### SB 671 In-Person Meeting – Freight Data Workshop

The California Transportation Commission (CTC) invites you to a freight data workshop, hosted by the SB 671 team. The meeting will be in Sacramento and will be an opportunity to learn about the freight modeling that is being done by the U.S. Army Corps Engineer Research and Development Center and Lawrence Berkeley National Laboratory. This work is shaping California's plan for zero-emission freight infrastructure and is also influencing national work in this area.
