*“Provide a safe, sustainable, integrated and efficient transportation system  
to enhance California’s economy and livability”*

**BACKGROUND:**

At its October 2019 meeting, the Commission passed Resolution G-19-05a increasing the Minor Program to \$250,000,000, and delegating to the Department the sub-allocation and adjustment authority for minor capital construction projects. The resolution also requires the Department to present its Minor Program annually to the Commission for review and approval. In addition, the resolution states that the following project identifiers be included for each project allocations in the upcoming fiscal year:

- Project description, location, expenditure authorization (EA) number and performance measures.
- Program sum for day labor (material acquisitions only), right of way capital, construction capital and construction support.
- An annual allocation amount for the construction capital and support costs and right of way capital of Minor B projects.

In accordance with Resolution G-19-05a, the Department, in consultation with Commission staff, has reviewed the Minor Program project lists as shown on each of the attachments.

**FINANCIAL RESOLUTION:**

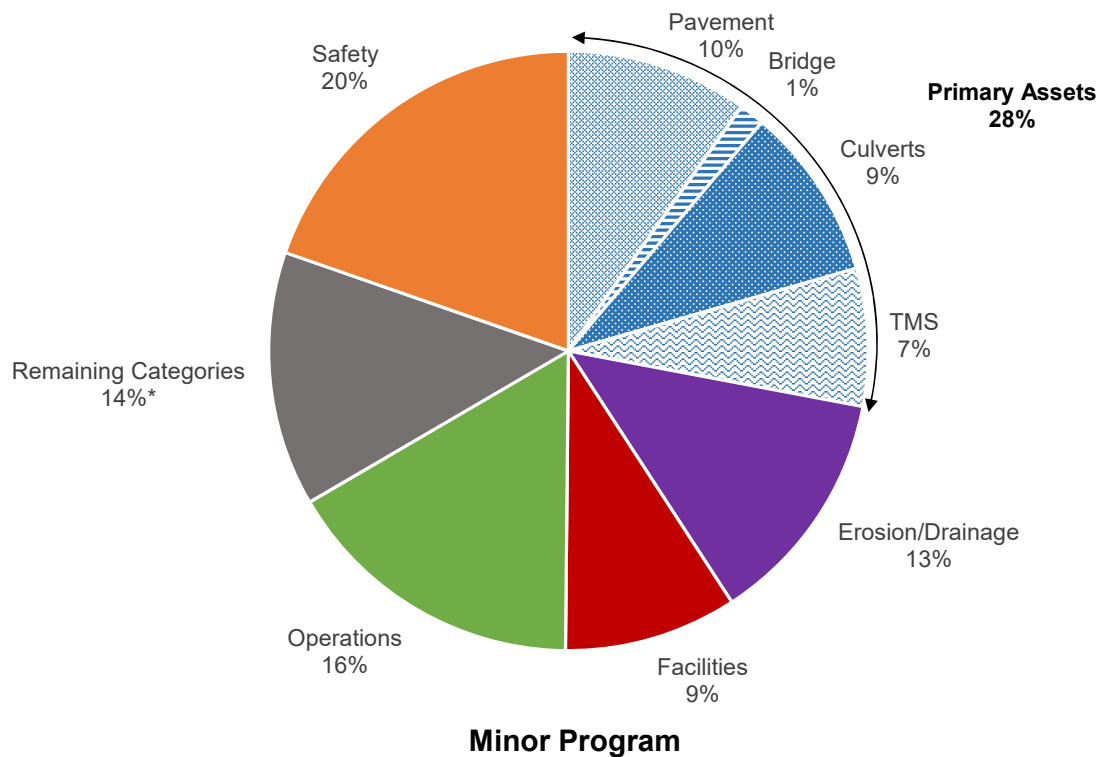

Resolve that the amount of \$146,478,000 for construction be allocated from Budget Act of 2020, Budget Act Items 2660-302-0042, 2660-302-0890 and 2660-303-0042, and \$103,522,000 for capital outlay support, as a lump sum amount for the Minor Program for 2020-21, contingent upon the passage of the Budget Act of 2020.
