

## MEMORANDUM

To: CHAIR AND COMMISSIONERS  
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: December 4-5, 2019

From: STEVEN KECK, Chief Financial Officer

Reference Number: 3.4, Information Item

Prepared By: Amy Choi, Chief  
Division of Aeronautics

Subject: **FISCAL YEAR 2019–20-FIRST QUARTER REPORT-AERONAUTICS  
ACQUISITION AND DEVELOPMENT PROGRAM AND AIRPORT IMPROVEMENT  
PROGRAM**

### **SUMMARY:**

The attached report is the California Department of Transportation's (Department), Division of Aeronautics Fiscal Year 2019–20 First Quarter Report for the Acquisition and Development (A&D) and Airport Improvement Program (AIP) Matching Grants Programs, which will be presented as an informational item at the California Transportation Commission's (Commission) December 2019 meeting.

### **BACKGROUND:**

The Department's A&D and AIP Matching Grants Programs are funded by the Aeronautics Account in the State Transportation Fund. They are prepared in accordance with the California Public Utilities Code (PUC), sections 21683 and 21706.

The PUC provides that the Department, upon allocation by the Commission, may provide a matching grant to a public entity equal to five percent of the amount of a federal AIP Grant. Each year the Commission approves an annual allocation to match AIP grants. This allocation provides the authority for the Department to subvent matching funds to individual projects as requested by airport sponsors.

The Department's A&D Program is a biennial, two-year program providing State grants to airports for planning, construction, and land acquisition. A&D projects are state-funded at 90 percent of the total project cost with a 10 percent local match required. The Department provides the Commission with quarterly reports on the status of all sub-allocations made for State AIP matching grant funds and the status of all projects in the A&D Program.

*“Provide a safe, sustainable, integrated and efficient transportation system  
to enhance California’s economy and livability”*

It should be noted the Aeronautics Account is a continuously appropriated account, and any unused funds would revert to the Aeronautics account for use in future fiscal years.

## **ACQUISITION AND DEVELOPMENT PROGRAM**

### **BACKGROUND**

The California Department of Transportation’s (Caltrans) Acquisition and Development (A&D) Grants Program is a biennial, two-year program providing State grants to eligible, publicly owned, public-use airports for planning, construction, and land acquisition. The current 2018 A&D Program covers Fiscal Years 2018–19 through 2019–20, although all unallocated projects as of the end of 2018–19 have either been deprogrammed or moved to 2019–20.

The A&D Program is funded by the Aeronautics Account in the State Transportation Fund. It is prepared in accordance with California Public Utilities Code, sections 21683 and 21706. Local agency project requests are categorized and ranked based on criteria set by the California Transportation Commission (Commission). Eligible project categories include enhancing safety, capacity, and security, as well as preparing Airport Land Use Compatibility Plans.

A&D projects are State funded at 90 percent of the total project cost with a 10 percent local match required.

### **PROGRAM SUMMARY**

This report is for Caltrans’ A&D Program for the First Quarter of the 2019–20 Fiscal Year. This report includes the status of the unallocated, allocated, and completed projects, as applicable.

There is a total of 20 projects, valued at \$3 million, currently programmed in the A&D Program. Of the 20 programmed projects, 5 projects have been allocated (valued at \$914 thousand). A total of 15 projects have yet to be allocated (valued at \$2 million). A fund transfer was not authorized by the Department of Finance for the 2018 A&D Program, resulting in 15 projects from the A&D Program to remain unallocated as of this report.

The following spreadsheets include the status of the A&D Program.

## **FEDERAL AIRPORT IMPROVEMENT PROGRAM MATCHING GRANTS**

### **BACKGROUND:**

The California Department of Transportation (Caltrans), Division of Aeronautics' AIP Matching Grants Program (Program) is funded by the Aeronautics Account in the State Transportation Fund. It is prepared in accordance with the California Public Utilities Code (PUC), sections 21683 and 21706.

Section 21683.1 of the PUC provides that Caltrans, upon allocation by the California Transportation Commission (Commission), may provide a matching grant to a public entity up to five percent of the amount of a federal AIP grant.

Each year the Commission approves a lump sum to match Federal Aviation Administration (FAA) AIP grants. This allocation provides the authority for Caltrans to subvent matching funds to individual projects as requested by airport sponsors.

Caltrans provides the Commission with quarterly reports on the status of all sub-allocations made for State AIP Matching grant funds. It should be noted that the Aeronautics Account is a continuously appropriated account, and any unused funds revert to the Aeronautics Account for use in future fiscal years.

### **PROGRAM SUMMARY:**

The Department of Finance authorized a total \$2.5 million in fund transfers for the 2019–20 Program. At its June and August 2019 meetings, the Commission allocated \$1.4 million and \$1.1 million, respectively, for the 2019–20 Program. To assist as many airports as possible, a \$150,000 maximum per project is in effect for the current Program. During the first quarter of 2019–20, Caltrans sub-allocated a total of \$424 thousand toward 10 projects.
