rockfall Mitigation	The project will install a wire mesh net to keep material from a failed slope from continuing to impact the public right of way. Sandstone debris up to four feet in diameter previously dosed the sidewalk and two lanes of traffic on the street.	Glendale Bl. And Silverlake Bl.	08/2018	01/2019	20	30
Los Angeles	Los Angeles	Tujunga/Strathern/Fair Street/Sidewalk Project	This project will repair the roadway bed and sidewalks along Tujunga, Strathern and Fair Streets.	Tujunga Ave., Strathern St. and Fair St.	01/2020	06/2021	20	30

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Los Angeles	Los Angeles	Re-Imagine Ventura Blvd Streetscape Improvements	This project will begin with a study is to assess the feasibility of implementing new parking elements such as diagonal parking along Ventura Boulevard between Royer and Sale Avenue. This was accomplished by evaluating potential impacts to parking, roadway capacity, walkability, bicycle infrastructure, driveway accessibility (turn restrictions), aesthetics, and cost. Practicality and public opinion are also considered in this assessment. Additional design work and construction of the streetscape improvements are expected to occur in future years.	Ventura Bl, between Royer and Sale Ave.	01/2020	01/2021	20	30
Los Angeles	Los Angeles	Tunnel and Underpass lighting Improvement Program (TULIP)	This project will convert existing high intensity discharge lamps to LED's at approximately 100 tunnels and underpasses within the City. The new lighting will improve visibility and safety for motorists and pedestrians while reducing energy use.	Existing tunnels and underpasses throughout the City.	10/2017	06/2018	15	15

Malibu	Los Angeles	Annual Street Maintenance	This project consists of the reconstruction and maintenance of approximately 686,106 square feet of City streets.	Major maintenance to be performed on the following streets: Paseo Portola Street, Ramba Orienta Street, Paseo Hidalgo Street, Calle Del Barco, and Seaboard Road. Minor maintenance to be performed in the Carbon Canyon, Las Flores and Big Rock neighborhoods.	03/2018	06/2018	10	20
Mammoth Lakes	Mono	Meridian Blvd Curb and Gutter Replacement Project	The project will replace failed curb and gutter that is undermining the roadway, not conveying drainage, and impacting bicycle lanes.	Meridian Blvd from Minaret Road to Eagle Lodge in Mammoth Lakes	06/2017	08/2018	15	25
Manhattan Beach	Los Angeles	Manhattan Avenue/Highland Avenue Street Improvement Project	Pavement resurfacing and curb ramp improvements along Highland Avenue between 1st Street and 10th Street and Manhattan Avenue between 1st Street and 8th Street. The resurfacing work will fully utilize rubberized asphalt (2.5-inch thick) cap that is made from recycled used tires. All applicable curb ramps will be upgraded to be ADA compliant. Any other deteriorated curb, gutter, spandrels and access approaches will also be fixed at the same time as a part of the street improvements to minimize further disruption of traffic flow and the community in general.	Highland Avenue between 1st Street and 10th Street and Manhattan Avenue between 1st Street and 8th Street - Manhattan Beach, CA	02/2018	05/2018	12	15

McFarland	Kern	City of McFarland_ATP Kern Ave Elementary SR25 Connectivity Project	Complete Street Components: new sidewalks, curb, gutter, class 3 bikes lanes, and high visibility crosswalks.	Various locations- three city blocks bounded by 5th Street from W. Kern to W. Sherwood; 4th Street from W. Harlow Ave to California Ave; 3rd and 4th Place from W. Sherwood to California Ave	12/2017	04/2018	10	20
Mendota	Fresno	8th Street Reconstruction	In general, the project consists of reconstruction of 8th Street from Oller Street (State Route 180) to Rio Frio Street, including demolition of existing asphalt and concrete pavements, Full Depth Reclamation soil-cement treatment, new HMA pavement, curbs, gutters, ramps, driveway and alley approaches, and traffic striping and markings to add two way left turn lanes and parking/bike lanes.	8th Street from Oller Street (State Route 180) to Rio Frio Street.	08/2017	11/2017	15	30
Mendota	Fresno	Self Help Housing Resurfacing	Crack and Type II slurry seal of asphalt pavement of Peach Avenue, Locust Avenue, Elm Avenue, Ash Avenue, and Sorensen Avenue from Ash to bend in roadway north of Locust. (104,000 sf) Some minor digouts and repairs will occur on Peach near intersection with Belmont Avenue. Residential streets will be restriped as necessary.	Peach Avenue, Locust Avenue, Elm Avenue, Ash Avenue, and Sorensen Avenue from Ash to bend in roadway north of Locust.	03/2017	07/2017	05	15
Mendota	Fresno	Belmont Avenue Resurfacing	Crack and Type II slurry seal of asphalt pavement of Belmont Avenue from Derrick Avenue (SR 33) to Oller Avenue (SR 180.) (229,500 sf) Some minor digouts and repairs will occur to repair failed areas. This collector street that fronts a library and two schools will be restriped with school zone crossings, two-way left turn lanes and bike lanes.	Belmont Avenue from Derrick Avenue (SR 33) to Oller Avenue (SR 180.)	03/2017	07/2017	05	15
Mendota	Fresno	Las Palmas Phase 1 & 2 Resurfacing	Crack and Type II slurry seal of asphalt pavement of Espinoza Street, Valenzuela Street, Maldonado Street, Santa Cruz Street, San Pedro Street, Oxnard Street, and Black Avenue from Espinoza to Rowe Ave. (217,000 sf) Some minor digouts and repairs will occur to repair any failed areas. Residential streets will be restriped as necessary.	Espinoza Street, Valenzuela Street, Maldonado Street, Santa Cruz Street, San Pedro Street, Oxnard Street, and Black Avenue from Espinoza to Rowe Ave.	03/2017	07/2017	05	15
Mendota	Fresno	7th Street & Derrick	In general, the project consists of realigning 7th Street to provide a perpendicular intersection with Derrick Avenue (State Route 33). The project includes street reconstruction, landscape & landscape irrigation, new and replacement street lighting, decorative concrete, a new monument sign and seat walls in a plaza space, pedestrian crossing improvements, and ADA-compliant curb returns. Existing utility and storm drainage infrastructure will be relocated and/or modified to accommodate the proposed improvements. A portion of two existing parking lots will be reconfigured to accommodate the street realignment and will include the relocation of the existing Mendota Food Center sign. A raised median will be constructed in 7th Street.	7th Street from Derrick Avenue (SR 33) to Tule Street.	05/2017	12/2017	25	50

Millbrae	San Mateo	Old Bayshore Highway Repaving 2018	Overlay of Old Bayshore Highway from Burlingame City Limit to Millbrae Avenue. Work includes signage, striping, pavement legend and sidewalk replacement and wheel chair curb ramps upgrade.	Old Bayshore Highway between Burlingame City Limit & Millbrae Avenue	12/2017	06/2018	20	29
Milpitas	Santa Clara	Street Resurfacing 2018	Maintenance seal treatment, overlay, and/or reconstruction of city streets, construction of ADA curb ramps, and implementation of bike facility per city's bikeway masterplan	Project streets will be bounded by Milpitas Boulevard, I680, Jacklin Road, and Yosemite Drive. Specific streets and maintenance treatment to be incorporated into the project will be determined by pavement survey report to be completed by Dec. 2017.	06/2018	12/2018	05	15
Mission Viejo	Orange	Residential Resurfacing	Resurface (overlay and slurry seal treatment) 61.75 lane miles of public residential streets in Area 5 (please refer to the Project Location column for a description of the geographic boundaries of Area 5), as part of the City of Mission Viejo Residential Resurfacing Program: CIP 838.	Area 5 of the City of Mission Viejo Residential Resurfacing Program is generally bounded by the City of Mission Viejo northern jurisdictional boundary, Trabuco Road to the west, Alicia Parkway and Marguerite Parkway to the south, and Santa Margarita Parkway to the east; and, an additional area bounded by El Toro Road to the north, SR-241 to the west, the Upper Oso Reservoir to the south, and the City of Mission Viejo jurisdictional boundary to the east.	07/2017	10/2017	07	20
Modesto	Stanislaus	Fairmont Area	Type II Slurry Seal 8.2 lane miles of residential streets	Street segments in the Fairmont Neighborhood	05/2018	06/2018	05	07
Modesto	Stanislaus	Merle Area	Type II Slurry Seal 11.0 lane miles of residential streets	Street segments in the Merle Neighborhood	07/2017	08/2017	05	07
Modesto	Stanislaus	Mt Vernon Area	Type II Slurry Seal 10.5 lane miles of residential streets	Streets segments in the Mt Vernon Neighborhood	07/2017	08/2017	05	07
Modesto	Stanislaus	Encina Area	Type II Slurry Seal 6.5 lane miles of residential streets	Streets segments in the Encina Neighborhood	08/2017	09/2017	05	07
Modesto	Stanislaus	Downtown Area	Type II Slurry Seal 6.5 lane miles of residential streets	Streets segments in the Downtown Business Area	08/2017	09/2017	05	07
Modesto	Stanislaus	Brighton Area	Type II Slurry Seal 12.0 lane miles of residential streets	Streets segments in the Brighton Neighborhood	08/2017	09/2017	05	07
Modesto	Stanislaus	Montclair Area	Type II Slurry Seal 11.5 lane miles of residential streets	Streets segments in the Montclair Neighborhood	09/2017	10/2017	05	07
Modesto	Stanislaus	Veneman Area	Type II Slurry Seal 6.0 lane miles of residential streets	Streets segments in the Veneman Neighborhood	09/2017	10/2017	05	07
Modesto	Stanislaus	Carpenter Area	Type II Slurry Seal 12.2 lane miles of residential streets	Streets segments in the Carpenter Neighborhood	05/2018	06/2018	05	07
Modesto	Stanislaus	Floyd Area	Type II Slurry Seal 9.0 lane miles of residential streets	Streets segments in the Floyd Neighborhood	09/2017	10/2017	05	07
Modesto	Stanislaus	Crack Seal	Crack seal residential streets throughout Modesto to prevent water intrusion and preparation for next slurry season.	Street segments throughout Modesto	10/2017	05/2018	05	07
Modesto	Stanislaus	Dig-Outs	Asphalt section repairs of residential streets throughout Modesto for preparation of next slurry season.	Street segments throughout Modesto	10/2017	05/2018	05	07
Monrovia	Los Angeles	Old Town Striping Improvements	Restriping of traffic lanes, crosswalks, markers, and legends in Old Town Monrovia. Process includes removal of existing, layout of new, and application of two coats of roadway striping paint.	Myrtle Ave between Huntington Drive and Foothill Blvd. Includes the side streets of Primrose Ave to the West, Ivy Ave to the East, and all cross streets between Walnut Ave to the South and Palm Ave to the North.	07/2017	06/2018	05	05
Monrovia	Los Angeles	Bicycle Master Plan Implementation	Installation of roadway striping and signage to delineate the City of Monrovia's Class II and Class III bicycle routes.	Along all Class I and Class II bicycle routes as outlined in the City of Monrovia's Bicycle Master Plan	07/2017	06/2018	05	15
Monrovia	Los Angeles	School Zone Striping Improvements	Replacement of all traffic markings in designated school zones, including painting and signage.	In and around all school zones related to twelve school sites within Monrovia Unified School District	07/2017	06/2018	05	15
Monrovia	Los Angeles	Station Square/Gold Line Area Striping Improvements	Restriping of all traffic lanes, crosswalks, markers, and legends in and around the Station Square/METRO Gold Line area.	In and around the Station Square Area, which is bound by Evergreen Ave to the north, Duarte Rd to the south, Magnolia Ave to the west, and California Ave to the East	07/2017	06/2018	05	05
Monrovia	Los Angeles	Foothill Blvd Traffic Sign Replacement	Upgrade/replacement of all traffic signs along Foothill Blvd.	Along Foothill Blvd, from the west City limit (5th Ave) to mountain Ave	07/2017	06/2018	15	15
Montague	Siskiyou	Crack Seal	Rehabilitation & maintenance of a local roadway	West Webb, South 13th, North Ninth, Buel, Prather, North Fifth, North Sixth	08/2017	06/2018	02	04
Montclair	San Bernardino	San Bernardino Street Rehabilitation	The project will repair curb, gutter and sidewalk, upgrade traffic signal equipment, resurface the pavement, and stripe the street to include a designated bike lane.	The project limits include both eastbound and westbound lanes from Mills Avenue (west city limit) to Benson Avenue (east city limit).	12/2017	06/2018	10	20
Montclair	San Bernardino	Monte Vista Avenue Street Rehabilitation (Design Only)	Design services only. The project will repair curb, gutter and sidewalk, upgrade traffic signal equipment, resurface the pavement, and stripe the street.	The project limits include both northbound and southbound lanes from Pacific Electric Bicycle Trail (north city limit) to Phillips Street (south city limit).	01/2018	12/2018	10	20
Monte Sereno	Santa Clara	Oak Knoll resurfacing project	Rehabilitation of Oak Knoll Drive	Oak Knoll Drive	03/2018	05/2018	15	20
Montebello	Los Angeles	Montebello Blvd ATP Project	Perform various pavement improvements (incl. dedicated bike lanes, new pedestrian sidewalks/lighting, rehabilitate existing AC pavement, update ADA facilities, replace existing damaged public concrete improvements, upgrade traffic signals and replace pavement markings, plant trees and landscape medians).	The project is located in northerly Montebello. Montebello Blvd is a major arterial street.	04/2018	04/2020	15	20
Monterey	Monterey	Reconstruction of Via Gayuba	Construction of concrete curbs, gutters, sidewalks, sidewalk crossings (driveway approach) and curb ramps, storm drainage, signage and striping, isolated street and driveway surface repairs, pavement grinding, street reconstruction and hot mix asphalt pavement.	Via Gayuba (between Via Del Pinar and Mar Vista)	01/2018	06/2018	20	25
Monterey Park	Los Angeles	Various Street Rehabilitation	A combination of localized pavement repairs, rubberized asphalt overlay construction, and slurry seal coat application as identified in the City's Pavement Management Study.	Chandler Av from Harding Av to Garvey Av	12/2017	01/2018	15	20
Monterey Park	Los Angeles	Various Street Rehabilitation	A combination of localized pavement repairs, rubberized asphalt overlay construction, and slurry seal coat application as identified in the City's Pavement Management Study. Mount Shasta	Siskiyou	Alma Street Traffic Signal Project	Remove existing traffic signals and install new traffic signals at the intersection of Alma Street and North Mt. Shasta Blvd. Construct new ADA compliant curb ramps at the four corners of the intersection.	The intersection of Alma Street and North Mt. Shasta Blvd.	03/2018	08/2018	25	25
Mountain View	Santa Clara	Street Resurfacing and Slurry Seal Program	Install asphalt concrete and fog seal overlays, raise utilities and monuments, or apply slurry seal to selected street surfaces	Various locations, see list attached	06/2018	09/2018	08	10
Murrieta	Riverside	Murrieta Pavement Resurfacing Asphalt Overlay Project	Rehabilitation of existing asphalt concrete roadways and asphalt concrete overlay	Nutmeg Street from Jefferson Avenue to Jascskon Avenue	11/2017	05/2018	10	20
Murrieta	Riverside	Murrieta Pavement Resurfacing Asphalt Overlay Project	Rehabilitation of existing asphalt concrete roadways and asphalt concrete overlay	Hancock Avenue from Los Alamos Road to Murrieta Hot Springs	11/2017	05/2018	10	20
Napa	Napa	SB 1 - Street Rejuvenation Project FY2017/18	Apply a asphalt rejuvenation sealant on more than 100 roadway segments (approximately 16 centerline miles). This process reverses the effects of aging due to environmental damage from sunlight and water. It is cost-effective and extends the life of the roadway 2-5 years.	Various locations within the City of Napa. Neighborhoods are identified as: Young Ave. Area, Mac Tract, West Twin Oaks Area, Robinson Lane Area, River Park, Napa Valley Corporate Park, and ABC Streets. Area maps are attached.	01/2018	05/2018	02	05
National City	San Diego	FY 2018 Safe Routes to School (SRTS) Pedestrian and Bicycle Enhancements - Harbison Avenue and E. 2nd Street Traffic Calming	Construct traffic calming measures such as corner bulb-outs and high intensity signing and striping, and new pedestrian curb ramps for Americans with Disabilities Act (ADA) compliance at the intersection of Harbison Avenue and E. 2nd Street	Intersection of Harbison Avenue and E. 2nd Street	03/2018	06/2018	20	30
National City	San Diego	FY 2018 SRTS Pedestrian and Bicycle Enhancements - Lincoln Acres Elementary School Raised Crosswalk	Construct a raised crosswalk with pedestrian actuated flashing crosswalk signs, high intensity striping, and new pedestrian curb ramps for ADA compliance on Lanoitan Avenue in front of Lincoln Acres Elementary School	Lanoitan Avenue in front of Lincoln Acres Elementary School	10/2017	11/2017	20	30
National City	San Diego	FY 2018 SRTS Pedestrian and Bicycle Enhancements - Division Street Traffic Calming, Euclid Avenue to Harbison Avenue	Provide street resurfacing and restriping to include a "road diet" for traffic calming converting four travel lanes to three travel lanes (two westbound and one eastbound) with a two-way left-turn center lane, Class II bike lanes, and new pedestrian curb ramps for ADA compliance on Division Street between Euclid Avenue and Harbison Avenue	Division Street between Euclid Avenue and Harbison Avenue	03/2018	06/2018	10	15
Needles	San Bernardino	Five Mile Road rehabilitation project	Crack seal and slurry	City's portion of Five Mile Road rehabilitation project by County of San Bernardino	02/2018	06/2018	05	10
Needles	San Bernardino	Shore Street to Jack Smith Park entrance rehabilitation project	Crack seal and slurry	Shore Street to Jack Smith Park entrance	01/2018	05/2018	05	10
Nevada City	Nevada	Commercial Street	This project consists of roadway rehabilitation. Sidewalk will be widened and enhanced at intersections to provide safe, convenient and efficient pedestrian access within the Downtown Historic District. Pavement improvements include replacement of deteriorated pavement and improvements to cross-slope for drainage. This project will help reduce traffic congestion and improve pedestrian safety which reduces vehicle emissions helping the State achieve its air quality and greenhouse gas emissions reductions goals.	Commercial Street from Union Street to Broad Street	05/2018	06/2019	10	20
Nevada City	Nevada	Broad Street Y	This project consists of roadway rehabilitation. Sidewalk will be widened and enhanced at intersections to provide safe, convenient and efficient pedestrian access within the Downtown Historic District. Pavement improvements include replacement of deteriorated pavement and improvements to cross-slope for drainage. This project will help reduce traffic congestion and improve pedestrian safety which reduces vehicle emissions helping the State achieve its air quality and greenhouse gas emissions reductions goals.	Broad Street from Commerical Street to (and including) the intersection of West Broad Street and East Broad Street.	05/2019	11/2019	10	20
Newark	Alameda	Citywide Accessible Pedestrian Ramps	Installation, repair or replacement of accessible pedestrian ramps at various locations throughout the City	Various locations throughout the City. Specific curb ramp locations will be finalized during development of construction plans based on identified needs.	02/2018	04/2018	20	30
Newark	Alameda	Citywide Street Signs	Installation or replacement of street signs at various locations throughout the City	Various locations throughout the City. Specific street sign locations will be finalized during development of construction plans based on identified needs.	08/2018	12/2018	15	25
Newark	Alameda	Thermoplastic Street Striping	Installation or replacement of traffic striping and pavement markings at various locations throughout the City	Various locations throughout the City. Specific street striping locations will be finalized during development of construction plans based on identified needs.	08/2018	09/2018	05	10

Pleasant Hill	Contra Costa	Pleasant Hill Road Improvement Project (Taylor Boulevard to Gregory Lane)	.5 mile of complete street and safety improvements	Taylor Boulevard to Gregory Lane	06/2018	04/2020	15	25
Pleasanton	Alameda	Annual Resurfacing & Reconstruction of Various Streets	This annual project involves the resurfacing and reconstruction of various city streets to assure conformance with city maintenance standards and the Complete Streets Policy. Streets to be resurfaced and reconstructed will be determined based upon conclusions reached as part of Pavement Condition Survey studies. When resurfacing thoroughfares, the asphalt mix will be sound attenuating pavement to attenuate tire noise, slightly increasing the cost of resurfacing. The project will include performing base repairs and crack sealing for the Annual Slurry Seal project. In addition, the replacement of existing traffic loop detectors, installation of traffic signal cameras, and the reconstruction of pavement surface approaches to signalized intersections will be completed. Traffic striping will be updated to accommodate new bike lanes where possible in accordance with the Bicycle Master Plan.	Various Streets throughout the City, including but not limited to: Main Street/Santa Rita (from Bernal Avenue to Amador High School); Foothill Road (from I-580 to Muirwood); Muirwood Drive North (from Foothill to W. Las Positas) and various courts off Muirwood; Johnson Drive (from Owens Drive to Commerce Drive); Stoneridge Drive around Gibraltar; Various streets in County Fair Estates, off of Paseo Santa Cruz (north); Various streets in Val Vista, off of Single Tree, Payne, Alvord, and Inglewood.	10/2017	05/2018	10	15
Plymouth	Amador	SR49/Main St Roundabout Project	Replace two way stop intersection on SR49 with a SOTA Roundabout to eliminate a very dangerous intersection at SR49& Main St. in Plymouth, CA. Adding pedestrian/bike crossings.	Intersection of State Route 49 and Main St. in Plymouth, CA Lat:38°28'54.6"N Long: 120°50'41.28"W	06/2017	12/2017	20	40
Point Arena	Mendocino	Port Road Rehab & Overlay	2" AC overlay for .6 mile long by 25' (Approximate). 200 sq. ft. of dig outs and replacement prior to overlay.	On Port Road, extending easterly from the western terminus at the Point Arena Pier ramp for 0.6 miles, ending approximately at the eastern terminus near the Iversen Road junction.	02/2018	06/2018	15	20
Pomona	Los Angeles	Street Preservation-Local Citywide (FY17-18) Project No. 428-68558	Street Preservation of local streets Citywide, according to pavement management program, focused primary on slurry seals, cape seals, and thin overlays.	Please See Attachment "A" Streets List	10/2018	10/2019	02	12
Pomona	Los Angeles	Public Works - Work Order System	Purchase and implementation of a centralized work order tracking system for maintenance and repair requests, and completion of said work for road, lighting, traffic signals and signage, and storm drain system; provide for an overall centralized database for efficient tracking of work orders, staff time, materials,etc.	Citywide	01/2017	06/2018	10	15
Pomona	Los Angeles	Conversion of an existing City truck to include an asphalt material bed	Funding will provide for the replacement of a crane on an existing Tree Trunk Removal Truck with an Asphalt Material Bed. This will allow Public Works Street Crews to carry asphalt for the fixing of potholes and patchwork more efficiently.	Citywide	11/2017	06/2018	10	15
Pomona	Los Angeles	Safety Training and Equipment for Field Crews	To provide safety equipment for field crews who are inspecting and providing maintenance for City streets.	Citywide	11/2017	06/2018	02	02
Pomona	Los Angeles	GPS Tracking System	GPS tracking system for field crews within the Traffic Signal and Lighting Division to be able to identify and track service locations in real time.	Citywide	11/2017	06/2018	05	06
Pomona	Los Angeles	Contract Landscape Maintenance	Provide for landscape maintenance to medians and tree wells, to include pest control, debris and trash removal, tree maintenance, lifting of trees as necessary, sucker removal, trimming of shrubs and ground cover, watering and irrigation, backflow certification, replacement of all irrigation parts including valves, heads, backflow device and controllers as necessary. Maintenance is continuous.	Garey Avenue from Aliso Street to Foothill Boulevard	11/2018	06/2018	01	01
Pomona	Los Angeles	Contracted Asphalt and Concrete Repair Services	Contracted Asphalt and Concrete Repair Services to supplement existing field crews and provide asphalt repairs to include potholes, patchwork repairs where broken asphalt and other areas require service and repair on an as-needed basis. Typical locations for repair services consist of residential and arterial roadways. This will also supplement services for repairs to sidewalks, curbs and gutters.	Citywide	11/2017	06/2018	01	10
Pomona	Los Angeles	Contract Landscape Maintenance	Provide for landscape maintenance of sloped areas at on- and off-ramps. Work will include weed control, pest control, debris and trash removal, tree maintenance, as necessary, trimming of shrubs and ground cover, watering and irrigation. Maintenance is continuous.	SR-71/Mission Blvd.	04/2018	06/2018	01	01
Port Hueneme	Ventura	Ventura Road	Crack fill and slurry	Various locations along Ventura Road from Port Hueneme Road to Channel Islands Blvd	05/2018	06/2018	15	20
Port Hueneme	Ventura	Crosswalk Upgrades	Upgrade signs and striping with new highly reflective material	Bard Road, Scott Street, Pearl Street, Bryce Canyon, Sunkist Street and Wheelhouse Avenue	04/2018	05/2018	15	20
Port Hueneme	Ventura	Pedestrian Safety	Replacement of cracked, uplifted sidewalks and additional curb ramps	Bard Road, Scott Street, Pearl Street, Bryce Canyon, Sunkist Street and Wheelhouse Avenue	05/2018	06/2018	15	20
Porterville	Tulare	Orange Avenue	Rehabilitation of four-lane arterial road half mile in length and 64 feet wide. The rehabilitation includes the removal and replacement of the asphalt pavement section and curb ramps, updating traffic signal components, and other related items to improve the deficiencies of the roadway.	Between Main Street and Plano Street, this is also a school route to Santa Fe Elementary School.	07/2017	07/2018	10	15
Portola	Plumas	West Street Patching	Patch selected potholes - remove and replace base and asphalt pavement as required	Along entire length of West Street	09/2018	09/2018	02	05
Portola	Plumas	Joy Way Street Patching	Patch selected potholes - remove and replace base and asphalt pavement as required	Along entire length of Joy Way	09/2018	09/2018	02	05
Portola	Plumas	Main Street Patching	Patch selected potholes - remove and replace base and asphalt pavement as required	Along entire length of Main Street	09/2018	09/2018	02	05

Portola	Plumas	Taylor Ave Patching	Patch selected potholes - remove and replace base and asphalt pavement as required	Along entire length of Taylor Ave	09/2018	09/2018	02	05
Portola Valley	San Mateo	2017/2018 Street Resurfacing project	Project will consist of: Base repairs, crack seal, slurry seal or asphalt overlay, traffic striping	Cheyenne Point: Entire Length	05/2019	06/2019	04	06
Portola Valley	San Mateo	2017/2018 Street Resurfacing project	Project will consist of: Base repairs, crack seal, slurry seal or asphalt overlay, traffic striping	Nathorst Avenue (East) , Entire Length	05/2019	06/2019	04	06
Portola Valley	San Mateo	2017/2018 Street Resurfacing project	Project will consist of: Base repairs, crack seal, slurry seal or asphalt overlay, traffic striping	Nathorst Avenue (West): Entire Length	05/2019	06/2019	04	06
Portola Valley	San Mateo	2017/2018 Street Resurfacing project	Project will consist of: Base repairs, crack seal, slurry seal or asphalt overlay, traffic striping	Paloma Road: Entire Length	05/2019	06/2019	04	06
Portola Valley	San Mateo	2017/2018 Street Resurfacing project	Project will consist of: Base repairs, crack seal, slurry seal or asphalt overlay, traffic striping	Sioux Way: Entire Length	05/2019	06/2019	04	06
Poway	San Diego	17/18 Street Maintenance Project	This project will provide deep patching, crack sealing, and slurry seal coating for all streets in Street Maintenance Zone 8, extending the life of the existing asphalt. Zone 1 contains approximately 21 miles of residential, collector and arterial roadways.	City of Poway street maintenance zone 8, consisting of all public streets generally west of Pomerado Road between Twin Peaks Road and the south City limit, and south of Poway Road between Community Road and the west City limit.	06/2017	10/2017	15	20
Rancho Cordova	Sacramento	2017 Street Rehabilitation Project	This project will rehabilitate the roadways within the Cordova Meadows neighborhood. This project will also include sidewalk upgrades/repairs and storm drain upgrades as necessary. (SB1 funds to be spent in FY 17/18)	Cordova Meadows Neighborhood	07/2017	11/2017	20	20
Rancho Cordova	Sacramento	Sunrise Boulevard Rehabilitation - Phase I	This project will rehabilitate Sunrise Boulevard from Folsom Boulevard to Citrus Road. The project will also include sidewalk upgrades/repairs and storm drain upgrades as necessary. (SB1 funds to be spent in FY 18/19)	Sunrise Boulevard from Folsom Boulevard to Citrus Road	10/2017	11/2018	15	20
Rancho Cucamonga	San Bernardino	6th Street from Milliken Avenue to Charles Smith Avenue Pavement Rehabilitation	The project involves storm drain, localized asphalt repair, cold planning, crack sealing, asphalt rubber hot mix overlay, video detection signal upgrades, ADA ramp upgrades, utility adjustments and pavement striping for approximately 0.85 miles of roadway.	6th Street from Milliken Avenue to Charles Smith Avenue.	03/2018	04/2018	20	30
Rancho Cucamonga	San Bernardino	Jersey Boulevard from Haven Avenue to Rochester Avenue Pavement Rehabilitation	The project involves cold planning, localized asphalt repair, crack sealing, asphalt rubber hot mix overlay, video detection signal upgrades, ADA ramp upgrades, utility adjustments and pavement striping for approximately 1.70 miles of roadway.	Jersey Boulevard from Haven Avenue to Rochester Avenue	03/2018	04/2018	20	30
Rancho Mirage	San Bernardino	Dinah Shore Drive Pavement Rehabilitation	This project will include a full rehabilitation of existing pavement on the westbound #1 lane of a 3/4-mile segment of Dinah Shore Drive that was recently annexed into the City of Rancho Mirage. The existing pavement has deteriorated over numerous years without the necessary maintenance, which has resulted in severe alligator cracking over the entire length and a Pavement Condition Index of 41 – the lowest in the City of Rancho Mirage. The City plans to utilize the cold in-place recycling method for existing asphalt pavement in order to reduce costs.	Dinah Shore Drive, north side, from Los Alamos Road to 1,320' west of Bob Hope Drive (Total distance: 0.75 miles)	06/2018	06/2018	15	20
Rancho Palos Verdes	Los Angeles	Arterial Rehabilitation Project - Crest Road East	Repave/Resurface 1 mile of roadway with asphalt rubber pavement, pedestrian enhancements and pavement striping.	Crest Road East from Palos Verdes Drive East to 500 feet north of Ganado Drive	11/2017	03/2018	18	22
Rancho Santa Margarita	Orange	Avenida Empresa Pavement Rehabilitation Project	The project consists of grinding 0.2 miles of existing asphalt, placement of a new layer of asphalt concrete and full depth reconstruction in localized areas.	City of Rancho Santa Margarita in the County of Orange, located on Avenida Empresa within the boundaries of Antonio Parkway and Avenida De Las Banderas	03/2018	06/2018	10	15

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Red Bluff	Tehama	Walnut Ave. Overlay	Microsurfacing of halfwidth of Walnut Street between Paskenta and David. Complete the resurfacing that has occurred as part of Courthouse project.	Walnut Street between Paskenta and David	03/2018	05/2018	05	07
Red Bluff	Tehama	S. Jackson Street Rehabilitation	Pavement rehabilitation and microsurfacing of S. Jackson Street between Vista Way and Luther Road. Infill of approximately 1,200 lf of sidewalk adjacent to Vista School.	S. Jackson Street between Vista Way and Luther Road	12/2017	03/2018	05	07
Redding	Shasta	2017 Cape/Slurry Seal Project	Residential cape and slurry seal project in various neighborhoods in Redding	Various neighborhoods in Redding	04/2018	07/2018	05	12
Redding	Shasta	Quartz Hill Road ATP Widening	Project includes installation of bike lanes and sidewalks along Quartz Hill Road. Also the addition of enhanced pedestrian crossings with rapid flashing beacons	Quartz Hill Road from Market Street to just south of Terra Nova	11/2017	08/2017	10	20
Redding	Shasta	Bechilli Lane ATP Improvements	Project includes a road diet, sidewalk gap closure, ADA curb ramps, buffered bike lanes and enhanced pedestrian crossings	Bechilli Lane from Cypress Ave on the north to Riverview Country Club	02/2019	09/2019	10	15
Redding	Shasta	2017 ADA Curb Ramp and Siewalk Repair Project	Installation of new ADA curb ramps and repair of lifted sidewalk sections	Various locations throughout the City	10/2017	12/2017	10	20
Redlands	San Bernardino	PIPP Implementation	Install bike boulevards, high-visibility crosswalks, pedestrian bulbouts, and ADA accessibility features around the Redlands Library and Redlands Bowl	Various locations along Grant Avenue, Cajon Street, and Vine Avenue	06/2018	12/2018	30	30
Redondo Beach	Los Angeles	North Redondo Beach Commercial Streets	The project will resurface the commercial streets in north Redondo Beach including Santa Fe, Space Park Drive, and Doolittle. Curbs and gutters will be repaired and replaced as necessary. (Adopted CIP, pg. 22)	The project will resurface the commercial streets in north Redondo Beach including Santa Fe, Space Park Drive, and Doolittle. Curbs and gutters will be repaired and replaced as necessary. (Adopted CIP, pg. 22)	06/2018	12/2018	20	30
Redwood City	San Mateo	2017-2018 Overlay Project (Twin Dolphin Drive)	Preventative rehabilitation and pavement maintenance, including raising utilities covers to grade, ADA improvements and installation of associated markers and striping.	Twin Dolphin Drive, Marine to Redwood Shores Parkway, in the City of Redwood City	04/2018	04/2019	08	15
Redwood City	San Mateo	Hopkins Avenue Overlay Project	Preventative rehabilitation and pavement maintenance, including raising utilities covers to grade, ADA improvements and installation of associated markers and striping.	Hopkins Avenue, El Camino Real to Upland Road	12/2018	12/2019	08	15
Reedley	Fresno	Manning Ave - Frankwood to Columbia	The City of Reedley will be utilizing the full 2017-18 allocation of SB 1 for partial funding of a multi-year project for heavy road maintenance on Manning Ave., between North Frankwood Ave. and Columbia Ave. Manning Ave. is classified as a major arterial street for the City of Reedley. A Pavement Management Plan, which included the inspection of all streets within the City limits, was completed in March of 2017. This plan indicated that the aforementioned section of roadway has an average Pavement Condition Index of 38, thus the condition is classified as poor, and the roadway is in dire need of maintenance or rehabilitation. The City lacks sufficient funds for complete roadway reconstruction so the City is planning to perform heavy maintenance activities on the roadway, including crack sealing, dig outs where needed, and a complete Cape Seal. Cape Seal will include a chip seal followed by a slurry seal and then complete re-striping of the roadway. The total cost of the project is anticipated to be \$225,000, which will utilize the entire anticipated 2017-18 SB 1 allocation of \$180,000, and a portion of the 2018-19 year allocation to complete the project budget.	Manning Avenue, between North Frankwood Avenue and Columbia Avenue.	03/2018	06/2018	10	15
Rialto	San Bernardino	2017/18 Annual Street Overlay Project	1. Pavement rehabilitation of the indicated existing street segments (approximately 3.59 miles of road) using one or more of the following methods: (1) Cold Milling and Asphalt Concrete (AC) Surface Course; (2) Full Depth AC removal and re-construction; (3) Full Depth Reclamation including in-place pulverization and mixing of the existing pavement to create a stabilized base, followed by construction of AC Base and Surface Course; (4) Cold In-Place Recycling of existing pavement, followed by construction of an AC Surface Course. 2. Addition of new and/or repair/upgrade of curbs and gutters, cross gutters, catch basins, and culverts. 3. Addition of new and/or repair/upgrade of ADA curb ramps; and addition of new sidewalks and/or repair/replacement of damaged sidewalks. 4. Replacing/Upgrading traffic striping and pavement markings.	Linden Ave. from Foothill Blvd. to Rialto Ave.; Merrill Ave. from Maple Ave. to Riverside Ave.; Rialto Ave. from Riverside Ave. to Sycamore Ave.; Valley Blvd. from Spruce Ave. to 640 ft east of Lilac Ave.; and Valley Blvd. from Riverside Ave. to East City Limit.	03/2018	09/2018	07	20

San Anselmo	Marin	Merced Avenue Rehabilitation	Removal of the existing pavement section and replace with asphalt concrete. Project includes replacing existing striping and signage, as required, as well as other Complete Streets elements.	Merced Avenue from Fern Lane to San Anselmo Avenue	05/2018	10/2018	20	30
San Anselmo	Marin	Plumas Avenue Rehabilitation	Removal of the existing pavement section and replace with asphalt concrete. Project includes replacing existing striping and signage, as required, as well as other Complete Streets elements.	Plumas Avenue from Scenic Avenue to Morton Lane	05/2018	10/2018	20	30
San Anselmo	Marin	Morton Avenue Rehabilitation	Removal of the existing pavement section and replace with asphalt concrete. Project includes replacing existing striping and signage, as required, as well as other Complete Streets elements.	Morton Lane from Plumas Avenue to Elm Avenue	05/2018	10/2018	20	30
San Anselmo	Marin	San Francisco Boulevard Rehabilitation	Removal of the existing pavement section and replace with asphalt concrete. Project includes replacing existing striping and signage, as required, as well as other Complete Streets elements.	San Francisco Boulevard from Sir Francis Drake Boulevard to end	05/2018	10/2018	20	30
San Bernardino	San Bernardino	Bridge and Railing Repairs at Various Locations	Bridge and Railing Repairs at Various Locations in the City of San Bernardino by coating with Methacrylate, patching spalling concrete, repairing bridge seals, repairing damaged or vandalized bridge railing, and related work.	Citywide within City of San Bernardino	04/2018	06/2018	05	10
San Bernardino	San Bernardino	Pavement Rejuvenation at Various Locations (Annual)Slurry	Crack filling and Slurry Sealing at various citywide locations. The project consists of cleaning and sealing cracks, grinding raised areas, and applying a slurry seal that protects the street against moisture intrusion into the subgrade.	Citywide within City of San Bernardino	04/2018	06/2018	02	05
San Bernardino	San Bernardino	Inland Center Drive Pavement Rehabilitation between "E" Street and Adell street	Pavement Rehabilitation of Inland Center Drive between "E" Street and Adell Street in front of Inland Center Mall to repair roadway, broken curb and gutter and sidewalk. Also retrofitting or installing ADA access ramps as required by State / Federal guidelines. This project will grind 1 1/2" to 2" of existing asphalt at Inland Center Drive between "E" Street and Adell Street for total of approximately 0.5 miles, repair damaged portions and overlay with new asphalt and restripe. Scope also includes replacement of damaged curb and gutter and sidewalk along 0.5 miles. About 13 curb ramps will be retrofit or installed at total of 3 street intersections.	Inland Center Drive between "E" Street and Adell Street.	08/2018	11/2018	05	10
San Bernardino	San Bernardino	Little Mountain Drive Pavement Rehabilitation between Kendall Drive and 30th Street	Pavement Rehabilitation of Little Mountain Drive between Kendall Drive and 30th Street. Scope of work also includes repairing or replacing broken curb and gutter and sidewalk. Retrofitting or installing ADA ramps as required by State / Federal guidelines. This project will grind 1 1/2" to 2" of existing asphalt at Little Mountain Drive between Kendall Drive and 30th Street for total of approximately 3 miles, repair damaged portions and overlay with new asphalt and restripe. Scope also includes replacement of damaged curb and gutter and sidewalk along 3 miles over 13 locations. About 64 curb ramps will be retrofit or installed at total of 16 street intersections. This segment of Little Mountain Drive is included in five year Measure I plan adopted by City Council.	Little Mountain Drive between Kendal Drive and 30th Street.	08/2018	11/2018	05	10
San Bruno	San Mateo	Masson Avenue Rehabilitation Project	Street rehabilitation of approximately 1400 feet of failed pavement along Masson Avenue by removal of the existing pavement section and replacement with new asphalt and aggregate base.	On Masson Avenue between Angus Avenue and San Bruno Avenue	12/2017	08/2018	34	34
San Carlos	San Mateo	2018 Pavement Rehabilitation-Phase 1	Pavement rehabilitation, maintenance, striping and ADA ramps	Arundel Road, Phelps Rd., Palm Ave., Hillcrest Road, Upland Ave., Vista Ave., Carmelita Drive, Prospect Rd., Brittan Ave., Knoll Dr., Coronado, Hilltop Dr. & Belmont Ave.	09/2018	10/2018	08	28
San Carlos	San Mateo	2018 Pavement Rehabilitation-Phase 2	Pavement rehabilitation, maintenance, striping and ADA ramps	Cedar Street and Brittan Ave.	02/2019	03/2019	13	13
San Clemente	Orange	Alley Pavement Rehabilitation	Reconstruct about 0.45 miles of 20-foot wide public alleys.	Alley west of and parallel to North El Camino Real from Avenida Cabrillo to West El Portal.	02/2018	07/2018	25	30
San Diego	San Diego	Slurry Seal Group 1803	This project involves the application of a slurry seal on approximately 60 miles of roads throughout the city. Slurry seal is generally used on streets which are in good condition to protect them from deterioration. The application of a slurry seal, which consists of sand, emulsion and water applied in a thin layer up to 3/8 of an inch thick on a street surface, can protect and preserve the street pavement for approximately 3-7 years.	Carmel Mountain Ranch, Centre City, City Heights, Clairemont Mesa, College Area, Kearny Mesa, Kensington-Talmadge, La Jolla, Miramar Ranch North, Navajo, Ocean Beach, Otay Mesa, Otay Mesa-Nestor, Peninsula, Rancho Penasquitos, Sabre Springs, Scripps Miramar Ranch, Serra Mesa, Skyline-Paradise Hills, Sorrento Valley, Southeastern San Diego, Tierrasanta, Uptown	01/2018	06/2018	03	07
San Diego	San Diego	Slurry Seal Group 1804	This project involves the application of a slurry seal on approximately 60 miles of roads throughout the city. Slurry seal is generally used on streets which are in good condition to protect them from deterioration. The application of a slurry seal, which consists of sand, emulsion and water applied in a thin layer up to 3/8 of an inch thick on a street surface, can protect and preserve the street pavement for approximately 3-7 years. San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	Blaney Av. (Between Prospect Rd. and Bollinger Rd.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET SEALING PROJECT	This project will install microsurfacing sealant over streets that may have received spot "remove and replace" repairs	Blossom Hill Rd. (Between Blossom Av. And HWY 101 Bridge)	05/2018	10/2018	05	08
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	Delmas Av. (Between Santa Clara St and Auzerais Av.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET SEALING PROJECT	This project will install microsurfacing sealant over streets that may have received spot "remove and replace" repairs	Dry Creek Rd. (Between Bascom Av. And Hicks Av.)	05/2018	10/2018	05	08
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	McKee Rd. (Between Eastside Dr. and the city limits on Ridge Vista Av.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	McKee Rd. (Between the city limits on Gridley St. and the city limits on Valley View Av.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET SEALING PROJECT	This project will install microsurfacing sealant over streets that may have received spot "remove and replace" repairs	Monroe St. (Between Newhall St. and Tisch Wy.)	05/2018	10/2018	05	08
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	Norwood Av. (Between White Rd. and Murillo Av.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	Plumeria Dr. (Between 1st St. and Monague Ex.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET RESURFACING PROJECT	This project aims to resurface and rehabilitate the following section of road within the City of San Jose. The project will include work such as Cold In-Place Recycling (CIR), placing pavement fabric, applying a rubberized hot mix asphalt overlay, replacing traffic striping and markings, adding new/enhanced bike lanes, and installing bicycle detector loops.	Ringwood Av. (Between Trade Zone Bl. And Murphy Av.)	05/2018	10/2018	15	20
San Jose	Santa Clara	2018 MAJOR STREET SEALING PROJECT	This project will install microsurfacing sealant over streets that may have received spot "remove and replace" repairs	St John St. (Between Montgomery St. and 13th St.)	05/2018	10/2018	05	08
San Jose	Santa Clara	2018 MAJOR STREET SEALING PROJECT	This project will install microsurfacing sealant over streets that may have received spot "remove and replace" repairs	Trade Zone Bl. (Between N. Capitol Av. And Montague Ex.)	05/2018	10/2018	05	08
San Juan Bautista	San Benito	Muckeleli Street reconstruction	Reconstruct existing street w 12" AB and 4"AC; striping for bike lanes	The limits of the project are from 4th Street to San Antonio Street	05/2017	08/2017	15	20
San Juan Capistrano	Orange	Capistrano Villas I, II, and III Pavement Rehabilitation	The project involves rehabilitation of approximately 2.2 miles of residential streets, construction of 5 ADA ramps, replacement of 10 speed humps, and construction of a raised channelization island and an additional street light at one major intersection. The rehabilitation will involve completed pavement reconstruction in some areas and pavement overlay in other areas.	The project area is in the northerly portion of the city, on the west side of the I-5 Freeway, and encompasses approximately 80 acres of medium density, low income housing with 799 condominium units. The neighborhood is known as the "Capistrano Villas." The streets in the project are Avenida De La Vista, La Zanja Street, Los Rios Street, Calle Santa Barbara, Calle San Luis, Calle San Antonio and Calle San Diego.	01/2018	06/2018	15	30
San Leandro	Alameda	Adason Drive	Placement of thin overlay of travel land and crack-seal surface. Existing PCI=7. Work anticipated to increase PCI by 30-45 points.	Between Halcyon Drive to Hesperian Blvd. Designated Residential.	03/2018	07/2018	04	05
San Leandro	Alameda	150th Avenue	Remove and replace distressed pavement sections and crack-seal surface. Existing PCI=49. Work anticipated to increase PCI by 25-30 points.	Between Hesperian Blvd. to southern City Limits. Designated Arterial.	04/2018	08/2018	05	06
San Leandro	Alameda	Durant Avenue	Remove and replace distressed pavement sections and crack-seal surface. Existing PCI=23. Work anticipated to increase PCI by 35-40 points.	South side of road (possibly north side if can be coordinate with Oakland - ROW is in two different cities), between E. 14th Street to Bancroft Ave. Designated Collector.	05/2018	09/2018	05	06

San Leandro	Alameda	Lafayette Avenue	Remove and replace distressed pavement and crack-seal surface. Existing PCI=25. Work anticipated to increase PCI by 35-40 points.	Between Lorraine Blvd. and California Ave. Designated Residential	11/2017	12/2017	05	06
San Leandro	Alameda	Miller Street	Remove and replace distressed pavement and crack-seal surface. Existing PCI=45. Work anticipated to increase PCI by 35-40 points.	Between Fairway Dr. and Factor Ave. Designated Local	06/2018	10/2018	05	06
San Leandro	Alameda	Factor Avenue	Remove and replace distressed pavement and crack-seal surface. Existing PCI=68. Work anticipated to increase PCI by 35-40 points.	End to end. Designated Local	06/2018	10/2018	05	06
San Luis Obispo	San Luis Obispo	Safe Routes to School Implementation: Foothill Crossing	This project will construct bicycle and pedestrian improvements as part of a Safe Routes to School Plan for the Pacheco and Bishop Peak Elementary Schools. The project will address roadway crossing needs at Foothill Boulevard as well as surrounding the two schools. This project will complement the Broad Street Bicycle Boulevard and the Ramona Neighborhood Traffic Management Program. The project will construct improvements at the intersection of Foothill/Ferrini that includes additional traffic control, sidewalk, curb & gutter changes, and increased traffic warning devices.	Intersection of Foothill Boulevard and Ferrini Road	10/2017	06/2018	18	20
San Luis Obispo	San Luis Obispo	Broad Street Bicycle Boulevard	Design and construct Phase 1 of the bicycle boulevard on Broad Street from US 101 to Foothill. The project description in currently under study and may include bikeway enhancements along Broad, Chorro and other area streets.	Broad Street, from U.S. Highway 101 to Foothill Boulevard	10/2017	06/2019	18	20
San Marcos	San Diego	Annual Surface Seal	Use of a Pavement Preservation Strategy in the placement of a Surface Seal of Roadways	Mission Road, Twin Oaks Valley Road	02/2018	08/2018	05	08
San Marino	Los Angeles	St Rehab Pgm Cycle 1 Yr 2	Resurface local streets pursuant to 2016 PMP Year 2	30-street segments citywide	03/2018	11/2018	20	20
San Marino	Los Angeles	Del Mar Av Pvmnt Rehab	Resurface major arterial street	Del Mar Av from city limits to Huntington Dr	03/2018	11/2018	20	20
San Marino	Los Angeles	Huntington Dr Pvmnt Rehab	Resurface major arterial street	Huntington Dr WB Virginia Rd to city limits	03/2018	11/2018	20	20
San Mateo	San Mateo	E. Hillsdale Boulevard Rehabilitation	The project will rehabilitate the pavement on E. Hillsdale Boulevard from Saratoga Drive to Norfolk Street (approximately 0.44 miles). The proposed treatment includes milling the existing pavement surface then applying an asphalt concrete overlay. Related work will include the upgrade of curb access ramps to current standards, installation of pavement striping, and other incidental work such as raising of manhole frames and covers and utility box lids.	The project is located on E. Hillsdale Boulevard from Saratoga Drive to Norfolk Street in the City of San Mateo.	02/2018	09/2018	15	15
San Pablo	Contra Costa	Randy Lane Drainage Improvement Project	The Randy Lane Drainage Project (RLN-DRN) consists of resurfacing pavement following the construction of a new storm drain line from Randy Lane to an outfall into San Pablo Creek on Giant Road. Approximately 542 LF of 16- to 24-inch Storm Drain pipeline; three (3) 48-inch diameter Storm Drain Manholes; one (1) Drainage Inlet; creating storm drain discharge through existing concrete canal wall penetration in San Pablo Creek. CEQA has been completed and all permits, including Section 408, have been approved.	Randy Lane and Giant Road (from Randy Lane to San Pablo Creek Bridge on Giant Road), San Pablo, CA	09/2016	03/2018	15	25
San Rafael	Marin	Lincoln Ave Curb Ramps	San Rafael Sanitation District has performed a large sewer replacement on Lincoln Avenue. Once the work underneath the roadway is complete, SRSD will resurface the roadway. In conjunction with the resurfacing work, Public Works will install new ADA compliant curb ramps along Lincoln Avenue where non compliant ramps exist. As is standard practice, all curb ramps are replaced and updated with street resurfacing work is performed.	Lincoln Avenue: Pacheco Avenue to Hammondale Court	03/2018	06/2018	15	20
San Rafael	Marin	Smith Ranch Road Resurfacing	Resurfacing, grind, and overlay of new asphalt on Smith Ranch Road in the area underneath the freeway and short stretch of Smith Ranch Road east and west. While the roadway directly under Highway 101 is Caltrans jurisdiction, per the agreement in place, the City is responsible for the maintenance of Smith Ranch road.	Smith Ranch Road: Underneath Highway 101 and adjacent east-west roadway area	03/2018	06/2018	05	10
San Rafael	Marin	Merrydale Pathway – North Connector (Northgate Promenade)	This project includes the construction of a multi-use path, parking, and other road improvements along one side of the roadway from Las Gallinas Avenue to the Civic Center SMART station.	Las Gallinas Avenue to Civic Center SMART station	05/2018	06/2019	10	15
San Ramon	Contra Costa	Pavement Management 2018 Project	The FY 2017-18 amount listed (\$100,000) is to contract with an outside firm for the preliminary engineering and design of the pathway.	More than 7 miles of street (54 street segments) within the City of San Ramon. SEE DETAILED LIST ON SUPPORT DOCUMENTATION (City Council Staff Report)	03/2018	10/2018	03	25
Sand City	Monterey	Contra Costa Street and Sidewalk Improvement Project	This project provides for street rehabilitation work in accordance with the City Pavement Management Program. Based on a long-range projection, each street is programmed for necessary rehabilitation. Street rehabilitation work will include slurry seal/micro seal, asphalt overlays, street reconstruction, etc.	Contra Costa Street/Sidwalk between Elder Avenue and Shasta Avenue	01/2022	03/2022	20	30
Sanger	Fresno	7th and P Street Frontage Improvements	Curb, gutter, and sidewalk improvements; and adjacent street rehabilitation with new crosswalk. (funds to be banked and combined with other funding sources).	Northeast corner of 7th and P Streets	07/2017	09/2017	50	70
Sanger	Fresno	Sanger Streetlight Improvements Project (Phase V)	Installation of new LED streetlights and associated electrical infrastructure.	In an area bounded by 7th Street, West Avenue, 9th Street and Greenwood Avenue	11/2017	06/2018	30	50
Sanger	Fresno	Church Avenue Overlay - Bethel to Greenwood	Asphalt overlay with curb ramp upgrades and addition of bicycle lanes.	Church Avenue between Bethel and Greenwood Avenues	07/2018	11/2018	15	20
Santa Ana	Orange	Euclid Street Rehabilitation: Hazard Avenue to Westminster Avenue	Preventative street maintenance is one of the planned strategies prolonging the useful life of streets and reducing the costly alternative of reconstructing streets. The proposed improvements include the benefits of improving the texture of the asphalt wearing surface and reducing water infiltration under the pavement to delay the pavement deterioration process. Additionally, this 3700-foot segment of MacArthur Boulevard from Raitt Street to Bristol Street has been identified as high priority in need of preventative maintenance before it deteriorates beyond good condition, which would require a more expensive treatment.	Euclid Street from Hazard Avenue to Westminster Avenue.	08/2018	06/2019	20	20
Santa Ana	Orange	Flower Street Preventative Maintenance: Sunflower Avenue to MacArthur Boulevard	Preventative street maintenance is one of the planned strategies prolonging the useful life of streets and reducing the costly alternative of reconstructing streets. The proposed improvements include the benefits of improving the texture of the asphalt wearing surface and reducing water infiltration under the pavement to delay the pavement deterioration process. Additionally, this 3700-foot segment of MacArthur Boulevard from Raitt Street to Bristol Street has been identified as high priority in need of preventative maintenance before it deteriorates beyond good condition, which would require a more expensive treatment.	Flower Street from Sunflower Avenue to MacArthur Boulevard.	06/2018	12/2018	10	10
Santa Ana	Orange	MacArthur Boulevard Preventative Maintenance: Raitt Street to Bristol Street	Preventative street maintenance is one of the planned strategies prolonging the useful life of streets and reducing the costly alternative of reconstructing streets. The proposed improvements include the benefits of improving the texture of the asphalt wearing surface and reducing water infiltration under the pavement to delay the pavement deterioration process. Additionally, this 2200-foot segment of Flower Street from Sunflower Avenue to MacArthur Boulevard has been identified as high priority in need of preventative maintenance before it deteriorates beyond good condition, which would require a more expensive treatment.	MacArthur Boulevard from Raitt Street to Bristol Street.	06/2018	12/2018	10	10
Santa Ana	Orange	Westminster Avenue Rehabilitation: Harbor Boulevard to Fairview Street	City's Pavement Management System has identified Westminster Avenue from Harbor Boulevard to Fairview Street as a priority for rehabilitation to prevent further deterioration of the pavement section due to weather, age, and heavy usage. This project will rehabilitate 5300 feet of Westminster Avenue; replace damaged curbs, gutters, sidewalks, and driveway approaches; and reconstruct 20 curb ramps to conform to the latest ADA standards. The project will increase the rideability and safety of motorists and pedestrians.	Westminster Avenue from Harbor Boulevard to Fairview Street.	06/2018	12/2018	20	20
Santa Barbara	Santa Barbara	Bath Street Overlay	Grind and overlay five blocks of Bath Street from Carrillo Street to Micheltoarena Street	Bath Street from Carrillo Street to Micheltoarena Street	03/2019	07/2019	15	20
Santa Clara	Santa Clara	Annual Street Maintenance and Rehabilitation Program Project	Resurface 1.2 miles of existing streets with asphalt concrete or slurry seal. Remove and replace failed concrete and asphalt concrete pavement, curbs, gutters, sidewalks, curb ramps and median islands. Replace traffic striping, markings, roadway legends and traffic detection loops.	De La Cruz Blvd (Reed St to Central Exp); Monroe St (Cabrillo Ave to Scott Blvd)	04/2018	12/2018	03	20

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Santa Clarita	Los Angeles	2017-2018 Overlay & Slurry Seal Program	The Annual Overlay & Slurry Seal Program reflects the City's commitment to roadway infrastructure by resurfacing streets in need of attention.	This is a Citywide project. Specific roadway segments typically include arterial and residential streets in the four communities of Santa Clarita: Canyon Country, Newhall, Saugus, and Valencia. Streets identified in the City's Five-Year Pavement Preservation Program will be selected during the design process.	06/2017	06/2018	03	15
Santa Cruz	Santa Cruz	Catch Basin Replacement Program	Upgrade non-standard catch basins with Type B catch basins throughout the city to reduce maintenance requirements and reduce flooding. Priorities based on operational needs.	Citywide	09/2017	12/2017	30	50
Santa Cruz	Santa Cruz	CMP (Corrugated Metal Pipe) Replacement	Replace corroded and collapsed corrugated metal drainage pipe (CMP) at various locations in the city streets storm drain system.	Citywide	09/2017	12/2017	30	50
Santa Cruz	Santa Cruz	Streetlights, 555 Pacific Ave. to Beach St.	Install 7 decorative streetlights to complete this missing segment of street lighting consistent with Pacific Avenue (Downtown) lighting requirements.	South of Laurel Area on Pacific Avenue	03/2018	06/2018	30	50
Santa Cruz	Santa Cruz	Storm Damage	Local match funding for FEMA and OES eligible funded storm damage restoration projects on the city street and multi-use path system	Upper Park Road north of DelaVeaga Rd, West Cliff Drive at San Jose, East Cliff Drive at 3rd Ave, Ocean at Plymouth, Parkway north of Allerton	09/2017	10/2018	30	50
Santa Cruz	Santa Cruz	Arterial and Collector Street Reconstruction	Replace sidewalks and access ramps to meet current standards concurrent with reconstructing Arterial and Collector Streets	Cedar Street from Laurel to Lincoln	09/2017	10/2018	15	20
Santa Fe Springs	Los Angeles	Greenleaf Avenue Street Rehabilitation	Industrial street project will consist of the removal of existing asphalt concrete/macadam pavement surface, reworking the underlying aggregate base and in situ soil material to provide a firm and stable platform for placing new asphalt concrete pavement. The removal and replacement of curb and gutter along with removal of sidewalk and driveways.	Between Telegraph Road & Los Nietos Road	12/2017	01/2018	15	20
Santa Maria	Santa Barbara	North Miller Street and East Alvin Road Rehabilitation	This project will reconstruct two arterial roadways. New structural base and asphalt concrete will be provided on both roadway sections and a 2" asphalt concrete overlay will be placed on areas not reconstructed. The project includes installation of new striping and pavement markings. One hundred eighty-one thousand (181,000) square feet of roadway, equivalent to 2.9 lane miles, will be completely renewed.	North Miller Street from Eat Chapel Street to Alvin Avenue; East Alvin Avenue from College Drive to the Hwy 101 Bridge.	11/2017	03/2018	15	25
Santa Maria	Santa Barbara	Thin Maintenance Overlay	This project will place a rubberized asphalt overlay approximately 1.25" thick over three (3) existing roadways. The work involves grinding down the edges of the roadways to allow for an even transition from the overlaid roadway and the roadway edge. Once the overlay is complete, the roadway striping will be replaced. This project will resurface three (3) severely distressed roadways accounting for 150,000 square feet or the equivalent of 2.4 lane miles.	East Cypress Street from South Suey Road to South Palisade Drive; North Palisades Drive from East Alvin Avenue to North Valerie Street; North Valerie Street from East Alvin Avenue to East Main Street	11/2017	05/2018	07	15
Santa Monica	Los Angeles	Citywide Annual Paving Project	Improvements made through the Annual Paving and Sidewalk Repair Project to maintain the City's streets	Citywide	04/2018	04/2019	07	25
Santa Paula	Ventura	Harvard Boulevard Improvements Project- Peck Road to Elizabeth Court	The project consists of 1.2-miles pavement resurfacing; 14-each curb ramp upgrades; traffic signal modifications; and 60-linear feet curb and gutter repairs. As a part of the street improvements, this project also consists of concurrently upgrading wastewater (sewer) and potable water pipes in conformance with the Wastewater System Master Plan and Potable Water System Master Plan, respectively, in order to defer future construction impacts onto the neighborhood. Estimated transportation improvements (pavement, curb ramps, curbs, gutters, and traffic signals) construction cost \$2,775,000.	Harvard Blvd. from Peck Rd to 250 feet west of Elizabeth Ct. and adjoining streets [Acacia Rd. (300 to 400 Blocks) from Santa Cruz St. to Harvard Blvd; Dartmouth Rd. (300 Block) from Santa Cruz St. to Harvard Blvd; Lucada St. (300 Block) from Santa Cruz St. to Harvard Blvd.; Laurie Ln. (300 Block) from Santa Cruz St. to Harvard Blvd.; and Santa Cruz St. (500 to 700 Blocks) from Dartmouth Rd. to Princeton St.]	12/2017	03/2019	15	25
Santa Paula	Ventura	Foothill/Hardison/Cameron Storm Drain Project	The project consists of installing a storm water quality treatment control BMP infiltration basin with 0.25-mile sediment capture chambers incorporating infiltration wells. Estimated construction cost \$334,650.	Foothill Rd. from Ridge Crest Dr. to Stecker Dr.	11/2017	12/2018	10	20
Santa Paula	Ventura	Citywide Crosswalk Safety Improvement Project	The project consists of removing 8-each existing in-road warning lights at crosswalks due to obsolete part materials and replacing with Rectangular Rapid Flash Beacon (RRFB) for enhanced pedestrian safety. Curb ramp upgrades are proposed adjacent to all RRFB locations. Estimated construction cost \$381,157.	Existing in-road warning lights crosswalks: Cameron St. and Main St., Harvard Blvd. and Fifth St., Lucada St. and Main St., Main St. and Dean Dr., Main St. and Fourth St., Palm Ave. and Ventura St., Santa Paula St. and Fifth St., and Ventura St. and Oak St.	12/2018	12/2019	15	25
Santa Paula	Ventura	Citywide Sidewalk Repair Project	The project consists of repairing 54,563-square feet sidewalk trip hazards. Estimated construction cost \$398,000.	Ventura St. (Seventh St. to Harvard Blvd.), High St. (Ojai Rd. to Guilberson St.), Orchard St. (Ojai Rd. to end), Virginia Terr. (Sixth St. to Ojai Rd.), Santa Barbara St. (Palm Ave. to Sixth St.), Peck Rd. (Harvard Blvd. to Santa Paula St.), Monte Vista Dr. (Sixth St. to Tenth St.), Oak St. (Ventura St. to Santa Barbara St.), Santa Paula St. (Palm Ave. to Sixth St.), Eleventh St. (Santa Paula St. to Saticoy St.), Twelfth St. (Saticoy St. to Santa Paula St.), Saticoy St. (Eleventh St. to Twelfth St.), Sixth St. (Santa Paula St. to Virginia Terr.), Santa Paula St. (Twelfth St. to Eleventh St.), Peralta Dr. (Santa Cruz St. to Santa Ana St.)	06/2017	12/2018	20	30
Santa Paula	Ventura	Citywide Street Improvements Project-Fiscal Year 2018/2019	The project consists of 1.7-miles pavement resurfacing; curb ramp upgrades; and curb and gutter repairs. As a part of the street improvements, this project also consists of concurrently upgrading wastewater (sewer) and potable water pipes in conformance with the Wastewater System Master Plan and Potable Water System Master Plan, respectively, in order to defer future construction impacts onto the neighborhood. Estimated transportation improvements (pavement, curb ramps, curbs, and gutters) construction cost \$81,000.	Virginia Terr. (Tenth St. to Park St.), Virginia Terr. (Park St. to Ojai Rd.), Orchard St. (Ojai Rd. to Park St.), Park St. (Ojai Rd. to Orchard St.), Ojai St. (Main St. to Santa Barbara St.), Eleventh St. (Main St. to Santa Barbara St.), Weston Ct. (Santa Paula St. to End), Brett Way (Harvard Blvd. to End), Sycamore St. (Santa Paula St. to Richmond Rd.), Saticoy (Sycamore St. to Thirteenth St.), Saticoy St. (Fourteenth St. to Guilberson St.), Forest Dr. (Mariposa Dr. to Cliff Dr.), Glen Way (Ninth St. to Mill St.), and Princeton (Casabella Ct. to Santa Ana St.)	12/2018	03/2020	15	25
Santa Rosa	Sonoma	Fulton Road Reconstruction - Occidental Road to W 3rd Street	ADD QUANTIFIABLE MEASUREMENT This project will reconstruct Fulton Road between Occidental Road and W. 3rd Street using roller compacted concrete technology, updating pedestrian ramps to current ADA standards and maintaining existing Class II bicycle lanes.	Fulton Road between Occidental Road and W. 3rd Street	04/2018	04/2019	20	20
Santee	San Diego	Illuminated Street Signs Lighting Replacement	To replace burnt out and/or obsolete bulbs for the internally illuminated street name signs by energy efficient LED bulbs which provides much longer service life with energy savings.	all signalized intersections in the city (60)	02/2018	08/2018	15	20
Santee	San Diego	Pavement Repair and Rehabilitation Citywide	Repair and rehabilitate streets as recommended by the City's Pavement Management Analysis Report. The project will focus on overlays and full reconstruction.	Includes streets identified in the City's Pavement Management Analysis Report within Zones BF, BB, BF, AA, CG, EE, BD, EB, CB, CD, FC, CI, CE, ED, AND EF.	04/2018	06/2018	20	25
Santee	San Diego	Pavement Roadway Maintenance Citywide	Conduct pavement maintenance on streets as recommended by the City's Pavement Management Analysis Report. The project will focus on crackfilling and slurry sealing.	Includes streets identified in the City's Pavement Management Analysis Report within Zones BF, BB, BF, AA, CG, EE, BD, EB, CB, CD, FC, CI, CE, ED, AND EF.	04/2018	06/2018	10	15
Santee	San Diego	Bridge Restorations Citywide	Provide maintenance and repairs to City owned bridges. Solana Beach	San Diego	Annual Pavement Management Program (2018)	As a small city, the first year of the city's RMRA funding is less than \$80,000. Due to the small amount, these funds will be added to the annual pavement repair project so more streets could be repaired. In a typical year, the city's pavement repair project places a 2 inch overlay on 250,000 square feet of roadway or places a slurry seal on xx sy of roadway.	The city's annual pavement management program typically occurs in all four quadrants of the city. Since Solana Beach is only four square miles in size, each year, work would cover all quadrants and in most neighborhoods. Actual street segments to be repaired have not been identified at this time.	09/2018	01/2019	15	25
Soledad	Monterey	2017 Street Maintenance Project	Crack Sealant and Repair of Failed Road Section (Digout and Replacement of Asphalt Concrete)	Front Street between San Vicente and Dixie, West St Between Gabilan and Front Street, Metz Rd Between Third and East St.	10/2017	12/2017	10	20

Tracy	San Joaquin	Street Patch & Overlay Program FY 17-18	Due to minor damage to the existing pavement, an area of 46,080 square feet of micro-surfacing will be applied.	Whittier Ave From Holly Dr to East St.	11/2017	01/2019	07	12
Trinidad	Humboldt	Edwards Street Pavement Rehabilitation	Resurface and restripe approximately 0.35 miles of roadway.	From Trinity Street to the pier parking lot.	01/2018	07/2018	05	10
Trinidad	Humboldt	Westhaven Drive Pavement Rehabilitation	Resurface and restripe approximately 0.25 miles of roadway.	From Main Street to City Limits	01/2018	07/2018	05	10
Trinidad	Humboldt	Town Hall Pedestrian and Accessible Parking Improvements	Construct curb ramp, accessible driveway and accessible on-street parking stall, including striping and signage.	Trinity Street in front of Town Hall	01/2018	07/2018	20	40
Truckee	Nevada	2018 Slurry Seal Project	The 2018 Slurry Seal Project would apply slurry seal to approximately 33 miles of local road, representing 78 roadway segments, consistent with the Town's Pavement Maintenance Program. A slurry seal is a cold-mix combination of asphalt emulsion, fine well-graded aggregate, and water. This is a versatile treatment which results in a smooth surface with adequate friction with moderate costs. Slurry seals have been used by the Town for several years and have proven to be a cost-effective preventive treatment that is well accepted by the community.	Roads anticipated to be slurry sealed include portions of the Tahoe Donner and Glenshire Subdivisions, as well as the Prosser Lakeview Estates neighborhood. A map and list of roadways is provided in the attached project description.	05/2018	10/2018	05	15
Tulare	Tulare	"E" Street Bardsley-Pleasant	Pavement Management System Project that includes ADA concrete work; and water, sewer, and surface water facilities.	On "E" St. between Bardsley and Pleasant Avenues.	12/2017	10/2018	20	30
Tulare	Tulare	"I" Street-Owens Improvements	Pavement Management System/Utility project that includes ADA concrete work, water, sewer, and surface water facilities.	On "I" St. between San Joaquin & Pleasant Aves; on Owens Ave. between "E" & "I" Sts.	11/2017	07/2018	20	30
Tulare	Tulare	Prosperity Avenue-Blackstone Improvements	Pavement Management System/Traffic Safety project that includes ADA concrete work, signal upgrades, median improvements to expand the queuing area for westbound Prosperity Ave. left turn lane to southbound Blackstone St., resurfacing/overlay of Prosperity Ave. bridge deck, and enhanced traffic safety.	On Prosperity Ave. @ Blackstone St. to approx. 395' east of the intersection.	12/2017	06/2018	20	30
Tulare	Tulare	Cross Avenue Improvements	Pavement Management System project that includes ADA concrete work.	On Cross Avenue @ West St. to approx. 1,000' west of the intersection.	01/2018	06/2018	20	30

Woodlake	Tulare	South Valencia Blvd Improvements Project	Construct about 3,300 linear feet of curb, gutter, and 6 foot wide sidewalk on both sides of S. Valencia Blvd (SR 245). The improvements also include the installation of ADA ramps, drive approaches, storm drainage, paving, and landscape repair	The project is located in Woodlake, CA along its main road S. Valencia Blvd (SR 245). The cross street boundaries that are containing the project site are Bravo Ave which is the northern cross street and Wutchumma ditch with is at the southern end on the project site. Within the project site you will also find the cross street Deltha Ave, Laguna Ave, and Ropes Ave going from south to north. The project is located in a high residential area and is towards the most southern part of town. The city yard is on the south of this project and just to the east is Bravo Lake.	03/2018	12/2018	15	20
Woodlake	Tulare	Magnolia St Improvements Project	Construct about 550 linear feet of curb, gutter, and decorative sidewalk along the east side of Magnolia St between Antelope Ave and Lakeside Ave. The sidewalk will be 10 feet wide and includes brick tree wells, two drive approaches, ADA ramps, decorative street lights, storm drainage, paveout, and striping.	The project is located in Woodlake, CA in a commercial zone of the city. The location is Magnolia St between Antelope Ave and Lakeview Ave. The project is on the east side of Magnolia St in front of a commercial center. To the north of the project location across Lakeview Ave is residential area. To the west of the project is a transit center along with a commercial zone and the City's main road, N. Valencia Blvd (SR 245). To the south of the project, just past Antelope Ave, is a City park.	06/2018	12/2018	10	15

Agency Name	County	Project Title	Project Description	Project Location	Pre-Construction	Construction	Useful Life Minimum	Useful Life Maximum
Woodlake	Tulare	North Valencia Blvd Extension Improvement Project	Construct about 620 linear feet of curb, gutter, and 6 foot wide sidewalk along N. Valencia Blvd (SR 245). The improvements also include drive approaches, 5 foot wide bike lanes, 30 foot radius curb return with ADA ramps, street lights, pavement, and striping. The project will also construct about 150 feet of 4 foot wide sidewalk along W Sequoia Ave to connect to existing sidewalk.	The project is located in Woodlake, CA in a high residential area along N Valencia Blvd (SR 245) towards the northern part of town. The cross streets are Sequoia Ave which is the northern cross street and Sierra Ave which is the southern cross street. One block to the west along Palm St is Woodlake Valley Middle School and all around the project site is residential. To the east is a proposed development site for more residential homes.	03/2019	12/2019	15	20
