## Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: March 21-22, 2024

From: TANISHA TAYLOR, Executive Director

Reference Number: 4.12, Action

Prepared By: Beverley Newman-Burckhard Assistant Deputy Director

Published Date: March 8, 2024

Subject: Approval of the 2021 Active Transportation Program Baseline Agreement for San Francisco County Transportation Authority's Yerba Buena Island Multi-Use Pathway Project

## **Recommendation:**

Staff recommends that the California Transportation Commission (Commission) approve the following Active Transportation Program Baseline Agreement submitted in accordance with the Commission's Senate Bill (SB) 1 Accountability and Transparency Guidelines and establish this agreement as the basis for project delivery and monitoring:

PPNO	County	Implementing Agency	Project Title (with embedded link to agreement)
2351	San Francisco	San Francisco County Transportation Authority	Yerba Buena Island Multi-Use Pathway Project

## <u>lssue:</u>

San Francisco County Transportation Authority requests the Commission approve the Baseline Agreement for the above-listed project programmed in the 2021 Active Transportation Program. The agency submitted this Baseline Agreement in accordance with the Commission's SB 1 Accountability and Transparency Guidelines. Approval of this Baseline Agreement will establish the basis for project delivery and monitoring.

Commission staff has reviewed this Baseline Agreement and determined that the expected benefits, delivery schedules, costs, and funding plans are consistent with the project approved by the Commission.

Reference No.: 4.12 March 21-22, 2024 Page 2 of 2

## Background:

The Commission adopted the SB 1 Accountability and Transparency Guidelines at its March 21, 2018 meeting and adopted revised Guidelines at its March 23, 2023 meeting. The Guidelines direct agencies to provide executed Baseline Agreements that set forth the agreed-upon expected benefits, delivery schedule, project cost, and funding plan. The Baseline Agreement provides a benchmark for comparison to the current status of a project for subsequent reporting purposes. The Baseline Agreement must be signed by the California Department of Transportation Director and District Director, the Commission's Executive Director, the project applicant, and the Implementing Agency.

#### STATE OF CALIFORNIA - CALIFORNIA TRANSPORTATION COMMISSION CTC-0001 (REV. 03/2023)

#### ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017 PROJECT BASELINE AGREEMENT

Yerba Buena Island Multi-use Pathway Project

Resolution

(to be completed by CTC)

#### 1. FUNDING PROGRAM

Active Transportation Program

- Local Partnership Program (Competitive)
- Solutions for Congested Corridors Program
- State Highway Operation and Protection Program
- Trade Corridor Enhancement Program

#### 2. PARTIES AND DATE

2.1 This Project Baseline Agreement (Agreement) effective on (will be completed by CTC), is made by and between the California Transportation Commission (Commission), the California Department of Transportation (Caltrans), the Project Applicant, San Francisco County Transportation Authority, and the Implementing Agency, San Francisco County Transportation Authority, sometimes collectively referred to as the "Parties".

#### 3. RECITAL

- 3.1 Whereas at its 6/23/2021 meeting the Commission approved the Active Transportation Program and included in this program of projects the Verba Buena Island Multi-use Pathway Project, the parties are entering into this Project Baseline Agreement to document the project cost, schedule, scope and benefits, as detailed on the Project Programming Request Form attached hereto as *Exhibit A*, the Project Report attached hereto as *Exhibit B*, the Performance Metrics Form, if applicable, attached hereto as *Exhibit C*, as the baseline for project monitoring by the Commission.
- 3.2 The undersigned Project Applicant certifies that the funding sources cited are committed and expected to be available; the estimated costs represent full project funding; and the scope and description of benefits is the best estimate possible.

#### 4. GENERAL PROVISIONS

The Project Applicant, Implementing Agency, and Caltrans agree to abide by the following provisions:

- 4.1 To meet the requirements of the Road Repair and Accountability Act of 2017 (Senate Bill [SB] 1, Chapter 5, Statutes of 2017) which provides the first significant, stable, and on-going increase in state transportation funding in more than two decades.
- 4.2 To adhere, as applicable, to the provisions of the Commission:

Resolution G-21-46	, "Adoption of Program of Projects for the Active Transportation Program", dated 6/23/2021
Resolution	, "Adoption of Program of Projects for the Local Partnership Program", dated
Resolution	, "Adoption of Program of Projects for the Solutions for Congested Corridors Program", dated
Resolution	, "Adoption of Program of Projects for the State Highway Operation and Protection Program", dated
Resolution	, "Adoption of Program of Projects for the Trade Corridor Enhancement Program", dated

- 4.3 All signatories agree to adhere to the Commission's Guidelines. Any conflict between the programs will be resolved at the discretion of the Commission.
- 4.4 All signatories agree to adhere to the Commission's SB 1 Accountability and Transparency Guidelines and policies, and program and project amendment processes.
- 4.5 San Francisco County Transportation Authority agrees to secure funds for any additional costs of the project.
- 4.6 San Francisco County Transportation Authority agrees to report to Caltrans on a quarterly basis; on the progress made toward the implementation of the project, including scope, cost, schedule, and anticipated benefits/performance metric outcomes.
- 4.7 Caltrans agrees to prepare program progress reports on a on a semi-annual basis and include information appropriate to assess the current state of the overall program and the current status of each project identified in the program report.
- 4.8 San Francisco County Transportation Authority agrees to submit a timely Completion Report and Final Delivery Report as specified in the Commission's SB 1 Accountability and Transparency Guidelines.
- 4.9 San Francisco County Transportation Authority agrees to submit a timely Project Performance Analysis as specified in the Commission's SB 1 Accountability and Transparency Guidelines.
- 4.10 All signatories agree to maintain and make available to the Commission and/or its designated representative, all work related documents, including without limitation engineering, financial and other data, and methodologies and assumptions used in the determination of project benefits and performance metric outcomes during the course of the project, and retain those records for six years from the date of the final closeout of the project. Financial records will be maintained in accordance with Generally Accepted Accounting Principles.
- 4.11 The Inspector General of the Independent Office of Audits and Investigations has the right to audit the project records, including technical and financial data, of the Department of Transportation, the Project Applicant, the Implementing Agency, and any consultant or sub-consultants at any time during the course of the project and for six years from the date of the final closeout of the project, therefore all project records shall be maintained and made available at the time of request. Audits will be conducted in accordance with Generally Accepted Government Auditing Standards.

#### 5. SPECIFIC PROVISIONS AND CONDITIONS

- 5.1 <u>Project Schedule and Cost</u> See Project Programming Request Form, attached as <u>Exhibit A</u>.
- 5.2 Project Scope

See Project Report or equivalent, attached as <u>Exhibit B</u>. At a minimum, the attachment shall include the cover page, evidence of approval, executive summary, and a link to or electronic copy of the full document.

5.3 Performance Metrics

See Performance Metrics Form, if applicable, attached as Exhibit C.

5.4 Additional Provisions and Conditions (Please attach an additional page if additional space is needed.)

Project Title

Bay Skyway Phase 1 - Yerba Buena Island Multi-Use Path

#### Location (Project Limits), Description (Scope of Work)

Bay Skyway Phase 1 is located in San Francisco Bay Area, is a bicycle highway on the I-80 /interregional corridor from West Oakland to Treasure Island and downtown San Francisco. This project helps to complete a missing link in the Bay Trail that will connect San Francisco with the East Bay. The Yerba Buena Island (YBI) Multi-Use Path connects the eastern touchdown of the East Span path on YBI with the Treasure Island ferry terminal on Treasure Island.

This separated multi-use bike/ped pathway connection will allow East Span path-users to safely walk, bike, and e-bike within the planned network of bikeways between Oakland and the Treasure Island ferry terminal on Treasure Island. The Bay Skyway project will also provide 24,000 future residents of Treasure Island a first/last mile active transportation connection with intercity rail services, including BART in Oakland and Capitol Corridor and Amtrak service in Oakland and Emeryville.

#### Date 12/22/2023 15:58:04

#### Purpose and Need

There are multiple objectives that the Project will support, benefiting the needs of the communities in the project area, the region, and State goals. California is dedicated to reducing CO2 emissions across the state. Transportation drives 50% of these emissions. Shifting trips to walking, biking, and e-bikes is the most effective way of reducing these emissions. Bay Skyway Phase 1 will offer 1.3 million people the choice of using bike/e-bike to cross this congested corridor, rather than relying on emitting transportation modes. Additionally, Bay Skyway Phase 1 includes a low-cost transit option for communities in the corridor.

Treasure Island and Yerba Buena Island (YBI) are currently being transformed from their current uses as a small residential community and former military base to a mixed-use, mixed-income, transit-oriented new neighborhood with 8,000 new residential units, 27% of them affordable, and about 2,200 jobs at full build out, according to the city's 2011 economic impact report. The Treasure Island Transportation Implementation Plan (TITIP) outlines a program of mobility improvements including expanded transit, congestion management, and transportation demand measures to achieve a goal of 50% of future island trips being made by walking, biking, or transit. The plan envisions a comprehensive network of bicycle and pedestrian pathways to provide access to all parts of the island.

The existing roadways connecting the East Span landing to the new Treasure Island Ferry Terminal are narrow and mostly without sidewalks. The YBI Multi-Use Path will connect the west end of the existing East Span path with the Treasure Island ferry and the rest of Treasure Island's planned biking and walking network, and will join the existing East Span path with the future one on the Bay Bridge West Span. The YBI Multi-Use Path will provide a safer, ADA-compliant space to walk and bike for those traveling between Oakland and San Francisco as well as the residents of Treasure Island. This Project will give Treasure Island residents access to Oakland jobs and other destinations and eventually to a multi-use path on the Bay Bridge West Span via Bay Skyway Phase 2.

#### Additional Information

Interregional Benefits of the Bay Skyway Phase 1, which includes the Yerba Buena Island Multi-Use Path.

As part of the Bay Skyway Phase 1 Project, the Yerba Buena Island (YBI) Multi-Use Path and West Oakland Link (WOL) Path will connect local communities in YBI, Treasure Island, and East San Francisco Bay Area residents, particularly disadvantaged communities in West Oakland, to San Francisco. On the east end, the WOL will provide safer access for bicyclists and pedestrians by separating them from vehicles traveling from West Oakland to the existing Bay Skyway East Span Path, located on the San Francisco-Oakland Bay Bridge (I-80) to YBI. From there, the YBI multi-use path will connect the existing Bay Skyway East Span Path from YBI to the Treasure Island Ferry Terminal, where travelers can continue their journey to San Francisco via ferry service. Bay Skyway Phase 1 is estimated to reduce VMT, and person-hours traveled on the Bay Bridge and Transbay Corridor by 192.3 million miles and 13.6 million hours over the 20 years of analysis. The West Oakland Link is particularly important to improve safety and freight operations by eliminating interactions between trucks and freight rail cars at the Port of Oakland by creating an elevated path above the Port's infrastructure. The Port of Oakland handles 99 percent of all containerized goods that move through Northern California, with many trucks utilizing the Bay Bridge Transbay Corridor to move goods to the San Francisco Peninsula and communities along the California coast. One of the benefits of the Bay Skyway Phase 1 Project is that it will encourage local drivers to switch to active transportation, thus freeing up capacity and improving traffic on the Bay Bridge for freight trucks to transport cargo more efficiently to other regions. A preliminary study showed that up to 10% of automobile trips on the Bay Bridge can be served by bikes.

The overall plan is to connect the YBI multi-use path from YBI to San Francisco via the planned Bay Skyway Phase 2 West Span Path to provide a multi-use path across the San Francisco Bay from West Oakland to San Francisco. This would provide a low-cost, active transportation alternative to driving across the San Francisco-Oakland Bay Bridge, mitigating congestion and providing an alternative emergency evacuation route. The Bay Skyway Phase 1 also provides an alternative evacuation route from Treasure Island (also from San Francisco via ferry) to the East Bay in emergencies when traffic on the Bay Bridge is disrupted. In addition to adding bicycle, pedestrian, and micromobility trips as an option for the busy Transbay corridor, the Bay Skyway Phase 1 will help improve transit by helping fund charging infrastructure for a frequent electric ferry between Treasure Island and downtown San Francisco. In addition, the City of San Francisco has a high tourism volume from outside of the region. It is anticipated that when the Bay Skyway Project is complete, nearly 25% of the peak hour bike ridership forecast will be from tourism.
