Hi Doug,

Please see comments from our Executive Director, Marjie Kirn, for Tab 84.

Dear Vice Chair Norton, Commissioners and Executive Director Weiss,

On behalf of residents and commuters in our region, Santa Barbara County Association of Governments and Caltrans would like to express our appreciation to the CTC for allocating SB1 Solutions for Congested Corridors funding for Segment 4C of the Santa Barbara U.S. 101 Multimodal Corridor. This allows us to start construction in October on the second SB1 funded segment of the U.S. 101 corridor improvements. With your investment and support, we are continuing to make great progress in our corridor to improve infrastructure and access for pedestrians and bicyclists, close a gap on a carpool lane, as well as maintain and create jobs that we all know are critical right now to help our state and national economy in the midst of the pandemic. We look forward to the opportunity to show you our progress in person. Thank you to CTC staff for all your great work.

Thank you again, Marjie Kirn, SBCAG Executive Director
