Subject: Fix the road I drive every day

Dear CA Transportation Commission,

I'm a North Bay resident who depends on State Route 37 to get to work. That road costs me hours I could be spending with my family — the traffic is terrible, it floods, it stalls, and it gets worse every year.

The plan to fix it is ready. All that's left is the funding.

August 20-21, you can approve it and finally get this project moving. Please vote to approve the funds.

Sincerely,

Akash Tavva

Subject: From someone who drives 37 every day

Dear CA Transportation Commission,

I'll keep this simple. I drive State Route 37, and I know how badly it needs fixing. I sit in that traffic alongside a lot of working families who've waited long enough. The plan is ready, and it would protect the road from flooding while restoring the bay.

The plan is ready — all that's left is your vote to approve the funds August 20-21. Please vote yes. Fix 37, fund it now.

Subject: Working families can't wait any longer

Dear CA Transportation Commission,

Most of the people stuck on State Route 37 every day are working families just trying to get to their jobs across the North Bay. We've waited long enough (in traffic) while this road floods and fails.

We're not asking for a decades-away megaproject — we're asking you to fund the fix that's ready to build now. The plan is done and the money is nearly all in place.

August 20-21, please approve the funding and let this project move forward.

Subject: Working families can't wait any longer

Dear CA Transportation Commission,

I often work in Marin County, and our construction yard is in Sonoma. We often have to make it back to the yard in Sonoma in the afternoon, and it can take hours to make through the few miles, to get to Hwy 121 towards Sonoma, and get off 37. This is a huge waste of time and resources.

We're not asking for a decades-away megaproject — we're asking you to fund the fix that's ready to build now. The plan is done and the money is nearly all in place.

August 20-21, please approve the funding and let this project move forward.

I'm a North Bay resident who depends on State Route 37 to get to work. That road costs me hours I could be spending with my family — the traffic is terrible, it floods, it stalls, and it gets worse every year.

The plan to fix it is ready. All that's left is the funding.

August 20-21, you can approve it and finally get this project moving. Please vote to approve the funds.

Sincerely,

Natalia R

Subject: From someone who drives 37 every day

Dear CA Transportation Commission,

I'll keep this simple. I drive State Route 37, and I know how badly it needs fixing. I sit in that traffic alongside a lot of working families who've waited long enough. The plan is ready, and it would protect the road from flooding while restoring the bay.

The plan is ready — all that's left is your vote to approve the funds August 20-21. Please vote yes. Fix 37, fund it now.

Sincerely,

Noe Rivas

Subject: Working families can't wait any longer

Dear CA Transportation Commission,

Most of the people stuck on State Route 37 every day are working families just trying to get to their jobs across the North Bay. We've waited long enough (in traffic) while this road floods and fails.

We're not asking for a decades-away megaproject — we're asking you to fund the fix that's ready to build now. The plan is done and the money is nearly all in place.

August 20-21, please approve the funding and let this project move forward.

Dear CA Transportation Commission,

This fix 37 group is saying we need to upgrade 37 because it will be good for the environment. . . Im sick of groups using a green angle for everything. I want real reasons why we should do anything. pretending climate change will be somehow better if we build a new highway 37. Its just stupid and condescending to anyone with a brain. Do not fund this groups stupid project untill they stop pretending.

Subject: Fix the road I drive every day

Dear CA Transportation Commission,

I'm a North Bay resident who depends on State Route 37 to get to work. That road costs me hours I could be spending with my family — the traffic is terrible, it floods, it stalls, and it gets worse every year.

The plan to fix it is ready. All that's left is the funding.

August 20-21, you can approve it and finally get this project moving. Please vote to approve the funds.

Sincerely,

Jim Leonard

Subject: From someone who drives 37 every day

Dear CA Transportation Commission,

I'll keep this simple. I drive State Route 37, and I know how badly it needs fixing. I sit in that traffic alongside a lot of working families who've waited long enough. The plan is ready, and it would protect the road from flooding while restoring the bay.

The plan is ready — all that's left is your vote to approve the funds August 20-21. Please vote yes. Fix 37, fund it now.

Subject: Working families can't wait any longer

Dear CA Transportation Commission,

Most of the people stuck on State Route 37 every day are working families just trying to get to their jobs across the North Bay. We've waited long enough (in traffic) while this road floods and fails.

We're not asking for a decades-away megaproject — we're asking you to fund the fix that's ready to build now. The plan is done and the money is nearly all in place.

August 20-21, please approve the funding and let this project move forward.

Subject: From someone who drives 37 every day

Dear CA Transportation Commission,

I'll keep this simple. I drive State Route 37, and I know how badly it needs fixing. The plan is ready, and it would protect the road from flooding while restoring the bay.

I sit in that traffic alongside a lot of working families who've waited long enough.

The plan is ready — all that's left is your vote to approve the funds on August 21. Please vote yes. Fix 37, fund it now.

Sincerely,

Margaux Kelly

Re: State Route 37 allocations – Support for Items 108, 124 and 130

Dear Chair Falcon:

We write to express strong support for the State Route (SR) 37 allocations related to the Sears Point to Mare Island project, the Tolay Creek Bridge replacement and SR 121 intersection improvements that is part of the overall project, and the Novato Creek Bridge project. This effort represents exactly the kind of integrated, multi-benefit approach to transportation infrastructure, climate adaptation and ecological restoration that California must pursue as we confront the mounting challenges of sea level rise and our aging highway network.

The SR 37 corridor is one of the region's most vulnerable transportation assets. It is also an irreplaceable gateway to thousands of acres of tidal baylands with significant restoration potential. The projects before the California Transportation Commission in August reflect years of sustained collaboration among state agencies, regional bodies, and local partners, including Caltrans, California Department of Fish and Wildlife, the Metropolitan Transportation Commission, the San Francisco Bay Conservation and Development Commission, the Sonoma Land Trust, the Vallejo Flood and Wastewater District, and the San Francisco Bay Regional Water Quality Control Board. This level of coordination is not common but shows the value of good collaboration and communication across governmental agencies. We view the Resilient SR 37 Program as a potential national model for nature-based climate adaptation at scale.

Thank you for your consideration and support for these critical projects.

Sincerely,

Eileen White
