GREAT MALL PARKWAY PHASE 2 RESURFACING PROJECT

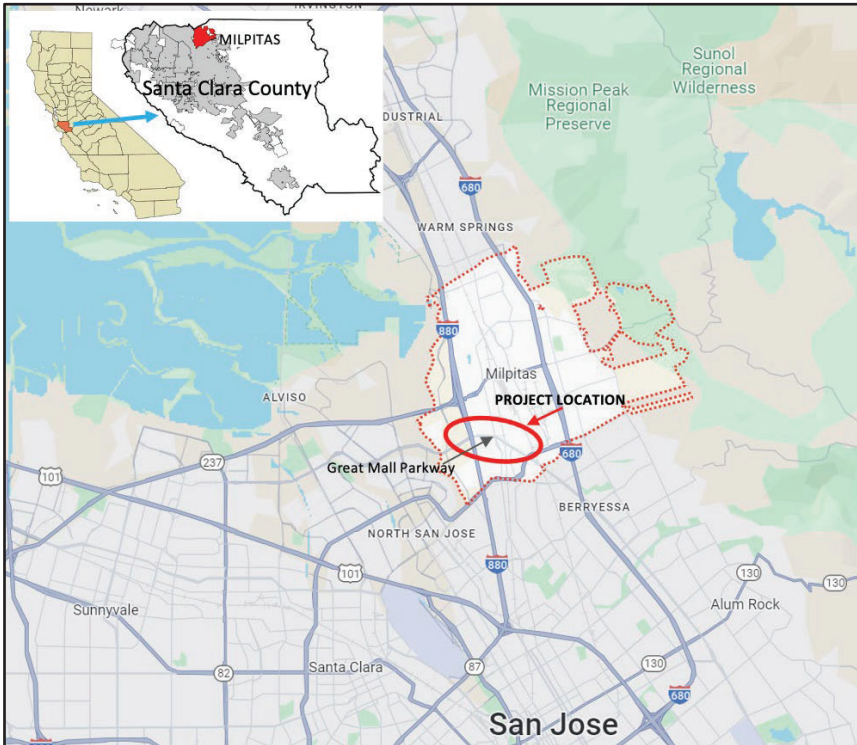

CTC Local Partnership Program

PROJECT SCOPE

The Great Mall Parkway Phase 2 Resurfacing Project (Project) will improve the safety, accessibility, and quality of the City of Milpitas's (City) roadway infrastructure for residents, business owners, commuters, and visitors. The Project improves 4.2 lane miles of Great Mall Parkway, East Tasman Drive, and Alder Drive by resurfacing the roadways with asphalt concrete pavement. The Project will also repair sidewalks, curbs, and gutters; install American Disability Act (ADA)-compliant curb ramps; provide Class II bike lanes with buffers; and install new roadway signage, high-visibility marked crosswalks and Accessible Pedestrian Signals push buttons. New and refreshed lane striping and pavement markings will also be completed as part of the Project. The proposed Project follows the successful completion of the resurfacing project completed in September 2024 (Phase 1) on the segment of Great Mall Parkway between I-880 northbound on/off ramp and McCandless Drive.

Project Location

Benefits

✓ *Improves Road Conditions* through pavement resurfacing.

✓ *Enhances Safety* for drivers, cyclists, and pedestrians through new pavement, updated signage, and better street markings, all of which can reduce pedestrian injury by 40%.

✓ *Increases Accessibility and Transportation Equity* by ensuring compliance with ADA standards for sidewalk repairs, curb ramp slopes, and crosswalk visibility enhancements.

✓ *Improves Public Health* by encouraging active transportation, promoting physical activity and reducing air pollution.

✓ *Extends Lifespan* of Great Mall Parkway , East Tasman Drive and Alder Drive.

✓ *Reduces GHG Emissions* by encouraging active transportation modes of travel.

✓ *Supports Regional* active transportation, housing, and land use goals.

Funding Request: \$3,458,440

Total Project Cost: \$4,611,254

Project Schedule: Construction is anticipated to begin in the spring of 2026 and be completed by the end of the year 2026.
