CALIFORNIA TRANSPORTATION COMMISSION

Adoption of the 2018 Local Partnership Competitive Program

Resolution LPP-P-1718-01

1.1 WHEREAS, on April 28, 2017, the Governor signed Senate Bill (SB) 1 (Beall, Chapter 5, Statutes of 2017), enacted as the Road Repair and Accountability Act of 2017, creating the Local Partnership Program to provide funding to jurisdictions that have sought and received voter approved taxes and enacted fees for road maintenance and rehabilitation and other transportation improvement projects; and

1.2 WHEREAS, June 27, 2017, the Governor signed Assembly Bill (AB) 115 (Ting, Chapter 20, Statutes of 2017) which clarified language in SB 1 regarding local and regional transportation agency eligibility and expanded the types of projects eligible for program funding; and

1.3 WHEREAS, SB 1 provides $100 million annually for the Local Partnership Competitive Program; and

1.4 WHEREAS, the Commission adopted the 2018 Local Partnership Program Guidelines on October 18, 2017; and

1.5 WHEREAS, the Commission adopted the SB 1 Accountability and Transparency Guidelines on March 21, 2018; and

1.6 WHEREAS, the staff recommendations conform to the program guidelines and other requirements of statute for the Local Partnership Program; and

1.7 WHEREAS, Commission Staff prepared initial program recommendations that included $308.8 million for 27 projects valued at more than $1.74 billion; and

1.8 WHEREAS, the Commission staff recommendations for the 2018 Local Partnership Competitive Program were published and made available to the Commission, the California Department of Transportation (Department), regional transportation agencies, and county transportation commissions on April 25, 2018; and

1.9 WHEREAS, the Commission considered the staff recommendations and public testimony at its May 16-17, 2018 meeting.

2.1 NOW THEREFORE BE IT RESOLVED, that the Commission hereby adopts the 2018 Local Partnership Competitive Program, as reflected in the attached staff recommendations; and

2.2 BE IT FURTHER RESOLVED, that the project amounts approved for funding shall be considered as a “not to exceed amount” and that any increases in cost estimates beyond the
levels reflected in the adopted program are the responsibility of the appropriate agency; and

2.3 **BE IT FURTHER RESOLVED**, that a project included in the adopted 2018 Local Partnership Competitive Program must be in compliance with the Local Partnership Program Guidelines and the SB 1 Accountability and Transparency Guidelines; and

2.3 **BE IT FURTHER RESOLVED**, that a project included in the adopted 2018 Local Partnership Competitive Program with a total project cost of $25 million or greater, or a total programmed amount of $10 million or greater, must enter into a Baseline Agreement to be approved by the Commission within four months of project adoption. The Commission may delete a project for which no Baseline Agreement is executed; and

2.4 **BE IT FURTHER RESOLVED**, that the Commission staff, in consultation with the Department and project sponsors, is authorized to make minor technical changes as needed to the 2018 Local Partnership Competitive Program in order to reflect the most current information, or to clarify the Commission’s programming commitments, with report of any substantive changes back to the Commission for approval; and

2.5 **BE IT FURTHER RESOLVED**, that the Commission directs staff to post the 2018 Local Partnership Competitive Program of projects on the Commission’s website.

Subject: ADOPTION OF THE 2018 LOCAL PARTNERSHIP COMPETITIVE PROGRAM RESOLUTION LPP-P-1718-01

ISSUE:
Should the California Transportation Commission (Commission) adopt the 2018 Local Partnership Competitive Program?

RECOMMENDATION:
Staff recommends the Commission adopt the 2018 Local Partnership Competitive Program in accordance with staff recommendations, consistent with the attached resolution.

BACKGROUND:
On April 28, 2017, the Governor signed Senate Bill (SB) 1 (Beall, Chapter 5, Statutes of 2017), which established the Local Partnership Program to provide funding to jurisdictions that have sought and received voter approved taxes and enacted fees for road maintenance and rehabilitation and other transportation improvement projects. On June 27, 2017, the Governor signed Assembly Bill (AB) 115 (Ting, Chapter 20, Statutes of 2017) which clarified language in SB 1 regarding local and regional transportation agency eligibility and expanded the types of projects eligible for program funding.

In June 2017, the Commission initiated the process to implement the Local Partnership Program by developing the Local Partnership Program Guidelines. The Commission held multiple workshops between June 2017 and October 2017 to solicit input on the development of the Local Partnership Program Guidelines. These workshops included consultation with stakeholders representing regional agencies, local governments, private industry, and other advocates. The Commission’s guidelines, adopted at its October 18, 2017 meeting, describe the policy, standards, criteria and procedures for the development and management of the 2018 Local Partnership Competitive Program.

The Commission established the 2018 Local Partnership Competitive Program as a three year, $300 million (fiscal years 2017-18 through 2019-20) program. Project nominations were due to the Commission on, or postmarked by, January 30, 2018.
Development of Staff Recommendations

The Commission received 90 project nominations seeking over $900 million. Since SB 1 provides an on-going funding source for the Local Partnership Program, agencies with projects not recommended for funding in this cycle will have the opportunity to apply for funding in subsequent cycles.

An evaluation team, consisting of Commission and Caltrans staff, reviewed all 90 project nominations based on the screening and evaluation criteria set forth in the Commission’s adopted guidelines, found in Attachment C. Each project evaluation resulted in a consensus rating for that project. Due to the competitive nature of this program, staff evaluations were limited to the documentation submitted in the application package. All projects nominated for funding provided significant value to their respective sponsors, and the amount of funding requested clearly reflects the significant need to address transportation improvements across all localities in the state.

Recommendations for funding are set forth on the attached list of projects in Attachment B. The recommended projects were determined to be the projects that best address the criteria as outlined in the guidelines, and were those that received the highest consensus ratings among the evaluation team. Staff recommends Local Partnership Competitive funds totaling $308.8 million for 27 projects valued at more than $1.7 billion. The proposed program of projects includes over-programming by approximately $8.8 million to include all eligible projects that had a consensus rating of medium-high or greater. The recommendation includes a variety of projects that provide multimodal transportation improvements in localities across the state. Collectively, the projects recommended will construct new transit stations, tracks for passenger rail, high occupancy vehicle and express lanes, active transportation improvements, traffic light synchronization, bus purchases, and local road improvements and rehabilitation.

The projects proposed for funding meet the following requirements: applicant agencies possess an eligible tax or fee within their jurisdiction that solely dedicates revenue to transportation, programming is for construction in an eligible fiscal year, each project has a construction funding plan, and there is a commitment by the applicant(s) to fund cost increases. All applications were organized into eligibility types and population categories pursuant to the guidelines, and the recommended list of projects resembles a similar proportion of these types/categories when compared to all projects submitted.

Projects not recommended for funding were considered less competitive based on the following reasons: construction to commence later in the funding cycle; less committed funds per program dollar leveraged; less benefit demonstrated when compared to cost, and minimal quantifiable air quality improvements demonstrated. Lastly, some projects were deemed ineligible based on a lack of information provided in the application. The projects not recommended for funding are, by and large, worthy projects though not as competitive for this first program cycle.

Some of the recommended projects are as follows:

**Metro Orange Line Bus Rapid Transit Improvements** in Los Angeles County. The project will provide Bus Rapid Transit improvements along the Metro Orange Line route between North Hollywood Station and Chatsworth Station. Additionally, the project will construct one aerial grade-separated structure over five intersections, construction of four-quadrant gating systems at 34 intersections along a 17-mile segment, as well elevating an existing bike path.
The Marina - Salinas Multimodal Corridor: Imjin Parkway Project in Monterey County. The project will widen Imjin Parkway from two to four lanes between Reservation Road and Imjin Road. Additionally, the project will construct a corridor roundabout and provide transit improvements.

The West Main Street Bicycle/Pedestrian Mobility and Safety Project in Yolo County. The project will construct new bicycle lanes, and provide sidewalk improvements, transit access improvements, and pavement rehabilitation.

The Route 680/4 Interchange, Phase 3 Project in Contra Costa County. The project will construct 9.8 miles of both mixed flow lanes and HOV/HOT lanes. Additionally, the project will widen the median of Route 4, construct outside widening along Route 4 in both directions, retrofit bridges to meet seismic standards, replace Grayson Creek Bridge, and raise the profile of Route 4.

The Route 15 Railroad Canyon Road Interchange Project in Riverside County. The project will widen Railroad Canyon Road to eight lanes, reconstruct northbound diamond ramps to Railroad Canyon Road, and widen Railroad Canyon Road southbound entrance ramp to three lanes. Additionally, the project will construct an acceleration lane and reconstruct Railroad Canyon Road southbound exit ramp to two lanes.

The Western Placerville Interchanges Phase 2 Project in El Dorado County. The project will upgrade the interchange at Ray Lawyer Drive and Route 50, construct an eastbound Route 50 off-ramp, construct a park and ride lot, and provide improvements to Forni Road and Ray Lawyer Drive.

The Purchase Hybrid Buses Project in Alameda and Contra Costa Counties. The project will purchase 59 new 40-foot hybrid diesel-electric buses to replace existing diesel buses.

Foothill Blvd Master Plan Green Streets Improvements in Los Angeles County. The project will provide street improvement to a 2.5-mile, four-lane divided corridor along Foothill Boulevard. These improvements will include closing a 2,300 foot sidewalk gap, installing 2.35 miles of Class II bicycle lanes and 1.5 miles of cycle track, adding curb extensions, improvements to lighting and signage, and bus stop improvements.

Baseline Agreement Requirements

Some projects included in the 2018 Local Partnership Competitive Program must enter into a baseline agreement per the requirements in the Commission’s adopted SB 1 Accountability and Transparency Guidelines. Baseline agreements apply to projects with a total project cost of $25 million or greater, or a total programmed amount of $10 million or greater, adopted in the 2018 Local Partnership Competitive Program and subsequent program amendments and adoptions. The development of baseline agreements for the applicable projects will be initiated upon adoption of the program. The baseline agreement will set forth the scope, expected benefits, delivery schedule, project cost, and funding plan as described in the project applications. For projects needing a baseline agreement, the project application and the executed baseline agreement will serve as the basis by which accountability will be measured and reported on. For projects not needing a baseline agreement, the project application will serve as the basis by which accountability will be measured and reported on.

- Attachment B: 2018 Local Partnership Competitive Program Staff Recommendations
- Attachment C: Program Objective and Evaluation Criteria
- Attachment D: Letters
Local Partnership Program - Project Evaluation Criteria

The following evaluation criteria, per the Local Partnership Program Guidelines adopted on October 16, 2017, formed the basis for the 2018 Local Partnership Competitive Program staff recommendations.

Program Objective (per LPP Guidelines, Section 2)

The objective of the Local Partnership Program is to reward counties, cities, districts, and regional transportation agencies in which voters have approved fees or taxes solely dedicated to transportation improvements or that have enacted fees solely dedicated to transportation [based on Government Code Section 8879.66(b)(1)]. Consistent with the intent behind SB 1, the Commission intends this program to balance the need to direct increased revenue to the state’s highest transportation needs while fairly distributing the economic impact of increased funding [SB 1 section 1(l)].

Project Rating Process (per LPP Guidelines, Section 15)

Consistent with Commission guidelines, the Commission staff compared projects based on the population of jurisdiction(s) across which the tax or fee is applied. In most cases, this was the county or city. For voter-approved tolls, the population was the sum of the population of the jurisdictions that voted on the toll. The following population categories were used:
- Category I: $\geq 1,500,000$
- Category II: 700,000 to 1,499,999
- Category III: 300,000 to 699,999
- Category IV: 100,000 to 299,999
- Category V: <100,000

To maximize the effectiveness of program funds, the minimum request for Competitive Grant Program funds that were considered is indicated below based on the aforementioned population totals:
- Category I (population $\geq 1,500,000$): $\$5,000,000$
- Category II (population 700,000 to 1,499,999): $\$3,000,000$
- Category III (population 300,000 to 699,999): $\$2,000,000$
- Category IV (population 100,000 to 299,999): $\$1,000,000$
- Category V (population <100,000): No minimum requirement.

An agency applying for multiple competitive grants was required by the Commission’s program guidelines to prioritize its applications. The Commission staff evaluated all projects.

Competitive Program Evaluation Criteria (per LPP Guidelines, Section 16)

The Commission staff gave higher priority to the following:
- Projects that are more cost-effective.
- Projects that can commence construction or implementation earlier.
- Projects that leverage more committed funds per program dollar.
- Projects that can demonstrate quantifiable air quality improvements, including a significant reduction in vehicle-miles traveled.
- Projects that can demonstrate regional and community project support.
- Within a Metropolitan Planning Organization, projects that further the implementation of the sustainable communities strategy.

Attachment C
