

Memorandum

TAB 66

To: CHAIR AND COMMISSIONERS
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: June 29-30, 2016

Reference No.: 2.1a.(2a) – **REPLACEMENT ITEM**
Action Item

From: NORMA ORTEGA
Chief Financial Officer

Prepared by: Bruce De Terra, Chief
Division of
Transportation Programming

Subject: **SHOPP AMENDMENT 16H-002**

RECOMMENDATION:

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) approve the requested State Highway Operation and Protection Program (SHOPP) Amendment 16H-002; in accordance with Senate Bill 486 which requires the Commission to approve any changes or new projects amended into the SHOPP.

ISSUE:

Since the May 2016 report to the Commission, the Department recommends 12 new capital projects to be amended into the 2016 SHOPP, as summarized in Attachment 1. The amendments noted below would be funded from the Major Damage Restoration, Safety Improvement, Roadside Preservation and 2016 SHOPP programming capacity.

2016 SHOPP Summary of New Projects by Category	No.	FY 2016/17 (\$1,000)	FY 2017/18 (\$1,000)	FY 2018/19 (\$1,000)	FY 2019/20 (\$1,000)
Major Damage Restoration	3		\$1,210		\$17,312
Collision Reduction	9		\$3,741	\$3,471	\$34,373
Total Amendments	12		\$4,951	\$3,471	\$51,685

The Department also recommends that the capital projects, as summarized in Attachment 2 will be amended into the 2016 SHOPP.

BACKGROUND:

In each even numbered year, the Department prepares a four-year SHOPP which defines major capital improvements necessary to preserve and protect the State Highway System. Periodically, the Department amends the SHOPP to address newly identified needs prior to the next programming cycle. Between programming cycles, the Department updates scope, schedule and cost to effectively deliver projects.

Resolution G-00-13, established in June 2000, provides the Department with means to develop SHOPP projects which require periods longer than the four-year SHOPP cycle. The Commission authorized the Department to program projects for development only when appropriate. Long Lead projects must identify challenges that require additional time beyond the typical four years to complete.

Senate Bill 486, approved by Governor September 30, 2014, requires Commission approval of projects amended into the SHOPP.

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
01	Del Norte	101	36.1	Near Crescent City from 0.2 mile north of the Smith River Overflow Bridge. Replace bridge. (G13 Contingency Project)	43640	0100V	0100000193	201.110	2016/17 2018/19	1,500 3,900	50,448 0	PA&ED	7,000	7,000
												PS&E	3,700	3,700
												RW	520	650
												Const	8,400	0
Comments: Completion of environmental studies and consultations with resource and regulatory agencies will take longer than previously anticipated due to the complexities in staging and constructing the new bridge in this sensitive environmental setting in both a coastal zone and over a classified wild and scenic river. Regulatory agencies are asking unexpected questions that require additional efforts to resolve. These items were previously identified in the project risk management plan, but now result in a delay to the project. Right of Way capital and support increases are due to permitting requirements and additional land acquisition for mitigation of wetlands impacts. This will be made a contingency project. These changes add \$2,530,000 to the cost of the project and remove \$58,848,000 due to contingency conversion, resulting in a net reduction of \$56,318,000 to the cost of the program.														
01	Humboldt	36	36.1/40.5	In and near Dinsmore, on Route 36 (Forest Highway 4). Roadway improvements.	43730	2272	0112000180	201.310	2016/17	1,020 2,550	6,090	PA&ED	200	200
												PS&E	30	60
												RW	600	1,400
												Const	40	52
Comments: Increases to support are due to unanticipated increased land surveys, Right of Way capital, Right of Way support, and environmental mitigation staff work to complete the project and coordinate with the Federal Lands partnership to construct the project. Right of Way capital increases are caused by increased utility relocations. These changes add \$2,372,000 to the cost of the project. Project EA 01-43730 and EA 01-0E930 will be combined for construction under EA 01-4373U.														
01	Humboldt	36	36.6/39.9	Near Dinsmore, from west of Burr Valley Road to west of Buck Mountain Road. Widen to make lane and shoulder widths standard, realign curves, and improve roadway cross-slope.	0E930	2409	0115000047	201.010	2016/17	231	7,441	PA&ED	90	90
												PS&E	75	75
												RW	150	660
												Const	40	40
Comments: Right of Way support cost has increased due to unplanned additional survey work to monument the new state right of way and to record maps in accordance with State law. Previously this work was assumed to be addressed by Federal Lands participation on project. This change in responsibility adds \$510,000 to the cost of the project. Project EA 01-43730 and EA 01-0E930 will be combined for construction under EA 01-4373U.														
01	Lake	29	R41.4	Near Lakeport, at Lakeport Overcrossing. Upgrade pedestrian facilities.	0B690	3097	0112000184	201.378	2016/17	7	478 645	PA&ED	206	160
												PS&E	228	350
												RW	63	16
												Const	265	265
Comments: Increase to Construction capital due to the addition of a light pole to improve pedestrian accessibility and the refinement of earthwork quantities after final survey data became available. Support increases are due to labor cost adjustments. Also, there is a decrease in Right of Way support that has occurred because the project was determined to not require property acquisitions. These changes add \$196,000 to the cost of the project.														
01	Mendocino	4	75.7/76.2	Near Westport, from 0.5 to 1.0 mile north of Blue-Slide Gulch Bridge. Reconstruct roadway.	0B480	4548	0114000034	201.134	2017/18	767	14,706	PA&ED	923	
												PS&E	1,319	
												RW	69	
												Const	1,620	
Comments: Delete project. This project was to permanently restore roadway storm damage from a 2011 landslide. Initial project scope was to move the roadway away from ocean and to construct a deep underdrain. It has now been determined this scope of work is not feasible. The Department is working with the Federal Highway Administration (FHWA) to scope this work with more recent area storm damage and is currently reviewing the site. This change removes the \$19,404,000 total cost of the project.														
02	Lassen	36	22.4/R29.4	In and near Susanville, from east of Eagle Lake Road to Route 395. Rehabilitate pavement.	4F990	3529	0213000057	201.121	2016/17	165	9,000 10,700	PA&ED	450	450
												PS&E	550	1,430
												RW	190	840
												Const	750	1,205
Comments: Project is on Main Street in historic downtown and is required to upgrade adjacent pedestrian ADA facilities. Some existing ramps were assumed to be ADA compliant, but are not. Complications upgrading ADA ramps and impacts to historic buildings has increased the design effort. In working with local city staff, Complete Streets has been implemented to evaluate solutions for pedestrian and bicycle movement. These issues have increased the support cost for design, as well as Construction capital. Right of Way support and capital cost have increased for expanded construction easements and encroachment permits and for utility work. There is an additional increase for Construction capital cost escalation. These changes add \$3,685,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
02	Plumas	89	29.5/30.5	Near Canyon Dam, at Lake Almanor Spillway. Replace bridge.	0E180	3349	0200000022	201.113	2016/17	60 465	9,000 9,810	PA&ED	1,100	1,100
												PS&E	1,300	2,155
												RW	300	70
												Const	1,600	2,400
Comments: In January 2016, the Project team learned that federal regulations require approvals from the Federal Energy Regulatory Commission (FERC) and the State Division of Safety of Dams (DSOD). As such, FERC and DSOD coordination and approval increases design support and Right of Way capital. Construction support increases are due to reduced construction window and accelerated schedule required by FERC. Construction capital increase will pay for dam owner's construction monitoring. In addition, a longer traffic detour is necessary at greater cost, detour onto a county road requires project compensation for traffic impacts. In addition, the increase in Construction capital is due to revise the barrier rail and bridge foundation designs. These changes add \$2,640,000 to the cost of the project.														
02	Shasta	44	R4.6/R6.4	Near Palo Cedro, from Clough Creek Bridge to 0.6 mile west of Deschutes Road Overcrossing. Traffic operational improvements. (G13-Contingency Project)	36841	3595	0215000066	201.310	2016/17	500	0 3,550	PA&ED	200	200
												PS&E	1,200	1,500
												RW	500	210
												Const	0	2,000
Comments: Change G13 Contingency project to a fully funded project. Increase to design support is due to design modifications that shortened the bridge and relocated an off-ramp. Right of Way support is decreased because the land acquisition is reduced. This change adds \$10,000 to the cost of the project.														
02	Shasta	151	5.5/R5.8	In Shasta Lake City, from west of Coram Underpass to Locust Avenue. Upgrade curbs, sidewalks and crosswalks.	4F790	3524	0213000033	201.378	2017/18	347 146	1,683	PA&ED	205	205
												PS&E	295	505
												RW	250	522
												Const	250	517
Comments: Support increases are due to unanticipated design complexity of sidewalks and ramps and for local agency coordination. Coordination effort included local desire for sidewalk design to allow future City lighting. Right of Way support increase is due to added utility relocation coordination. Construction support increase is due to reevaluation of scope considering the added complexity to oversight ADA projects and the necessary coordination of all project experts to ensure strict ADA standards. Right of Way capital decreased after survey and design refinements determined fewer parcels needed. These changes add \$578,000 to the cost of the project.														
02	Siskiyou	5	2.7/R11.4	In and near Dunsmuir, from Sacramento River Bridge to 0.6 mile south of North Mount Shasta Underpass. Rehabilitate roadway.	4G550	3560	0214000036	201.122	2016/17	464	53,600	PA&ED	4,590	850
												PS&E	4,300	5,300
												RW	270	270
												Const	4,870	7,610
Comments: A decrease in PA&ED support as a result of project efficiencies offsets an increase to the design and construction support efforts. Development of complicated staging plans to minimize impacts to local traffic and the adjacent California Highway Patrol truck enforcement facility has increased the design support cost. Construction support increase is due to reevaluation of project working days that have increased by the addition of a third construction season. These changes are a net zero cost for the project.														
02	Siskiyou	89	20.9/21.2	Near McCloud, at Mud Creek Bridge No. 02-0046. Replace bridge.	4F550	3519	0213000005	201.110	2017/18	81	2,600 3,700	PA&ED	550	550
												PS&E	540	860
												RW	150	150
												Const	630	1,200
Comments: Hydraulic studies revealed a need to raise the bridge to increase the flow that can pass under it. This results in lengthening the roadway work and a greater Construction capital cost. Furthermore, geotechnical studies resulted in a revised foundation design at a greater cost. PS&E support cost has increased due the additional design effort caused by these changes. Construction support cost has increased due to the changes and the additional need for environmental mitigation and monitoring during construction. These changes add \$2,020,000 to the cost of the project.														
02	Siskiyou	96	23.2/56.0	In and near Happy Camp, from west of Swillup Creek Bridge to 3.6 miles east of Thompson Creek Bridge. Drainage system restoration.	4C150	3314	0213000132	201.151	2017/18	200	1,608 1,250	PA&ED	500	500
												PS&E	532	600
												RW	92	92
												Const	469	700
Comments: A refined design scope resulted in reduced Construction capital. The number of locations were able to be increased. However, PS&E support costs increased due to the additional locations, and a reevaluation of Construction support has led to an increase. These changes result in a net reduction of \$59,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
02	Siskiyou	263	57.1	Near Yreka, at Klamath River Bridge No. 02-0015. Replace bridge.	2E480	3424	0200000586	201.110	2017/18	330 440	8,500 15,300	PA&ED	1,800	2,700
												PS&E	1,600	1,600
												RW	180	280
												Const	1,900	2,620
Comments: Early work to prepare information for the environmental documents lead to revising project scope from a box culvert to an arch culvert to reduce impacts and facilitate construction. This change caused an increase in PA&ED support. Right of Way support and capital costs increased due to an added parcel, additional utility impacts, and new relocation assistance. Increased mitigation and permit fees and demolition costs also increased Right of Way capital. Construction capital increases are due to the change in structure type and foundations, and revised roadway quantity assumptions. The change in structure type resulted in reevaluation of Construction support costs and additional on-site and off-site mitigation and post-construction monitoring support expenses. These changes add \$8,630,000 to the cost of the project.														
03	El Dorado	50	67.3	Near South Lake Tahoe, west of South Lake Tahoe at Echo Summit Sidehill Viaduct Bridge No. 25-0044. Rehabilitate or replace bridge.	3F530	3304	0313000135	201.110	2017/18	27	6,000	PA&ED	624	1,000
												PS&E	1,317	1,100
												RW	16	16
												Const	1,502	1,502
Comments: A PA&ED support cost increase, and a corresponding PS&E support decrease, has occurred because foundation drilling investigations have been moved earlier in the project development process to refine assumptions. In addition, PA&ED support costs increased due to the project team needing early studies for potential detour and traffic impacts that can be considered in the environmental document. These changes add \$159,000 to the cost of the project.														
03	Placer	80	28.5/31.5	In and near Colfax, from 0.3 mile south of Weimar Overhead to 0.3 mile south of Illinoistown Overcrossing. Rehabilitate culvert.	3E050	5096	0300020597	201.151	2017/18	82	1,143 1,043	PA&ED	490	290
												PS&E	260	260
												RW	60	60
												Const	380	380
Comments: A PA&ED support cost increase is needed for detailed field survey of the culverts and to study alternatives for work site access. The Construction capital amount has been reduced as a result of the removal of two culverts from the project scope. One culvert being removed is to be done as a separate project due its deteriorating condition and urgency for repair. The second culvert is being removed from the project since it was already repaired. These changes are a net zero cost for the project.														
03	Sacramento	5	9.7/22.7	In Sacramento, from 1.1 miles south of Elk Grove Boulevard to Route 50. Install fiber optic cable. (G13 Contingency Project)	4F450	5846	0314000164	201.315	2016/17	600	0 6,600	PA&ED	540	540

04	Alameda	80		Near Oakland, at the San Francisco Oakland Bay Bridge Toll Plaza Building. Reconstruct maintenance facilities.	01411	0064Q	0414000436	201.352	2016/17	20	12,450	PA&ED	0	0
												PS&E	1,500	1,500
												RW	15	15
												Const	3,000	4,000
Comments: An increase to Construction support due to the use of LEED certification on the project. LEED building projects have specialty design and construction administration considerations. There is a need to review multiple and complex Requests for Information (RFI's) and submittals by subject matter experts in various disciplines including materials quality control/assurance during construction administration. This change adds \$1,000,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
04	Alameda	680	M0.0/M4.0	In Fremont, from south of Scott Creek Road to Auto Mall Parkway. Rehabilitate roadway.	3G602	0587J	0414000484	201.120 201.122	2016/17	10 160	16,500 17,600	PA&ED	0	0
												PS&E	2,470	2,470
												RW	80	80
												Const	3,300	3,300
Comments: Hydraulic analysis of the roadway determined a need to increase the roadway cross slope to standard; at an increased Construction capital cost. Environmental consultation with the resource agency determined environmental mitigation is required. This results in increased Right of Way capital to purchase mitigation bank "credits". A traffic safety screening analysis determined there are no safety concerns and this project should be classified more appropriately as a 201.122 programmed project. These changes add \$1,250,000 to the cost of the project.														
04	Alameda	680	M4.0/R12.4	In and near Fremont, from Auto Mall Parkway to Koopman Road. Rehabilitate roadway.	3G601	0587E	0414000483	201.12	2016/17	10	18,860 25,360	PA&ED	883	883
												PS&E	2,830	2,830
												RW	170	170
												Const	2,830	4,200
Comments: This project is being combined for construction with the Northbound Express Lane Project (EA 04-4G053) sponsored by the Alameda County Transportation Commission (ACTC). The original programed amount assumed that the express lane project would widen the inside and outside shoulders and therefore limit the SHOPP rehab work to just the existing travel way. Subsequent design exceptions will allow the express lane to be constructed without widening the shoulders for a portion of the project length. The SHOPP project rehab scope therefore increases to include rehab work on the shoulders for this area. The scope change results in an increase to Construction capital and support. This change adds \$7,870 to the cost of the project.														
04	Alameda	880	11.9/27.5 11.8/27.5	Near In and near Union City, Hayward, San Leandro, and Oakland, from 0.4 mile north of Fremont Boulevard Overcrossing to A-Street Undercrossing; also from 0.1 mile south of Washington Avenue Overcrossing to south of High Street undercrossing separation and overhead. 												PS&E	700	840
												RW	400	265
												Const	355	426
Comments: Increase to design support, Construction support and Construction capital to accommodate for a newly identified upgrade to the bridge rail and guardrail standards and to address bridge deck drainage issue. Also, an increase in Right of Way support and Right of Way capital is needed to address easement parcel that impacts storage facilities below the bridge. These changes add \$1,095,000 to the cost of the project.														
04	Marin	1	0.3	Near Mill Valley, at Tennessee Valley Road. Repair roadway slip-out.	2J560	1485J	0414000529	201.131	2017/18	5 50	1,214 1,515	PA&ED	420	750
												PS&E	525	525
												RW	18	18
												Const	357	525
Comments: Numerous utility conflicts have resulted in increased PA&ED support and Right of Way capital to positively identify locations in the field using potholing methods, and to develop a detailed mapping and advance preliminary design for relocation or workarounds. Early coordination with local partners has increased costs as well. The project scope has changed to include a roadside gutter to minimize sheetflow across the road and reduce slope erosion which increased Construction capital. Construction support has increased due to need for extensive public outreach for traffic management, biological monitoring of the environmentally sensitive areas of the project, and to manage the restrictive work windows that will increase the construction duration. These changes add \$847,000 to the cost of the project.

Comments: Change G13 Contingency project to a fully funded project. Increase to Construction support is due to the scope change which requires more working days, more inspection, and environmental monitoring than previously anticipated. The scope change is to bury the planned retaining wall and rock slope protection under a vegetated slope to blend into the surroundings per the National Park Service requirement. This change converts construction support from previous \$515,000 to \$830,000, adding \$315,000 to the cost of the project.														
04	Marin	101	10.6/10.9	In San Rafael, from Route 101 northbound off-ramp to 2nd Street at San Rafael Harbor Bridge No. 27-0033. Replace bridge.	4G820	0350H	0413000049	201.110	2017/18	570	7,264	PA&ED PS&E RW Const	630 600 300 900	900 600 300 900
Comments: The project team is analyzing several design alternatives that require more effort than a typical bridge project. The studies being conducted require detailed mapping, advance preliminary design, extensive public outreach and early regulatory agency coordination, all at an increase in support cost. This change adds \$270,000 to the cost of the project.														
04	Napa	29	13.5/25.5	In and near Napa and Yountville, from north of Trancas Street/Redwood Road to Mee Lane. Rehabilitate pavement.	4H200	0378E	0413000258	201.121	2016/17	95 153	17,100	PA&ED PS&E RW Const	510 1,900 35 2,100	510 1,900 35 2,100
Comments: Increase to Right of Way capital due to the addition of a temporary construction easement and a permanent drainage easement that are required for curb ramps and drainage work. Also, additional utility positive verification potholing is required due to the guardrail and drainage system work. This change adds \$58,000 to the cost of the project.														
04	Napa	29	37.0	In Calistoga, at Napa River Bridge No. 21-0018. Environmental mitigation and plant establishment for bridge replacement project.	3G64A	0587M	0416000349	201.111	2019/20	85	500	PA&ED PS&E RW Const	0 200 400 150	
Comments: Split of this mitigation project from parent EA 04-3G640 to create a separate project for on-site riparian plantings with three to five year plant establishment requirements, habitat creation for freshwater shrimp with ten year monitoring and reporting requirements, and water treatment of reworked impervious surface area off-site mitigation.														
04	Napa	121	9.2/9.4	Near Napa, at Sarco Creek Bridge No. 21-0008. Plant establishment for bridge replacement project.	2A32A	0380N	0416000347	201.111	2017/18	100	100	PA&ED PS&E RW Const	0 50 30 70	
Comments: Split of this mitigation project from parent EA 04-2A320 to create a separate project for plant establishment and monitoring period. Increased cost for PS&E design for the mitigation project. These changes add \$50,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)

04	Napa	128	R7.4	Near Rutherford, at Conn Creek Bridge No. 21-0021. Replace bridge.	1G430	0587H	0412000126	201.111	2016/17 2017/18	20 3,800	7,165	PA&ED	960	1,188
												PS&E	1,050	1,500
												RW	150	950
												Const	1,000	1,000
Comments: Preliminary design work identified conflicts between a bridge wing wall and large waterline main that needs to be avoided. The wall design has been modified to eliminate the need for a utility relocation, increasing preliminary and design support costs. Other utility conflicts have contributed to an increase in design and Right of Way support. Right of Way capital and support have increased due to the addition of parcel to accommodate utility relocations, construction staging areas and access road, and creek diversion system. In addition, environmental impact mitigation has also increased these costs. Also, a fiscal year delay is due to utility relocation conflicts with necessary construction work and the addition of right of way property takes. These changes add \$5,258,000 to the cost of the project.														
04	San Mateo	1	44.0	In Pacifica, at San Jose Avenue Pedestrian Overcrossing Bridge No. 35-0240. Replace bridge.	4G850	0681Q	0413000052	201.110	2016/17	5	3,662 4,445	PA&ED	500	500
												PS&E	400	1,750
												RW	100	125
												Const	450	1,400
Comments: The Construction capital estimate has increased, during advance design due to an increase in the price index used to account for updated material costs, inflation, and escalation for the year of construction. Cost also increased due to a change in the bridge foundation design and a refinement of the bridge length. Support costs were underestimated during the project initiation phase and have now been increased using a "bottoms up" resource estimate approach. These changes add \$3,108,000 to the cost of the project.														
04	San Mateo	82	13.7	Near Burlingame and Hillsborough city limits, at the intersection of Route 82 and Floribunda Avenue. Install left turn signal.	1G020	0686	0400002011	201.010	2016/17 2017/18	1,765	2,253	PA&ED	846	846
												PS&E	1,300	1,300
												RW	450	450
												Const	700	700
Comments: Delay to the Fiscal Year (FY) delivery date to allow time for the full evaluation of an interim improvement requested by the local community. As the result of significant public comments received regarding the removal of trees and visual changes to the corridor, an operations pilot study was put in place for a temporary left-turn prohibition study before finalizing the environmental approval phase. These changes are a net zero cost for the project.														
04	Solano	84	12.1/12.2	Near Rio Vista, at Miner Slough Bridge No. 23-0035. Replace bridge. (G13 Contingency Project)	0G660	0886	0400000343	201.110	2018/19	2,884	0	PA&ED	1,836	1,836
												PS&E	2,754	3,500
												RW	1,098	1,098
												Const	0	0
Comments: As a result of consultations with environmental agencies, the bridge replacement alignment was changed. The roadway realignment added permanent take, and modified construction staging and planned construction methods. In addition, a control tower to operate the bridge swing span has been added. Also, additional permits will be required from various agencies, which were not needed previously. These changes increase the design PS&E support costs for the project. This change adds \$746,000 to the cost of the project.														
05	Monterey	1	2.5/67.3	South of Carmel, at seven (7) locations from north of the San Luis Obispo County line to south of Malpaso Creek Bridge. Rehabilitate and/or replace culverts.	1F080	2478	0513000052	201.151	2017/18	84 300	3,279	PA&ED	672	400
												PS&E	1,154	1,154
												RW	288	344
												Const	783	783
Comments: PA&ED support cost reduction by leveraging environmental studies done previously by three separate Minor A projects that later were developed into this current project. During PA&ED phase, it was determined that the project will require environmental mitigation sites which increases the Right of Way support and capital costs. These changes are a net zero cost for the project.														
05	Monterey	1	58.3/59.8	North of Big Sur, from south of Bixby Creek Bridge to south of Rocky Creek Bridge. Widen shoulders and upgrade guardrails.	1A000	2313	0500020284	201.015	2017/18	44 30	5,349	PA&ED	575	675
												PS&E	983	983
												RW	44	35
												Const	1,154	1,154
Comments: The project PA&ED support cost have increased to account for an environmentally sensitive location on the coast that requires more resources to obtain environmental clearances. Development of the draft Project Report has identified Right of Way capital and support increases for additional acquisitions, utility relocations and fees. These changes add \$140,000 to the cost of the project.

07	Los Angeles	1	0.1/4.0	In Long Beach, Signal Hill and Lakewood on various routes at various locations. Mitigate for stormwater quality by installing bio-filtration swales, basins, media filters and gross solid removal devices, and other best management practices (BMP's).	28660	4390	0700020900	201.335	2016/17	10	17,500 10,000	PA&ED PS&E RW Const	0 2,450 300 2,600	0 2,977 300 2,600
Comments: The scope has been reduced due to geometric constraints and the inability to satisfy the BMP type selection criteria along Routes 1 and 19 resulting in Construction capital reductions of \$7,500,000. The original PSSR identified five routes for the project, the supplemental PSSR in 2013 only proposed work on three routes. The scope was materially modified in the 2013 supplemental PSSR. Additional studies and field reviews were necessary to study the BMP's in the corridors and develop a supplemental PID resulting. These changes result in a net reduction of \$6,973,000 to the total cost of the project.														
07	Los Angeles	1	3.5	In Long Beach, at Lakewood Boulevard (Route 19) and Los Alamitos Traffic Circle. Install pavement delineation, overhead guide signs and associated roadway improvements.	29910	4632	0713000302	201.015	2016/17 2018/19	11	2,326	PA&ED PS&E RW Const	89 356 5 445	89 1,028 20 607
Comments: Preliminary research has identified the project location impacts a potential historic property. Additional environmental and archaeological studies and reports are required for compliance with Section 106 of the National Historic Preservation Act. The additional work will result in a two year delay and add \$849,000 to the cost of the project.														
07	Los Angeles	1	38.3/38.7	In the city of Los Angeles (Pacific Palisades), from north of Temescal Canyon Road to Bay Club Drive. Construct shoulders and upgrade guardrail.	27510	4159	0700000519	201.015	2016/17 2017/18	1,825 2,575	6,100	PA&ED PS&E RW Const	744 4,089 485 1,095	744 1,546 485 1,095
Comments: Right of way acquisitions were delayed due to a lengthy process in obtaining permits to enter the site to investigate for hazardous waste. A State beach will be impacted that will require a California Coastal Commission hearing, as well as multi-user utility coordination. These changes will delay the project one year and add \$1,207,000 to the cost of the project.														
07	Los Angeles	1	49.3/50.2	In Malibu, from Puerco Canyon Road to Corral Canyon Road. Reconstruct raised median island.	29930	4650	0713000310	201.010	2017/18	23	4,405	PA&ED PS&E RW Const	400 700 80 800	650 800 80 1,000
Comments: Due to the sensitive location of the project and the coordination required with the city and their adjacent bike lane project along the coast, additional design and environmental efforts are needed. Traffic chart now indicated a longer construction duration period than was planned. These changes add \$550,000 to the cost of the project.														
07	Los Angeles	1	56.5/56.9	In Malibu, from Guernsey Avenue to Trancas Canyon Road/Broad Beach Road. Replace bridge.	29140	4498	0712000094	201.110	2017/18	2,021	5,488	PA&ED PS&E RW Const	738 4,428 174 1,251	2,342 2,123 740 1,251
Comments: During PA&ED, an additional alternative was added to address some potential environmental issues. The additional alternative was in response to Coastal Commission concerns for fish passages and restoration of the lagoon which would require a longer structure that impacts a larger area. These changes add \$2,865,000 to the cost of the project.														
07	Los Angeles	2	R18.6	Near Glendale; also in various cities, on various routes, at various locations. Upgrade the existing communication system to all fiber optic communications. 07	Los Angeles	5	25.7	In the city of Los Angeles, near Glendale, at northbound off-ramp to Colorado Freeway Extension. Widen off-ramp, replace MBGR with concrete barrier, and widen LA River Bridge to reduce truck off-tracking. In the city of Los Angeles, near Glendale, at the northbound and southbound off-ramps to Colorado Freeway Extension. Widen off-ramp, replace MBGR with concrete barrier and widen Los Angeles River Bridge to reduce truck off-tracking.	29230	4505	0712000109	201.015	2016/17	25	3,300 3,784	PA&ED PS&E RW Const	140 440 15 435	140 1,753 37 1,040
Comments: The project also required additional analysis for bike detours, traffic study for ramp closures during construction in addition to a storm water report, hazardous waste memo, pile foundations and a series of complex environmental permits. These changes add \$2,454,000 to the cost of the project.														
07	Los Angeles	5	38.8/40.5	In the city of Los Angeles from Filmore Street to Rinaldi Street, also on Route 118 from Route 405 to west of San Fernando Road. Enhance highway worker safety by paving miscellaneous areas, install access gates and maintenance vehicle pullout areas.	29510	4586	0713000016	201.235	2017/18	0 1	2,053	PA&ED PS&E RW Const	443 333 0 466	250 883 5 800
Comments: The project was updated and additional resources were identified to address the extensive biological concerns of numerous threaten and endangered species, thus requiring a more complex environmental document. Also, DES resources were not included in the PID but are needed for the retaining walls and safety cable railings on the walls. These changes add \$1,027,000 to the cost of the project.														
07	Los Angeles	10	R11.0/R14.0	In the city of Los Angeles, from West Boulevard to Hoover Street. Enhance highway worker safety by installing Maintenance Vehicle Pullouts, access gates and other measures.	29600	4597	0713000034	201.235	2017/18	0	1,749	PA&ED PS&E RW Const	110 438 5 531	110 985 5 531
Comments: During field review ten more locations were identified within the limits of the project, some of the locations required additional functional units that were not identified during the PID phase, such as hydraulics, and detailed surveys. It was determined that the metal beam guardrail systems had to be addressed and may need upgrading. The project will require more effort due to the implementing of the 2015 Specs and District 7 OMS which was not considered in the PID. These changes add \$547,000 to the cost of the project.														
07	Los Angeles	10	R14.0/19.0	In the city of Los Angeles, at Santa Monica Viaduct Bridge No. 53-1301. Paint and rehabilitate bridge. (G13 Contingency Project)	29660	4599	0713000057	201.110	2016/17	434 2,400	0 65,640	PA&ED PS&E RW Const	0 3,024 30 0	0 3,024 30 5,904
Comments: Change G13 Contingency project to a fully funded project. The project involves several different railroad lines, which will require C&M agreements, temporary and permanent construction easements, and the acquisition of several parcels with the potential for condemnation. In addition, there is now a need for a staging area that impacts a parking facility. These right of way increases add \$2,266,000 to the cost of the project.														
07	Los Angeles	19	4.0/8.4 5.5/8.4	In Lakewood, Bellflower, Paramount and Downey, from Del Amo Boulevard to Gardendale Street. Upgrade curb ramps and sidewalks to Americans with Disabilities Act (ADA) standards. In Bellflower, Paramount and Downey, from Rose Avenue to end of route. Upgrade curb ramps and sidewalks to ADA standard.	28990	4485	0712000015	201.378	2016/17	507 1,500	2,910	PA&ED PS&E RW Const	300 705 45 600	300 1,050 765 1,050
Comments: During PA&ED, the scope was refined identifying several utilities and drainage facilities needed relocating that were not originally in the PID. The updated scope requires additional support resources and Right of Way capital, for fire hydrants, electrical poles, guy wires, signal poles, catch basins and inlet relocation. These changes add \$2,508,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
07	Los Angeles	27	0.0/11.1 7.9/10.1	Near Topanga, from Route 1 to Mulholland Drive. Enhance highway worker safety by installing weed barrier, paving maintenance vehicle pull-outs, and other measures. Near Glenview, from Entrado Drive to Woodland Crest Drive. Enhance highway worker safety by installing weed control under existing guardrail.	29960	4652	0713000314	201.235	2016/17	0	1,490 1,100	PA&ED PS&E RW Const	54 284 0 338	101 700 10 389
Comments: The project went through several iterations in order to coordinate with other CAPM projects in the areas, resulting in a supplemental Project Report that reduced the scope that was best included in adjacent projects. The increased support effort in design resulted in a reduction in Construction capital. These changes add \$87,000 to the cost of the project.														
07	Los Angeles	57	R7.7/R12.2	In San Dimas and Glendora from Route 10 to Route 210, also on Route 60 in and near the Cities of Los Angeles, Monterey Park and Montebello. Construct ADA curb ramp improvements.	29120	4494	0712000008	201.361	2016/17	252	2,257 2,515	PA&ED PS&E RW Const	200 400 450 400	200 900 450 800
Comments: During the environmental phase, an increase in the electrical work needed was identified. The number of pedestrian push button signals increased from 5 to 8, resulting in more electrical work. This change adds \$1,158,000 to the cost of the project.														
07	Los Angeles	60	R3.7/R6.3	In and near Monterey Park and Montebello, from Mednick Avenue to Markland drive. Enhance highway worker safety by installing Maintenance Vehicle Pullouts, access gates and other measures.	29580	4595	0713000037	201.235	2016/17	0	2,028 2,684	PA&ED PS&E RW Const	113 334 0 466	113 1,222 5 600
Comments: The PID did not account for retaining walls that are required for each maintenance vehicle pullout (MVP). It was during the Advance Planning Study, during the PA&ED phase, which identified the additional elements and cost. It was determined to defer 3 of the 5 locations so that two MVP's and retaining walls could be constructed. These changes add \$1,683,000 to the cost of the project.														
07	Los Angeles	4 91	7.7/9.2 R6.3/R8.4	In the cities of Los Angeles, Long Beach, Signal Hill, Lakewood, Carson, and Hawthorn on various routes at various location. Mitigate for stormwater quality by using Best Management Practices (BMP's). In the cities of Los Angeles, Long Beach, Signal Hill, Lakewood, Carson and Hawthorn. Mitigate Stormwater quality by using Best Management Practices.	28670	4387	0700020923	201.335	2016/17	35 55	43,200 18,720	PA&ED PS&E RW Const	0 5,000 700 5,000	0 5,670 30 5,000
Comments: The locations along Route 1 were removed because the constructability of the stormwater BMP devices were not feasible. The Construction support required to build the revised scope remains unchanged after evaluating site conditions and the specialized nature of the stormwater BMP devices on Route 91. In addition, aerially deposited lead was discovered that will require more design and construction resources. These changes result in a net reduction of \$24,480,000 to the cost of the project.														
07	Los Angeles	91	R11.4	In Long Beach, at Butler-Artesia Undercrossing Bridge No. 53-2169. Upgrade bridge rails and lower on-ramp to increase vertical clearance. Replace barrier and flashing beacons.	29170	4500	0712000095	201.112	2016/17	0	1,446	PA&ED PS&E RW Const	73 252 12 295	73 252 12 295
Comments: The barrier scope was reevaluated which resulted in a cost increase. In addition, it was concluded that lowering the ramp profile creates unforeseen hydraulic and utility relocation. The Department is going to initiate another project EA 07-32810 to improve the interchange and address the ramp vertical clearance. The existing programmed amount of the project is sufficient for the increased cost of the concrete barrier, flashing beacon and associated work. These changes are a net zero cost for the project.

												RW	25	25
												Const	345	345
Comments: It was determined that an access road needs to be redesigned which changes the project footprint. This change delays the environmental studies and will require a programming delay from FY 16/17 to FY 17/18 as well as a PA&ED support cost increase. These changes add \$300,000 to the cost of the project.														
10	Merced	99	R35.9/R37.3	In Merced and Stanislaus Counties near Turlock, from north of Bradbury Road to north of the Stanislaus County line. Rehabilitate pavement. (G13 Contingency Project)	1C180	3091	1014000101	201.122	2016/17	10	0 14,250	PA&ED	281	281

												RW	4	4
												Const	0	2,100
Comments: Change G13 Contingency project to a fully funded project.														
10	San Joaquin	12	44.9/48.4 17.1/17.7	In Lodi, from Westgate Drive to Route 99 from South School Street to South Central Street. Upgrade pedestrian curb ramps to ADA standards.	0Y550	3079	1013000239	201.361	2016/17	454 37	672 539	PA&ED	225	225
												PS&E	150	150
												RW	400	245
												Const	250	307
Comments: The project limits have been revised to keep the project within the programmed Construction capital amount and to address ADA grievance locations. A future project will be programmed to capture the remaining locations. However, Construction support costs have increased due to a resource review that determined the current programmed amount is not enough to provide adequate construction oversight. These changes result in a reduction of \$345,000 to the cost of the project.														
10	San Joaquin	99	0.0/6.8	In Stanislaus and San Joaquin Counties, from south of Pelandale Avenue to north of Yosemite Avenue/Route 120 East Junction. 												PS&E	2,650	2,650
												RW	122	122
												Const	0	3,825
Comments: Change G13 Contingency project to a fully funded project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
10	Stanislaus	5	27.0/27.5	Near Westley, at the Westley Safety Roadside Rest Area (SRRA). Upgrade water and wastewater systems.	0W630	3009	1012000021	201.235	2016/17 2018/19	0 5	2,387 4,001	PA&ED PS&E RW Const	124 592 0 728	260 904 6 806
Comments: During the design phase it was discovered that the proposed water and wastewater system cannot operate effectively with the existing facility electrical system. Therefore, an electrical upgrade is required at greater capital and support costs. Additional need for positive utility identification potholing increases Right of Way support and capital. A change to the delivery year is required due to the need for the electrical upgrade design. In addition, a separate project to upgrade the rest area buildings is scheduled to deliver in 2019; delay of this project will allow delivery on the same schedule so that projects can be combined to reduce the time this facility is closed. These changes add \$2,151,000 to the cost of the project.														
11	San Diego	5	R0.3/5.4	In the city of San Diego, at various locations from Camino De La Plaza to Main Street. Improve maintenance worker safety by constructing Maintenance Vehicle Pullouts (MVP), paving miscellaneous areas and repairing damaged systems that require frequent maint. In San Diego and Chula Vista, at various locations from Camino De La Plaza Overcrossing to Main Street Overcrossing. Construct pullouts and pave beyond gore areas to improve safety for maintenance personnel.	41090	1104	1112000138	201.235	2016/17	60	3,101	PA&ED PS&E RW Const	399 733 68 1,226	399 1,019 25 983
Comments: During the Design Phase an aerially deposited lead study and an additional hydraulic design was determined to be needed. Upon further refinement, it was also determined that right of way acquisition is not required and the Construction support can be reduced. These changes are a net zero cost for the project.														
11	San Diego	8	R0.1/R2.0 R0.1/2.0	In the city of San Diego, from west of Morena Boulevard to east of Hotel Circle North interchange ramps. Enhance striping and signage in westbound direction. In the city of San Diego, from 0.2 mile west of Morena Boulevard to 0.1 mile east of Hotel Circle North interchange ramps. Restripe westbound I-8, add an additional westbound lane and improve signage.	41480	1068	1112000193	201.010	2016/17	73 173	8,142 13,077	PA&ED PS&E RW Const	960 1,323 204 2,063	895 2,405 301 2,940
Comments: Underground utility conflicts and aerially deposited lead were discovered. Furthermore, high friction surface treatment, removal and replacement of a truss sign structure, additional grading/retaining wall and planting/irrigation are also needed for the project. These changes add \$7,026,000 to the cost of the project.														
11	San Diego	8	9.0/15.3	In the cities of San Diego, La Mesa, and El Cajon, from west of Lake Murray Boulevard to Johnson Avenue. Pavement rehabilitation.	40870	1062	1112000017	201.121	2016/17	4 90	17,423	PA&ED PS&E RW Const	636 1,142 7 2,988	636 1,715 52 2,988
Comments: During the design process, a more refined scope and accurate estimate was established. As a result, support and capital cost increases due to an increased in required ADA curb ramps. Also, an extensive pavement evaluation revealed additional dig-outs are now required. The scope reduction is being made to account for work that was being done by other projects. The scope reduction savings are being used to offset additional cost. These changes add \$707,000 to the cost of the project.														

2016 SHOPP Amendment 16H-002 Cost, Scope, Schedule and Technical Changes Includes Federal Emergency Relief Funds (\$ Thousands)														
Dist	County	Route	Post Miles	Description/Location	EA	PPNO	EFIS	Prog Code	FY	RW	Const	Support		
11	San Diego	8	49.0	Near Pine Valley, at Buckman Springs Safety Roadside Rest Area (SRRA). Rehabilitate SRRA sewer and water systems.	40910	1085	1112000043	201.235	2016/17 2017/18	0 20	3,275	PA&ED PS&E RW Const	698 1,251 20 1,034	698 1,251 0 1,034
Comments: The Department is continuing to coordinate with United States Forest Service (USFS) on finalizing wastewater system project scope to obtain USFS approval for permit amendment to rehabilitate the Safety Roadside Rest Area (SRRA). However, due to the uncertainty in obtaining approval in a timely manner, a programming year change from FY 16/17 to FY 17/18 is necessary. A Right of Way support decrease and Right of Way capital increase is needed to reimburse the USFS for their design plan review and for permit fees to the Regional Water Quality Control Board (RWQCB) for water testing. These changes are a net zero cost for the project.														
11	San Diego	79	31.3/49.9	Near Warner Springs and Oak Grove, at various locations from Buena Vista Creek Bridge No. 57-0063 to Chihuahua Creek Bridge (No. 57-0014). Upgrade bridge rails. In San Diego County, at various locations from Buena Vista Creek Bridge to Chihuahua Creek Bridge. Rehabilitate bridge railing on five bridges.	41430	1123	1114000024	201.112	2016/17	2 0	2,187 2,587	PA&ED PS&E RW Const	330 1,064 4 830	330 1,326 0 892
Comments: There is a need for additional scope which includes earthwork to meet safety requirements for Midwest Guardrail, reconstruction of shoulders near bridges and drainage facilities. Increase support costs due to aerial deposited lead study, design change from Type 736 barrier to Type ST-10 barrier at two of the bridges. However, there is a decrease in Right of Way capital and support because environmental permits are no longer required. These changes add \$721,000 to the cost of the project.														
11	San Diego	45 VAR		In various cities, on various routes at various locations. Repair bridge decks, rails, and replace approach slabs.	2M820	1173	1115000099	201.119	2016/17	0	2,364 2,325	PA&ED PS&E RW Const	0 651 0 679	0 651 0 679
Comments: Repair work at three locations will be addressed on other projects. The downsize in scope result in a net reduction of \$36,000 to the cost of the project.														
11	San Diego	VAR		In and near the cities of Chula Vista, National City, Coronado and San Diego on routes 5, 8, 52, 75, 163 and 805 at various locations. Upgrade curb ramps to comply with ADA standards.	40580	1022	1100020271	201.361	2017/18	90	4,394	PA&ED PS&E RW Const	841 1,856 134 1,129	841 1,856 134 1,678
Comments: The scope has changed to include more work locations, therefore the estimated number of working days has increased. This change adds \$558,000 to the cost of the project.														
11	San Diego	VAR		In various cities, at various locations. Upgrade existing guide signs to current standards.	41910	1129	1114000125	201.170	2016/17	0	10,674 11,571	PA&ED PS&E RW Const	640 1,224 5 1,486	640 1,334 0 986
Comments: The PS&E support cost and Construction capital cost have increased because the number of signs needing replacement have increased. However, Right of Way support and Construction support have decreased due to no right of way impacts and a decrease in the level of construction complexity. These changes add \$505,000 to the cost of the project.														
11	San Diego	VAR		In various cities, at various locations. Upgrade existing guide signs to current standards.	41911	1130	1114000126	201.170	2016/17	0	10,593	PA&ED PS&E RW Const	640 1,224 5 1,486	640 1,224 0 986
Comments: Right of Way and Construction support have decreased due to no right of way impacts and a decrease in the level of construction complexity. These changes result in a net reduction of \$505,000 to the cost of the project.
