

MEMORANDUM

To: CHAIR AND COMMISSIONERS
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: January 29-30, 2026

From: STEVEN KECK, Chief Financial Officer

Reference Number: 4.9, Information Item

Prepared By: James R. Anderson, Chief
Division of Financial Programming

Subject: **TRAFFIC CONGESTION RELIEF PROGRAM – ANNUAL REPORT**

SUMMARY:

The California Transportation Commission (Commission) oversees the Traffic Congestion Relief Program (TCRP). Program guidelines require lead agencies to provide regular updates on project status. According to the Commission's policy, the updates will be provided annually. The California Department of Transportation helps the Commission manage the annual reporting process.

With the passage of Senate Bill (SB) 1 (Beall, 2017), the TCRP was deemed complete and final as of June 30, 2017, with no further programming or allocations of TCRP projects. Therefore, there was no project activity for Fiscal Year (FY) 2024-25 other than ongoing project expenditures.

As of June 30, 2025, of the \$4,908,900,000 legislated to the Traffic Congestion Relief Fund (TCRF), \$4,572,059,000 was programmed and \$4,564,296,000 was allocated. The TCRP originally legislated 141 specific projects, some of which have been subdivided, creating a total of 217 individual projects.

BACKGROUND:

The Traffic Congestion Relief Act of 2000 (Assembly Bill 2928, Chapter 91, Statutes of 2000 and SB 1662, Chapter 656, Statutes of 2000) established the TCRP and committed \$4,908,900,000 to 141 specific projects statewide.

PROGRAM STATUS:

Programming: Of the \$4,908,900,000 legislated for the TCRP, a total of \$4,572,059,000 in TCRF funding had been programmed to projects or project components.

Allocations: As of June 30, 2017, at the close of the program, a total of \$4,564,296,000 had been allocated to programmed projects. As of June 30, 2025, approximately \$4,448,518,000 has been expended.

Number of TCRP projects: According to TCRP statutes, 141 projects were originally identified. Subsequently, 39 of those projects were subdivided, establishing a total of 217 TCRP projects approved by the Commission. Of these 217 projects, 14 were either substituted with other projects and not funded, or the funding was incorporated into other TCRP projects, leaving a total of 203 projects funded with TCRF funds.

During FY 2024-25, no projects or TCRP-funded phases were reported as completed. As of June 30, 2025, a total of 209 projects have been completed or considered closed. This total includes 14 projects that were either not funded, or funding was later transferred to other projects or segments.

The remaining eight projects will continue to be reported on annually until completion. The attachments provide a list of currently active TCRP projects as well as those TCRP-funded phases that are considered complete or closed.
