

Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: June 25-26, 2026

From: TANISHA TAYLOR, Executive Director

Reference Number: 4.19, Action

Prepared By: Anja Aulenbacher
Associate Deputy Director

Published Date: June 12, 2026

Subject: 2023 Active Transportation Program Funding Distribution Project Amendment,
Resolution G-26-53, Amending Resolution G-25-48

Recommendation:

Staff recommends the California Transportation Commission (Commission) approve a funding distribution amendment to the 2023 Active Transportation Program Metropolitan Planning Organization (MPO) Component as reflected in the updated Program of Projects (Attachment A).

Issue:

The 2023 Active Transportation Program MPO Component included the City of Ventura's Santa Paula Trail, East Ventura Station to east of Wells Road Project (PPNO 6194). Ventura County Transportation Commission and the City of Ventura request to reprogram \$1,770,000 in right of way savings to the construction phase. This amendment is an exception to Active Transportation Program Guidelines, which do not allow funding distribution amendments after allocation.

The project's right of way cost was not as high as anticipated, leading to \$1,770,000 in savings. It was initially anticipated that more right of way work would be necessary, however, actual activities were limited to negotiation with a single parcel owner that reduced the need for overall appraisal and legal efforts, resulting in cost savings. This project represents one segment of a 32-mile trail that will connect the region. However, the project's construction costs are considerably higher than anticipated because of design refinements developed with stakeholders to meet safety and long-term compatibility requirements. The City requests to move the right of way funds to construction to contribute to the cost increase in the construction phase. Additionally, the City of Ventura has secured \$3,676,000 to cover the balance of the cost increase on the construction phase, which also includes \$20,417,000 in 2022 Solutions for Congested Corridors Program funds.

Staff recommends approval of this amendment because of the City’s prudent and efficient coordination of the right of way phase, and to support the region’s priority improving this corridor. Additionally, the City has been communicating and coordinating with Commission staff for more than a year to ensure timely delivery of this project. Granting this exception helps the City fill their construction phase funding gap preserving the viability of this Active Transportation Program and Solutions for Congested Corridor funded project.

The proposed amendment would move funds as shown in the chart below. The total funds programmed to the project will not change. Related items on this agenda include reference number 2.5w.(7), which requests approval to deallocate \$1,770,000 in Active Transportation Program funds from the right of way phase, reference number 4.13, which requests the Commission’s approval to amend the Baseline Agreement to reflect these changes, and reference number 2.5s.(5), which requests approval of the multi-funded construction allocation for this project.

PHASE	PSE (FY 23/24)	RW (FY 23/24)	CON (FY 24/25)	TOTAL ATP FUNDS
Original	\$4,438,000	\$2,278,000	\$ 70,000	\$6,786,000
Change	-	- \$1,770,000	+\$1,770,000	-
Proposed	\$4,438,000	\$508,000	\$1,840,000	\$6,786,000

Background:

The Active Transportation Program was created by Senate Bill 99 (Committee on Budget and Fiscal Review, Chapter 359, Statutes of 2013) and Assembly Bill 101 (Committee on Budget, Chapter 354, Statutes of 2013) to encourage increased use of active modes of transportation, such as biking and walking.

The Active Transportation Program Guidelines allow an agency to request to move funds between programmed phases provided the total programmed amount does not increase, the project remains fully funded, project benefits are preserved or improved, and an allocation has not yet occurred.

On June 28, 2023, the Commission adopted the 2023 Active Transportation Program MPO Component (Resolution G-23-49) which included \$6,716,000 for the City of Ventura’s Santa Paula Trail, East Ventura Station to east of Wells Road Project. The project will construct a Class I bicycle trail in the City of Ventura and unincorporated areas of Ventura County, providing an improved east-west bicycle and pedestrian route between the East Ventura Metrolink Station and east of Wells Road (State Route 118) along the Santa Paula Rail Line.

At the August 2024 Commission meeting, the Commission amended the 2023 Active Transportation Program MPO Component for the Southern California Association of Governments (Resolution G-24-67) to program \$70,000 to the construction phase for the Santa Paula Trail, East Ventura Station to east of Wells Road Project, bringing the total Active Transportation Program funds programmed to this project to \$6,786,000.

At the June 2025 Commission meeting, the Commission amended the 2023 Active Transportation Program MPO Component (Resolution G-25-48) to deprogram projects that requested cancelation. The City of Ventura’s Santa Paula Trail, East Ventura Station to east of Wells Road Project was not impacted by this amendment.

RESOLUTION G-26-53, amending Resolution G-25-48

Be it Resolved, that the Commission does hereby amend the 2023 Active Transportation Program Metropolitan Planning Organization (MPO) Component to move \$1,770,000 from the right of way phase to the construction phase for the Santa Paula Trail, East Ventura Station to east of Wells Road Project.

Be it Further Resolved, that Resolution G-25-48 is hereby amended to reflect the funding distribution change to the Santa Paula Trail, East Ventura Station to east of Wells Road Project (PPNO 6194); and

Be it Further Resolved, that all provisions stipulated in Resolution G-23-49 remain in effect.

Ventura County Transportation Commission

Reference No. 4.19
June 25-26, 2026
Attachment B

April 28, 2026

California Transportation Commission
1120 N Street, MS 52
Sacramento, CA 95814

Dear Ms. Aulenbacker:

The Ventura County Transportation Commission (VCTC) respectfully requests an amendment to the current Active Transportation Program (ATP) programming for PPNO 6194, Santa Paula Trail, East Ventura Station to east of Wells Road. Specifically, VCTC requests to reprogram \$1.770 million in savings from the Right-of-Way (ROW) Phase to the Construction Phase.

The Santa Paula Trail, East Ventura Station Project designs and constructs a Class I bicycle trail in the City of Ventura and unincorporated areas of Ventura County, providing an improved east-west bicycle and pedestrian route between the East Ventura Metrolink Station and east of Wells Road (State Route 118) along the Santa Paula Rail Line.

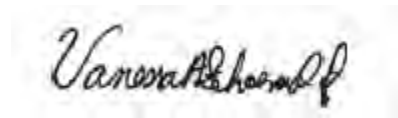

Current programming reflects \$2.278 million of ATP funds in the ROW Phase. The City anticipates approximately \$1.770 million in savings in this phase. It was initially anticipated that more right-of-way work would be required; however, actual impacts were minimal and largely limited to temporary construction easements. Coordination with the single affected farmland owner helped limit the extent of right-of-way needs, and overall appraisal, negotiation, and legal efforts were less extensive than originally anticipated, resulting in cost savings. These savings reflect the City's conservative, worst-case planning assumptions early in project development to account for potential right-of-way impacts that ultimately did not materialize.

The total Construction Phase cost is reflected as \$20.417 million in the currently approved Baseline Agreement. Updated cost estimates now reflect a Construction Phase cost of \$25.933 million. The increase in construction cost is primarily attributable to design refinements identified through continued coordination with a critical project stakeholder as the project advanced into final design. These refinements reflect stakeholder requirements identified through standard review and coordination processes and were incorporated to ensure the project meets safety, and long-term compatibility needs. In addition, construction cost escalation since initial programming, including increases in labor, materials, and contractor pricing, has contributed to the overall increase in the Construction Phase cost.

The project includes \$20.417 million in Solutions for Congested Corridors Program (SCCP) funds programmed in the Construction Phase. These funds were awarded in June 2023 as part of a \$75 million package supporting a suite of regionally significant transportation projects. The project team is prepared to request allocation for the Construction Phase at the June 2026 California Transportation Commission meeting. To assist with processing this request, VCTC has included an updated Project Programming Request (PPR) form.

Reprogramming the available ROW cost savings to the Construction Phase will allow the project to remain fully funded and advance construction consistent with the approved scope and schedule. We appreciate your consideration of this request and your continued support of ATP projects in Ventura County. If you have any questions, please contact me at (805) 642-1591, x 106 or vschoenewald@goventura.org.

Respectfully,

A handwritten signature in black ink, appearing to read "Vanessa Schoenewald", is centered on the page. The signature is written in a cursive, flowing style.

RE: SCAG Letter of Support for Funding Distribution Change: Santa Paula Trail, East Ventura Station to e/o Wells Road – City of Ventura

Dear Executive Director Taylor:

On behalf of the Southern California Association of Governments (SCAG), I would like to offer this letter of support for the city of Ventura's request for a funding distribution change for the Santa Paula Trail, East Ventura Station to e/o Wells Road Project, which was awarded through the MPO Component of ATP Cycle 6.

The city of Ventura is designing and constructing a Class I bicycle trail in the city of Ventura and unincorporated areas of Ventura County, providing an improved east-west bicycle and pedestrian route between the East Ventura Metrolink Station and east of Wells Road (State Route 118) along the Santa Paula Rail Line. The city is requesting to move cost savings in the Right-of-Way phase to the Construction phase because the actual Right-of-Way impacts were minimal and largely limited to temporary construction easements rather than the anticipated significant appraisal, negotiation, and legal efforts. Therefore, the city is requesting to shift \$1.77 million cost savings from the \$2.278 million currently programmed under the Right-of-Way phase to the Construction phase.

With a funding distribution change, the project is expected to continue supporting SCAG's Active Transportation component of Connect SoCal 2024, the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), which encourages the development of Complete Streets that comprise a safe, multimodal network with flexible use of public rights-of-way for people of all ages and abilities using a variety of modes. Increasing non-motorized transportation infrastructure will help improve safety and enhance public health in our region.

If you have any questions, please contact Courtney Aguirre, Manager of Mobility Planning and Goods Movement, at (213) 236-1990 or aguirre@scag.ca.gov.

Sincerely,

A handwritten signature in blue ink that reads "Kome Ajise". The signature is written in a cursive style with a large, looping initial "K" and a distinct "Ajise" at the end.

Kome Ajise
Executive Director
