To: CHAIR AND COMMISSIONERS

CTC Meeting: August 17-18, 2016

Reference No.: 4.1
Action

From: SUSAN BRANSEN
Executive Director

Subject: **STATE AND FEDERAL LEGISLATION**

ISSUE:

- 1) Should the California Transportation Commission (Commission) accept the staff report and provide comments on the legislation identified and monitored by staff as presented in Attachment A?
- 2) Should the Commission adopt the staff-recommended position on Assembly Bill (AB) 2796 (Bloom) as discussed in this book item?

RECOMMENDATION:

Staff recommends that the Commission:

- 1) Accept the staff report and provide direction to staff on legislation of interest in Attachment A; and
- 2) Remove opposition and adopt a neutral position to AB 2796.

BACKGROUND:

Except for bills that take effect immediately (such as bills with urgency clauses and tax levies) or bills in an Extraordinary Session, the state Constitution specifies that August 31st of each even year is the last day for the Legislature to pass bills in a regular two-year session. The final two weeks of August are reserved for floor sessions of both houses in order to pass and send to the Governor all remaining bills.

Commission staff have been diligently tracking bills affecting the state's transportation system and/or the Commission. Identified in Attachment A, these bills have been divided into two groups – the primary bills most critical to the Commission and a secondary list of bills that might be of interest to the Commission.

Assembly Bill 2796 (Bloom)

At its May meeting, the Commission adopted an “Oppose Unless Amended” position on AB 2796 (Bloom), which requires a minimum percentage of available funds from the Active Transportation

Program (ATP) to be awarded for planning and community engagement in disadvantaged communities as well as non-infrastructure activities. Staff recommended this position to the Commission due to concerns related to how the Commission could implement the bill as it was drafted at the time. First, the bill required five percent of available ATP funds to be awarded not just for planning but also for community engagement. Staff was unsure if this meant community engagement as part of the active transportation plan development process or if it could be interpreted more broadly as community engagement for any purpose. In order to successfully implement this bill, staff proposed that the author amend the bill to clarify what types of community engagement projects are eligible for this funding. Second, staff notes that, through their implementing responsibilities in the first two ATP cycles, the California Department of Transportation (Caltrans) has reported difficulty in being able to fund selected non-infrastructure projects because of various funding and program restrictions. This has led to frustration and time-consuming disputes between the applicants and Caltrans. Staff was concerned that a bill that mandates programming more of these types of projects could simply exacerbate this situation.

At the Commission's direction, staff reached out to the author to offer proposed amendments that could remove the Commission's opposition. As of June 30th, AB 2796 was amended to address all the concerns Commission staff raised in its analysis. Therefore, staff recommends that the Commission remove its opposition and adopt a Neutral position to AB 2796.

Update on Previous Commission Action

To date, the Commission has taken a position on 18 bills in 2016. Of these, only four continue to move through the legislative process. One bill, AB 2289 (Frazier), which clarifies existing law to permit Caltrans to use State Highway Operation and Protection Program (SHOPP) funds for operational improvements on the state highway system, was signed into law by Governor Brown on July 22nd. The following is an update on each of the bills still active in the Legislature.

AB 2126 (Mullin) State CM/GC Authority – Authorizes Caltrans to use the Construction Manager/General Contractor (CM/GC) method on twice as many projects as is currently authorized, from six to twelve. (Commission supports)

Status: Senate Floor

AB 2170 (Frazier) FAST Act Freight Funding – Requires revenues apportioned by formula to the state from the National Highway Freight Program established by the federal FAST Act to be deposited into the Trade Corridors Improvement Fund.

(Commission supports)

Status: Senate Floor

AB 2374 (Chiu) Regional CM/GC Authority – Expands regional transportation agencies' existing off-system CM/GC project delivery authority by also authorizing them to use it on ramps that are not on the state highway system. In addition, removes the requirement that the project be developed in accordance with an expenditure plan approved by voters.

(Commission supports)

Status: Senate Floor

AB 2620 (Dababneh) Proposition 116 Sunset – Requires the Commission to reallocate Proposition 116 funds to other passenger rail projects if the funds are not expended or encumbered by July 1, 2020.

(Commission supports)

Status: Senate Floor

Additional Bills of Interest

Several bills upon which the Commission has not taken a position, but that the Commission has been closely monitoring, continue to move through the legislative process. These include the following:

AB 2542 (Gatto) Reversible Lanes on State Highway System – Requires Caltrans or a regional transportation planning agency to demonstrate that reversible lanes were considered for any capacity-increasing project or a major street or highway lane realignment project submitted to the Commission for approval.

Status: Senate Floor

AB 2741 (Salas) California Transportation Plan – Requires the Commission to approve each future California Transportation Plan prior to Caltrans submitting it to the Legislature and Governor.

Status: Senate Floor

SB 1279 (Hancock) Transportation of Coal In-Bulk – Prohibits the Commission from programming or allocating any state funds for new bulk terminal projects, and requires terminal project grantees to annually report to the Commission that the project is not being used to handle, store, or transport coal in bulk.

Status: Assembly Floor

Attachment A – Status of all bills the Commission is monitoring this session.
