

Hello Subcommittee Members,

Thank you again for taking time to participate in our recent Data Implementation Subcommittee meeting. We appreciate your engagement during the presentation of the EQI user guide and the thoughtful discussion that followed.

As mentioned, we have prepared a set of exercises to help you interact with the EQI user guide. Attached you will find the four exercises paired with hypothetical projects. We encourage you to complete as many of these exercises as your time allows. Providing a high-level review of the user guide and completing the four exercises is anticipated to take approximately 4-6 hours. This can be scaled back based on your capacity.

We invite your feedback via email or you can [schedule a time](#) with our team to discuss your feedback in early June. Your feedback will be valuable in helping us assess the clarity and usability of the user guide, and we look forward to hearing from you.

For your convenience, here are the EQI resources referenced during the session:

- [EQI Web Map](#)
- [EQI Analytical Tool \(Beta version\)](#)
- [EQI Website](#)
- [Download EQI Version 1.0 spatial data](#)

Feel free to reach out if you have any questions as you work through the exercises. We look forward to your feedback!
